It is further agreed that if the Principal or the Surety shall fail to maintain the Improvement against any failures due to defective materials or workmanship for the Maintenance Period, and at any time repairs shall be necessary, that the cost of making the repairs shall be determined by the City Council of the City of Midwest City, or some person or persons designated by them to ascertain the cost of making the repairs. Attachment: Agreement with attachments
1.0. Parties. The United States of America or "the Government," represented by the National Museum of the United States Air Force (NMUSAF), and collectively referred to hereinafter as "the Lender," hereby establishes with the CITY OF MIDWEST CITY, hereinafter called "the Borrower," incorporated and operating under the laws of the State/Country of OK and located at MIDWEST CITY, a Loan Agreement hereinafter called "the Agreement" for U.S. Air Force (USAF) historical property. This Agreement is entered pursuant to Public Law 80-421 [10 United States Code (USC) §2572], and any amendments thereto, and is effective for the period commencing 1 April 2019 and ending 31 March 2020. This Agreement is not transferable.

2.0. Borrower Obligations/Costs. The Borrower has applied, in writing, for the loan of USAF historical property, and hereby agrees to be responsible for all arrangements and, in accordance with 10 USC §2572, is required to pay all costs, charges and expenses incident to the loan of this property, including, but not limited to, the cost of preparation, demilitarization, hazardous material removal, disassembly, packing, crating, handling, maintenance, repair, restoration, transportation and all other actions incidental to the use and/or movement of the loaned property to or from the Borrower's location.

3.0. Loaned Property. The NMUSAF shall loan to the Borrower the historical property identified in the inventory report, which has been included in the loan package and is incorporated into this Agreement by reference as if fully rewritten herein (hereinafter the "Property"). The Borrower accepts the Property on an "as is, where is" basis, and the Lender makes no warranties, expressed or implied, as to the Property's condition, fitness for any particular purpose, or other warranty of any kind.

4.0 Loan Conditions.

4.1. The Borrower agrees that the Property shall be used for static display purposes only. Loaned aerospace vehicles will not be flown or restored to flying condition under any circumstance, nor will they be licensed with the Federal Aviation Administration (FAA). The Borrower shall not remove any parts from loaned aircraft except as directed in paragraph 4.2. Relocation of the Property for temporary special events (parades, ceremonies, air shows, etc.) is not authorized under any circumstances. No decorations of any type, for any purpose (special event, seasonal display, ceremonies, etc.) are authorized to be displayed on any of the Property. The Property shall not be used in a manner that provides the appearance of endorsement by the USAF of any non-federal entity or political candidate, or the expression of a political viewpoint of any kind.

4.2. The Borrower agrees to allow the Lender to remove parts from loaned aerospace vehicles for the NMUSAF or military requirements, upon written direction from the NMUSAF. Such parts are generally internal in nature and removal or replacement should not alter the external aesthetic appearance of the aerospace vehicle.

4.3. The Borrower shall not part with possession of the Property or any component of the Property in any manner to any third party either directly or indirectly. The Borrower shall not enter into any negotiations with a third party regarding any future disposition of the loaned material, in whole or in part.
4.4. The Borrower agrees to all of the following: to use the Property in a careful and prudent manner; to not modify the Property in any manner, without prior written permission of the Lender, which would alter the original form, design, or the historical significance of said Property; to perform routine maintenance to include, but not limited to, annual upkeep, periodic painting, tire inflation, repair of damage, day-to-day care and management of the Property, so as to provide an acceptable appearance and to not reflect negatively on the Lender; and to display and protect the Property in accordance with the instructions set forth in Attachments 1 and 2, which are incorporated into this Agreement by reference as if fully rewritten herein.

4.5. The Borrower agrees that any additions, modifications or alterations that improve the Property become part of said Property and are owned by the NMUSAF.

4.6. Interior access to loaned aerospace vehicles (cockpit, cargo areas, etc.) for purposes other than maintenance or restoration work by persons other than staff or authorized maintenance personnel is prohibited. This is to ensure not only the integrity and preservation of the aircraft, but more importantly, the safety and security of the public.

5.0. Use as Security, Sale or Lease. The Borrower agrees not to use the Property as security for any loan, and not to sell, lease, rent, lend or exchange the Property under any circumstances.

6.0. Professional Photography. The Borrower shall not make or allow the use of the Property for any commercial purpose, including, but not limited to, use of the Property for still photography, motion picture, television or video production, without prior written approval from the Lender. Casual photography or motion video created by visitors for personal or non-promotional use is permitted.

7.0. Incident Reporting. The Borrower shall within one (1) working day of discovery, notify the Lender of any instance of loss, damage or destruction of the Property.

8.0. Title. The Borrower shall obtain no interest in the Property by reason of this Agreement and title shall remain in the Lender at all times.

9.0. Receipt, Custody & Liability.

9.1. This Agreement shall be executed prior to the Borrower accepting physical custody of the Property on or before 1 April 2019.

9.2. The Borrower agrees to provide a receipt to the Lender at the time it assumes physical custody of the Property (unless the Property is already in its possession).

9.3. The Borrower agrees that it is strictly liable for up to the full replacement value (FRV) of the Property, as identified in the inventory report, and to accept such liability upon assuming physical custody of the Property or execution of this Agreement, whichever occurs first.

9.4. The Borrower agrees that the FRV of the Property is as identified in the inventory report and waives any right to contest the FRV in any legal proceeding. In the event any item of the Property does not have an FRV identified in the inventory report, the FRV shall be determined at the sole discretion of the NMUSAF.

9.5. The Borrower agrees that if the Property, or any portion thereof, has been irreparably damaged, destroyed or stolen the NMUSAF may direct the Borrower to either replace the Property with an historical item of equal value to the satisfaction of the NMUSAF or require monetary reimbursement equaling the
FRV. In the event of less than total loss to the Property, or any portion thereof, the Borrower agrees to repair/replace the damage to the Property to the satisfaction of the NMUSAF or reimburse the NMUSAF for the full value of the damage, as determined by the NMUSAF. The election of a remedy under this subparagraph is at the sole discretion of the NMUSAF. This subparagraph is not intended to waive or limit the Government's rights and remedies, legal or equitable, and the Government reserves all such rights and remedies.

9.6. The Borrower agrees to place the Property on exhibit within ninety (90) days from the date it takes physical custody, or as otherwise mutually agreed upon.

10.0. Borrowers Responsibilities.

10.1. The Borrower agrees to indemnify, hold harmless, and defend the Lender from and against all claims, demands, actions, liabilities, judgments, costs, and attorney's fees, arising out of, claimed on account of, or in any manner predicated upon personal injury, death, or property damage caused by or resulting from possession and/or use of the Property.

10.2. The Borrower agrees to report, as requested, to the Lender on the condition and location of the Property. Further, the Borrower agrees to allow authorized Department of Defense representatives access to the Borrower's records and facilities to assure accuracy of information provided by the Borrower and compliance with the terms of this Agreement.

10.3. The Borrower agrees to return said Property to the Lender on termination of this Agreement or earlier, if it is determined that the Property is no longer required, at no expense to the Lender. In the event of a partial termination, the Borrower agrees to the return of all items of the Property subject to the partial termination, at no expense to the Lender.

11.0. Initial Loan Agreement Requirements.

11.1. The Borrower agrees to furnish the Lender a CD/DVD containing digital images of the Property within fifteen (15) days of taking physical possession of the Property. The image file name must be the accession number for that item (e.g. SD-2000-0123.JPG). For aircraft and ballistic missiles, images will include views showing all external surfaces including tail number and all accessible interior areas including instrument panels, avionics racks and equipment, aircrew, passenger, cargo and payload compartments, wheel wells, and bomb bays. Digital images for all other artifacts will be of sufficient detail to ensure positive identification of each object.

11.2. The Borrower shall arrange insurance coverage for the Property on an all-risk, wall-to-wall basis, at a minimum, for an amount that equals the total agreed upon FRV for all items in the inventory report, plus any additional amount to cover the inventory that does not have an identified FRV, so long as the Property remains in its possession. The Borrower further agrees to furnish the Lender proof of said insurance. For Borrowers with private insurance coverage, proof shall constitute a copy of the insurance certificate from the commercial provider, noting any deductible, and showing coverage up to the FRV of the Property and any additional coverage for Property that does not have an FRV identified in the inventory report. For self-insured organizations, proof shall constitute a written and signed statement attesting to its ability to reimburse the Government for the FRV of the Property (as identified in the inventory report and/or as determined by the NMUSAF).
12.0. Annual Loan Renewal Requirements.

12.1. The Borrower agrees to furnish the Lender a CD/DVD containing current digital images of the Property. The image name must be the accession number for that item (e.g. SD-2000-0123.JPG). Digital images of aircraft and missiles will provide general views to include sufficient detail to show the overall condition and tail number of the airframe. Digital images for all other miifacts will be of sufficient detail to ensure positive identification of each object and its current condition.

12.2. The Borrower agrees to furnish the Lender proof of insurance as required in subparagraph 11.2 for each renewal period.

12.3. The Borrower agrees to furnish a signed inventory as provided by the Lender with the annual renewal package, which accurately reflects the Property in its possession. Discrepancies in the inventory provided by the Lender shall be noted on the inventory report by the Borrower to the extent that such notes accurately reflect the current inventory held by the Borrower. In the event of a dispute, the Lender shall make the final determination of the current inventory on or near the renewal date and document the NMUSAF records accordingly.

13.0. Display/Maintenance Requirements.

13.1. No aircraft will be renovated, reconfigured, painted, have markings changed, or tail number altered, or any parts added, removed, or replaced as part of a planned restoration effort without prior written approval from the NMUSAF.

13.2. The Borrower agrees that all aircraft, missiles and miifacts on display will have an identification sign adjacent to each display. For aircraft and missiles note the type, model, and serial number. If the aircraft or missile has been reconfigured, markings changed, or serial number altered after acquisition for display purposes, it will be stated on the sign and noted in all records as follows:

"The (item) on display is actually (nomenclature), Serial No. ____________, but painted and marked to depict (nomenclature), Serial No. ____________, assigned to the (Unit and/or person) in (location or theater) during (year)."

13.3. The sign will state that the item is part of the NMUSAF collection as follows:

"This (miifact/object) is on loan from the National Museum of the United States Air Force."

13.4. For aircraft on which the serial number has been altered for display purposes with prior written approval, the mission, design and series (e.g. F-100C or F-4C) along with the original serial number will be stenciled in two inch letters using contrasting paint colors on the fuselage under the horizontal stabilizers.

13.5. All record keeping will reflect the true serial number.

14.0. Radioactive Components.

14.1. Completion of Section 2 of Air Force Form 3580, (USAF Museum Aerospace Vehicle Static Display Acceptance Condition and Safety Certificate), or comparable certification indicating that a complete radioactive material survey has been accomplished shall be included in the official file.
14.2. In accordance with Attachment 1, ("NMUSAF Loan and Static Display Programs' Instructions for Preparation and Maintenance of Aerospace Vehicles"), if radioactive items are determined to have been installed or reinstalled during later inspections, the Borrower will pay the cost of removal of the radioactive items and any decontamination required.

15.0. Loan Termination.

15.1. The Borrower agrees to return said Property to the NMUSAF on termination of this Agreement or earlier, if it is determined that the Property is no longer required, at no expense to the NMUSAF.

15.2. The failure of the Borrower to observe any of the conditions set forth in this Agreement and Attachments 1 and 2 thereto shall be sufficient cause for the Lender to terminate the loan and repossess the Property. Repossession of all or any part of the Property by the Lender shall be made at no cost to the Government; the Borrower shall be responsible for paying all maintenance, freight, storage, crating, handling, transportation and other costs or charges attributable to such repossessing.

15.3. In the event the loan is terminated for any reason, the provisions of this Agreement will remain in effect until all of the Property, or in the event of a partial termination that portion of the Property at issue, has been relocated and in a condition that is satisfactory to the NMUSAF.

15.4. Termination of the loan and subsequent repossessing of all or any part of the Property at the option of the Borrower shall require no less than thirty (30) days advance notice to the Lender in writing. This requirement may be waived by the Lender only through the provision of a written waiver to the Borrower prior to the return of the Property.

15.5. The Lender reserves the right not to renew this Agreement, in all or part, and to recall the Property if required by the Lender to meet the requirements of the NMUSAF, Wright-Patterson AFB, OH or for other military requirements. The Lender will provide a written thirty (30) day notice of intent to recall to the Borrower. In the event of recall, movement of the recalled Property from the Borrower's site will be accomplished at the Lender's expense.

16.0. Dispute Resolution. In the event a dispute arises between the parties over the terms and conditions of this Agreement reasonable attempts will be undertaken to resolve the matter through negotiation between the parties or persons appointed, in writing, by the parties. This Agreement shall be construed and interpreted in accordance with federal law. If any provision herein is held unlawful or otherwise unenforceable by the Court any remaining provisions shall be considered divisible and remain in full force and effect. In the further event that negotiations fail to reach a resolution, the parties agree that the Federal District Court for the Southern District of Ohio, at Dayton, Ohio, will be the exclusive venue for resolving such disputes.

Memo

To: Honorable Mayor and Council  
From: R. Paul Streets, Assistant Public Works Director  
Date: February 26, 2019  
Subject: Discussion and consideration of passing and approving an ordinance amending the Midwest City Municipal Code, Chapter 18, Garbage and Refuse, by amending Article I, in General Section 1-25(f), Container required, Duty to use; Section 1-27(a), Residential Service Fees; Section 1-28, Business and Commercial Service Fees; and Section 1-31, Special Charge for restoration of Service to Commercial Establishments; and Providing for Repealer and Severability.

The proposed ordinance establishes new sanitation (solid waste) rates for residential, apartment complexes, Mobile Home Park (MHP), and commercial accounts due to a new contract for recycling with Republic Services of Oklahoma City, commercial rate restructuring and a new bulk waste rate. In the preparation of these amended rates, tremendous effort was made to evaluate our current rates, those of other cities in the Oklahoma City metro area and private contracted rates for similar services. Additionally, Midwest City leadership developed a questionnaire and pushed it out to customers the first week of January 2019 to gather feedback. The information received during this process was shared with the Council on January 22nd and as a result, quarterly bulk waste service (Big Trash Day) was added to the ordinance revisions being proposed. Lastly we were asked by appointed and elected leadership, to include an annual rate adjustment based on the Consumer Price Index and any contract obligations, such as curbside recycling. Attached is the rate table for residential customers and the proposed ordinance changes. If you have any questions about the attached documents, please do not hesitate to contact Vaughn Sullivan or myself.

Staff recommends approval.

R. Paul Streets  
Assistant Public Works Director

* The new recycling rate reflects the contract price that goes into effect July 1st 2019 plus the 15% administrative fee required by ordinance for any sanitation service provided by a third party.

** This is the rate for the recommended quarterly curbside bulk waste collection that is also commonly called "Big Trash Day".

*** This rate is nearer to our actual cost to provide the service and is consistent with surrounding communities. It will also require a minimum of a one year commitment.

For more than two (2) pickups per week, four dollars and twenty-five cents ($4.25) additional, per apartment per pickup. Dumpsters shall be furnished for apartment complexes on the basis of a one-yard dumpster for each five (5) apartments. Any containers placed at any apartment complex in excess of three apartments that exceeds the calculated number of containers, as outlined above, will be charged at the regular commercial rate in section 18-28 of this Code for the emptying of those additional containers. Apartment complexes in excess of three apartments that utilize a commercial compactor for disposal of their garbage and refuse will be charged as indicated in section 18-22 of this Code.

(3) Mobile home parks: Eleven dollars and fifty cents ($11.58) per month per mobile home space, based on the highest number of spaces that are occupied during the month. Residential curbside recycling will be required as a contracted sanitation service provided by a third party with mandatory participation by all residential customers. The rate for this service is four dollars and twenty-one cents ($4.21) which includes the required 15% administrative fee as referenced in Section 18-22 in this same article. The curbside recycling rate will reflect a mandatory contractual increase of 3% annually beginning May 1st 2020.

(b) In any mobile home park in which the spaces are jointly and commonly metered, the owner of such park shall bear the responsibility of certifying monthly to the city clerk the largest number of mobile homes then located within that park during that month whether connected to service or not. Such certification shall be sworn to before a notary public in such form as the city manager may from time to time prescribe and shall be submitted to the city clerk on the first working day of the month following the month in question. The monthly utility bill for that park shall be computed by multiplying the applicable rates by the largest number of mobile homes within the park during the month in question. In the event the city clerk does not receive the required certification (regardless of the reason for such nonreceipt), then the park shall be conclusively deemed to have been fully occupied for the month in question. It shall be unlawful and an offense to submit a certification to the city setting forth less than the number of mobile homes actually located in a park as of the date and time set forth in the certification. Violation of this section shall, upon conviction, subject the person signing such certification to a fine of one hundred dollars ($100.00) and, in addition, the park shall be conclusively deemed to have been fully occupied for the month in question.
(c) The type of collection service provided, either as individual residences or through centralized sanitation containers, shall be determined by the utilities superintendent; provided, however, that should the utilities superintendent approve the placement of centralized sanitation containers in a mobile home park, the following provisions shall apply:

1. The charges for sanitation services shall be the same for collection from centralized sanitation containers as previously established for mobile home parks in general.

2. The centralized sanitation container shall be placed on a concrete pad, which must be provided by the park, of no less than six (6) feet in width, eight (8) feet in length and three (3) inches in thickness. At no time shall the dumpster rest upon or require moving across open ground or other soft surfaces.

3. The utilities superintendent shall review the proposed locations of such pads and verify that they are easily and safely accessible for collection prior to their construction.

4. At no time shall any items be collected from centralized sanitation containers other than those defined as normal household garbage or refuse. The owner, agent or manager of the mobile home park shall be liable for all damages to a city vehicle caused by inappropriate items concealed in a centralized sanitation container and the owner, agent or manager shall make payment for such damages to the city upon receipt of the statement of damages and costs.

5. Should the collector be unable to collect the refuse from a centralized sanitation container because of it containing inappropriate items or because access is blocked, no unscheduled return trip will be made unless the standard special collection fee is paid.

SECTION 5. Municipal Collection and Disposal Service, Section 18-28, is hereby amended to reads as follows:

Sec. 18-28. - Business and commercial services fees.

(a) The minimum charge for commercial sanitation dumpster shall be at the shared rate of a four-yard dumpster serviced once per week per business, unless the superintendent has allowed the business to be serviced by a residential cart in which case the minimum charge per month shall be twenty-eight dollars and fifty-three cents ($28.53) without bi-weekly recycling or thirty-six dollars and fifty-eight cents ($36.58) with bi-weekly recycling. Sharing of dumpsters by businesses will be allowed on a case by case basis, based on space limitation, fire lane location, etc. These must be approved by the director and will be assessed the "shared fee" listed below regardless of how many businesses share the same dumpster.

(b) Where the city furnishes a four-, six-, or eight-yard dumpster, or a "roll-out" container such as a cart, the following fee schedule shall be charged per month:

(c) Where additional (special) pickups are requested, a minimum fee of the once a week service rate for the size of the container the customer possesses will be charged per
emptied dumpster. The director shall base additional charges on time required to perform the additional (special pickup) and on the basis of manpower and equipment available.

(d) Commercial accounts that utilize a solid waste compactor serviced by the city front loader vehicles will be charged based on the listed compaction rate for that compactor times the service frequency and size of container.

(e) Commercial accounts that utilize four (4), six (6), or eight (8) yard trash or recycling containers will be charged fifty dollars ($50.00) for delivery or removal of the container.

SECTION 6. Municipal Collection and Disposal Service, Section 18-31, is hereby amended to reads as follows:

Sec. 18-31. - Special charge for restoration of service to commercial establishments.

In the event service is discontinued for nonpayment and the dumpster or dumpsters, whether or not they are shared, are picked up by the sanitation department, a fifty dollar ($50.00) fee for reinstatement will be paid before said dumpsters are returned.

SECTION 7. REPEALER. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

SECTION 8. SEVERABILITY. If any section, sentence, clause or portion of this ordinance is for any reason held to be invalid, such decision shall not affect the validity of the remaining portions of the ordinance.

HEATHER POOLE, City Attorney
MEMORANDUM

TO:    Honorable Mayor and City Council
FROM: Vaughn K. Sullivan, Public Works Director
DATE: February 26, 2019

SUBJECT: Discussion and consideration of terminating the Facility Lease Contract with the Oklahoma Spartans Youth Organization (OSYO) for use of Tel Star North Football Complex in Tel Star North Park effective February 26, 2019, due to breaches associated with the Facility Lease and Services contracts.

At the August 28, 2018 council meeting, City Council reviewed the OSYO Financial Report and Financial Position statements. The financial reports submitted did not conform to the Finance Director’s, and ultimately City Council’s, recommendations (See attached OYSO Financial Report and Financial Report dated 8-21-18.). The Council instructed the OSYO President to work with the Finance Director in order to ensure that acceptable accounting practices were put in place and report back in January with financial statements for the 2018 football season (July 1, 2018 through December 31, 2018). After several reminders of the pending yearend deadline were sent to the OSYO President via email, the financial reports were submitted to staff (See attached OYSO Financial Report and Financial Position Report dated 1-1-19.).

Considering that the financial reports are replete with zeros, especially items associated with revenues and expense, city staff can only assume that the activities spelled out in paragraph one of the lease have not been properly performed (See Facility Lease Contract attached).

In addition, the reports show zero expenses associated with the purchase of insurance. Paragraph 13 of the lease requires OSYO to maintain insurance. Once again, city staff can only assume that there has been no insurance purchased during the reporting period.

Equally important, you can see in Mr. Gilles’ memo that the Finance Director has repeatedly requested that OSYO open a banking account and conduct all transaction for the organization through a bank account. According to the Financial documents submitted OYSO has not followed the Finance Director’s advice.

Finally, as pointed out by Fran Gilles, Parks and Recreation Manager, in his memo dated January 23, 2019, there have been repeated violations associated with the Services Contract. And, as provided by the zeros on all expense items listed in the financial report, it is apparent that there have been no expenditures associated with required items in paragraphs 3.b), h), i), j), k), l), q), s), t) and v). Therefore, staff must assume that OYSO is not properly funding these activities and items as required by the Services Contract.
As provided in paragraph seventeen of the lease, staff is recommending, for the listed violations above, the lease with OSYO be terminated effective immediately.

Vaughn K. Sullivan
Public Works Director

Memorandum

TO: Vaughn K. Sullivan, Public Works Director
FROM: Fran Gilles, Parks & Recreation Manager
DATE: January 23, 2019
SUBJECT: Oklahoma Spartans Youth Organization (OYSO) troubled history

General Background

- In 2015 OSYO was awarded the Facility Lease Agreement to run youth football at Tel-Star North for one year. On July 1, 2016 the Facility Lease Agreement was extended until June 30, 2021.
- First year went well; OSYO did everything expected of them. They had some league games and some big tournaments.
- In October 2016 the City got a phone call about teams not getting the number of league games they were supposed to get. That matter was eventually settled but those teams did not return to the league.

Restroom Trailer

- At the beginning of the lease the City allowed OSYO to use the City’s new restroom trailer. Due to the blatant disregard for the care of the restroom, the City revoked this privilege.

Upkeep of the property

- On November 16, 2016 the City sent OSYO an email saying how the complex needed mowed.
- On May 24, 2017 the City sent OSYO an email saying the grass need to be mowed.
- On August 7, 2017 the City sent OSYO an email that there was a lot of trash and debris left over from a tournament.
- On August 22, 2017 the City sent OSYSO an email saying the grass was too tall and that the City was putting them on notice that the complex needs to be kept in better shape.
- On September 18, 2017 Vaughn Sullivan and Fran Gilles had a meeting with OYSO President Dion Williams about taking care of the property. He was shown pictures of the height of the grass and that it needed to be mowed immediately. We also discussed about fertilization of the complex as well.
- On September 21, 2017 the City sent OYSO an email asking when the complex was going to be mowed. The City also told him that the tall grass was a violation of the City Code on tall grass and weeds and that Code Enforcement may get involved and could issue a citation for the violation.
- On September 26, 2017 Code Enforcement gave a code violation for tall grass and weeds.
On October 24, 2017 the City sent OSYO an email informing them about the trash and debris that were left throughout the complex from the previous weekend’s tournament. Once again the City reminded them that the complex and equipment were not being maintained to the City’s standard that was originally agreed to by the OSYO.

On December 4, 2017 Vaughn Sullivan, Christy Barron and Fran Gilles met with OYSO President Dion Williams about our expectations of how the complex should be kept and about OYSO’s Financial Report.

On July 31, 2018 we sent OYSO a directed email saying that the complex needed to be mowed and that Code Enforcement would once again issue a citation of not taken care of.

On July 31, 2018 Code Enforcement issued OSYO a citation for tall grass and weeds.

On August 3, 2018 the City sent OYSO a very disconcerted email about the condition of the fields at the complex for the weekend’s upcoming tournament. The complex needed to be trimmed and there were piles of thatch stacked all around the complex. The City was concerned about the safety of the youth playing on the fields, in addition to the embarrassment to the City for the condition of the complex.

On September 14, 2018 the City sent OYSO another email telling them how high the grass is at the complex and that it needed to be trimmed.

On January 25, 2019 the City emailed OYSO telling them the lights were on one of the fields. OYSO President Dion Williams emailed the City saying he would turn the lights later that day around 5:00 PM. On Monday January 28, 2019, the City was notified by a citizen that the lights were still on at one the fields. The City emailed OYSO President Dion Williams that lights were still. The City got no response back. The Parks & Recreation Manager went out to Tel- Star and turned the lights off on January 28, 2019 at 11:30 AM.

**Tournaments and League Games**

- When OYSO first started in 2015 and 2016, OYSO had several tournaments in the fall time and several nights of league play.
- In the fall of 2017 there was very little league play and only a couple tournaments.
- In fall of 2018 there was no league play and only one tournament.

**Financial Reports**

- Part of the terms in the Facility Lease Agreement is that all youth sports organizations are to turn in a yearly financial statement to the City Council for their approval.
- For the calendar year 2015 OYSO turned in an acceptable statement for City Councils approval.
- For the calendar year 2016 OYSO Financial Statement was not an acceptable report. The Council had some questions regarding the income on concession sales and gate collection.
- As a result of the unacceptable financial statements by OYSO, City Council required all youth sports organizations yearly financial statements be approved by the City’s Finance Director before being submitted to City Council for approval.
- At the August 28, 2018 City Council meeting the Finance Director could not approve the OYSO calendar year 2017 financial statement because she could not verify the amounts reported were complete and accurate since OYSO was conducting most of its transactions in cash and not running
them through their bank account. Therefore, there was no documentation to support the amounts reported in the statements.

- City Council instructed OYSO President Dion Williams to work with the City’s Finance Director in getting their finances in order, and to prepare year-end financial statements for calendar year 2018 in January.

- On January 7, 2019 OYSO turned in their calendar year 2018 Financial Statements with zero’s in each of the line items. OYSO President Dion Williams stated that after the August City Council meeting there would not be (a) a player’s fee; (b) all employees were coaches and wives that volunteered; (c) all services for the fields would be donated out of his personal account; (d) concessions stand would be ran by volunteers and restocked by personal funds, and (e) any equipment that was needed or replaced was his personal property. Mr. Williams had previously indicated that OYSO would open a bank account to transact club business in August, 2018. However, when the calendar year 2018 financial statements were turned in no bank statements were included. Mr. Williams stated the above changes were made so that the club would not be handling cash and no bank account would be needed. However, cash donations and property donations to the club should be run through a club bank account so there is a record to support the club’s business. Mr. Williams never called or emailed to ask any questions about if what he was doing would be okay. Numerous contacts were made to him or were attempted to be made and he still never asked.

**Finance Directors Communication with OYSO**

- December 4, 2017 – Christy Barron and Fran Gilles met with OYSO President Dion Williams to discuss calendar year 2016 statements submitted to council for approval and supporting documentation that would be needed to approve financial statements. It was noted that the bank statements submitted did not agree to financial statements. Mr. Williams indicated that many items were being handled in cash and not run through their bank account. Ms. Barron informed Mr. Williams that everything needs to be run through bank account so there is supporting documentation on amounts reported on the financial statements.

- August 6, 2018 - Received calendar year 2017 financials.

- August 13, 2018 – Christy Barron met with OYSO President Dion Williams to discuss calendar year 2017 financials that were submitted and went over what supporting documentation he needed to turn in for council approval (i.e. bank statements, list of officers, etc.).

- August 21, 2018 – City Finance Director Christy Barron received documents requested. Christy Barron and OYSO President Dion Williams discussed that prior conversation directing him to run everything through bank account did not occur until after calendar year 2017’s football season was over. Therefore, the calendar year 2017 statements did not agree to bank statements either because that direction was not given until it was too late to change anything for calendar year 2017. Ms. Barron noted that football club bank statements were only provided through April, 2018. She discussed this with Mr. Williams and he indicated that he closed the account at the end of April, 2018. Ms. Barron asked Mr. Williams why he would close bank account when he has been instructed to start running everything through the account. He indicated that no activity happens until fall. Mr. Williams further indicated he would be opening a new bank account for the football club at Mid First Bank at the end of August, 2018 to be used for calendar year 2018 football season. Mr. Williams was instructed to run everything through that bank account. Mr. Williams indicated that he would not be charging gate fees during 2018. He indicated there would be a registration fee to cover umpire fees. Ms. Barron told him that registration fees needed to be deposited in club bank account with payments to umpires made from that account as well. She also told him that all money received from concession sales needs to be deposited timely into the bank account and when the club purchases items to sale in the concession those transactions should run through that
bank account as well. Mr. Williams was also instructed to contact Ms. Barron with any questions he may have during the season.

- August 28, 2018 - Calendar Year 2017 financial statements were placed on council agenda. Updated council on events.
- September 11, 2018 – Christy Barron requested 2018 football schedule from OYSO President Dion Williams with intent to stop by during a home game to observe that gate fees were not being charged, as stated by OYSO President Dion Williams, and observe if a concession was being run.
- September 25, 2018 – No response was received to request for football schedule so second request was sent to OYSO President Dion Williams. Mr. Williams directed Ms. Barron to a website which contained a listing of club football schedule. It was noted that season ended in mid-October and only one home game was left on the schedule by the time she received a copy of the schedule.
- October 18, 2018 – Christy Barron went to football field for the last home game according to on-line schedule provided by OYSO President Dion Williams. No games were being played. Weather was cold and raining. Games had been canceled.
- December 5, 2018 – Christy Barron sent OYSO President Dion Williams an email requesting that he send her the football club's bank statements from August to December so she could help him prepare calendar year 2018 statements. She received no response from him.
- January 4, 2019 – OYSO President Dion Williams emailed list of club officers and calendar year 2018 statements listing $0 activity for year. No bank statements were included.
- January 7, 2019 – Christy Barron sent OYSO President Dion Williams an email asking for club bank statements and asking how there was $0 activity. Asked him about registration fees and concessions and what was being done with that money. He responded that after the August council meeting the club decided to do away with registration fees and have teams pay umpires directly. He indicated all club employees were volunteers and all services at the field were donated out of his personal account. All tournaments at site were conducted by other organizations (teams) as fund-raisers. As for concessions, he said that if concessions were run, it was done by a team. He allowed food to be brought into the park from outside so they didn't always have a concession running. Mr. Williams indicated no bank account was opened because these changes resulted in the club not handling any money during the 2018 season.

NEW BUSINESS/
PUBLIC DISCUSSION
EXECUTIVE SESSION
MEMORANDUM

TO: Honorable Mayor and Council
FROM: J. Guy Henson, City Manager
DATE: February 26, 2019
SUBJECT: Discussion and consideration of 1) entering into executive session as allowed under 25 O.S. § 307 (B)(1), to discuss the employment, hiring, appointment, promotion, demotion, disciplining or resignation of the City Manager; and 2) in open session, taking action as appropriate based on the discussion in executive session.

This item has been placed on the agenda to provide the Council with an opportunity to conduct an evaluation of my performance as City Manager over the past year. Action is at the Council’s discretion.

J. Guy Henson, AICP
City Manager
To: Honorable Mayor and Council
From: Brandon Clabes, Police Chief
Subject: Discussion and consideration of declaring an emergency and temporarily waiving adoption fees when the animal shelter is at maximum capacity with authority from City Manager, Police Chief or Designee
Date: February 26, 2019

A councilmember has requested that steps be taken to resolve our animal shelter reaching capacity and then the city posting desperate pleas to the public for adoptions either through social media or through television outlets. Our current ordinance governing adoption fees does not allow the ability to waive those fees which may limit interest in adoptions.

A request was made for an ordinance change that would allow adoption fees to be waived for a short time frame under the following circumstances:

The animal shelter would have to be at capacity and euthanizing animals was the only option (rescue groups, breed specific groups and all other means of adoption had been exhausted).

Once this criteria was met, the animal welfare supervisor would communicate his concerns through the chain of command to the police chief. The police chief would notify the city manager and authorization could be granted to waive the $45.00 adoption fee. This fee covers spay or neutering and rabies vaccinations before animals are released to the public.

If authorization is granted, free adoptions would only be for a forty-eight (48) hour time frame and advertised through city websites, city social media accounts, and possibly television outlets in coordination with the chief communications officer. Steps would be taken by animal welfare staff to work with the sterilization contractor to coordinate the five (5) dogs a day that can be sterilized on Mondays, Tuesdays and Thursdays to have the requisite ten (10) adoptable animals available for the fee waiver period.

This new approach would have a financial impact on the shelter at an estimated cost of $5,400 per year. That number is derived from 10 free adoptions per month.

Any action on this would be at the discretion of the council.

Respectfully,

Chief Brandon Clabes  
Midwest City Police Department
ORDINANCE NO. ________

AN ORDINANCE AMENDING THE MIDWEST CITY MUNICIPAL CODE, CHAPTER 8, ARTICLE VIII ANIMAL WELFARE SHELTER OPERATION, SECTION 163 AND PROVIDING FOR REPEALER AND SEVERABILITY.

BE IT ORDAINED BY THE CITY OF THE CITY OF MIDWEST CITY, OKLAHOMA:

ORDINANCE

SECTION 1. The Midwest City Municipal Code, Chapter 8, Article VIII, Animal Welfare Shelter Operations, Section 8-163 is hereby added as follows:

Sec. 8-163. – Adoption Fee Waiver Events.
Upon the animal shelter reaching capacity, and after all other avenues have been attempted (rescue groups, breed specific groups and other means of adoption) to reduce the shelter from capacity, the Animal Welfare Director shall notify his chain of command. Upon said notification the Police Chief will request authorization from the City Manager to waive the $30.00 fee for sterilization and $15.00 fee for rabies vaccination for ten (10) adoptions during a specified forty-eight (48) hour period of time. Once the Chief has approved the fee waivers, and the set forty eight hour (48) time period for the ten (10) adoptions with fee waivers, publicity for the event shall be coordinated with the Chief Communications Officer or similar staff person. The publicity materials regarding said event shall clearly identify that only ten (10) animals may be adopted without the requisite adoption fees.

SECTION 2. REPEALER. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

SECTION 3. SEVERABILITY. If any section, sentence, clause or portion of this ordinance is for any reason held to be invalid, such decision shall not affect the validity of the remaining portions of the ordinance.

PASSED AND APPROVED by the Mayor and Council of the City of Midwest City, Oklahoma, on the _____day of _________, 2019.

SECTION 4. EMERGENCY. The City Council declares this ordinance to be an emergency, it being immediately necessary for the preservation of the peace, health and safety of the City of Midwest City and the inhabitants thereof that the provisions of this ordinance be put into full force and effect, an emergency is hereby declared to exist by reason whereof this ordinance shall take effect and be in full force from and after its passage as provided by law.

EMERGENCY CLAUSE PASSED AND APPROVED by the Mayor and the Council of the City of Midwest City,

Oklahoma, this _______ day of ___________________________, 2019.
Memorandum

TO: Honorable Mayor and Council
FROM: Joanne Horn, City Prosecutor
DATE: February 26, 2019
SUBJECT: Discussion and consideration of passing an ordinance amending the Midwest City Code, Chapter 28, Offenses – Miscellaneous, Article IV, Offenses Against Property, Section 28-57.1, False checks, to include a penalty for false checks with a value of up to $1,000 for single offenses and false checks with a value of up to $2,000 in the aggregate, as misdemeanors; and providing for repealer and severability.

The proposed amendment fills a gap created by a change in Oklahoma State Statute, 21 O.S. §§ 1541.1 and 1541.3, which defined a new upper limit for a charge of misdemeanor false checks as "less than $1,000." Currently, ordinances do not permit the City to press charges against people who present a false check valued between $500 and $1,000.

I edited the ordinance submitted on February 12, 2019, to:
1. add new section (b) to 28-57.1, to reflect state law 21 O.S. § 1541.3, which addresses the misdemeanor of multiple false checks, when the aggregate value is less than $2,000;
2. moving the former section (b) to section (c), and
3. update the fines listed in 1-15 to comply with this change.

Staff recommends approval.

Memorandum

To: Honorable Chairman and Trustees
   Midwest City Municipal Authority

From: Vaughn K. Sullivan, Public Works Director

Date: February 26, 2019

Subject: Discussion and consideration of approving and entering into an agreement allowing the Midwest City YMCA to offer swim lessons at the Reno Swim and Slide for the 2019 swim season in exchange for a commission fee paid to the Municipal Authority in the amount of $5.00 per participant per class.

This contract with Midwest City YMCA provides for full service swim lesson instruction at Reno Swim and Slide during the summer season of 2019. This will be the seventh year that the Midwest City YMCA has provided swim lessons for patrons at Reno Swim and Slide. Last year the YMCA paid $740.00 to the City with a total of 148 participants.

Participants have given city staff positive feedback about the instruction provided by the YMCA staff, and city staff has developed a very positive working relationship with Midwest City YMCA.

Staff recommends approval of this agreement.

Subject: Re: Board of Grantors' Initial Evaluations for the FY 2018-19 MWC Community Grant Applications

Thank you for the opportunity to address the committee's comments and questions. We hope the following information will be helpful to you.

#2 The homeowners association would expect Soldier Creek's fundraising to be focused on student learning. This grant is intended to improve air quality for everyone in the neighborhood, including the school community, the businesses, and residents. School funding should not be diverted for this health initiative.

#4 The Timbers is not a private, gated neighborhood. It is located on a public street accessible to and used by school patrons, customers of local businesses, etc.

#5 Cottonwood trees are prevalent in Midwest City. The removal of these three trees (the only known cottonwoods in this neighborhood) would still have a direct benefit to this community even if it is not a 100% solution for the entire city.

#8 The homeowners association was told that we didn't need to submit an IRS letter of determination with the application. We have a non-profit certificate of incorporation from the Secretary of State and a tax ID number. These documents can be provided if necessary. a) While the cottonwood trees are located to the north of the school, the wind blows from all directions and, thus many areas are affected. c) The HOA did not put property values at issue, only the air quality. The health benefit would affect not only homeowners, but also the school and surrounding businesses.

We appreciate your further consideration of our application.

Midwest City community improvement grant

Midwest City Soccer Club

I understand there were a few questions regarding our request for two new marquee's and I hope to answer those with this letter.

I agree that $44,000 for a couple marquee's seems very expensive and my mouth gaped a bit open when the quote came in. I had originally hoped through frugal spending and volunteerism, we would be able to handle the marquee's ourselves. I had originally looked at full color boards, which were way out of reach. I then looked at smaller or cheaper marquee's, but they would not have the vandal guard and would be smaller than the current pad. With our current issues of vandalism, the vandal guard seemed necessary. Replacing the current marquee's with the same size seemed logical and cost effective for install.

We do have minimal sponsors as of right now, Dicks Sporting Goods and Academy Sports for $1,000 each a year. I did work over the 2017/2018 season to get ball stop banner sponsors, which profited about $700. That kind of went to the wayside this season as it was very time consuming on my part getting companies and then keeping signs up in the Oklahoma wind. Mwc Rotary did donate a golf cart to us about a month ago, but that of course is not a cash donation that can be used for other purposes.

As of a week ago, I was finally able to get a parent volunteer to become our fundraising director. He has great ideas to help with fundraising and company sponsors, but nothing solid will probably get rolling till fall 2019. I am hoping to implement a couple things with that fundraising though. I am trying to open talks with the Mid-Del School Sports Director. I am hoping to develop a relationship with the school system where we can send one of our club coaches to the elementary and middle schools during PE classes to conduct soccer activities. Not every school every day, but a couple of schools a week maybe. This should be mutually beneficial as it would hopefully create a fun physical activity at the school and create interest in soccer. Unfortunately, soccer isn’t a huge sport in the Mid-Del High Schools and we tend to get a lot of our younger players from CNP Schools. The coach would of course need to be paid something and I am looking towards our new fundraising director to pull that off.

Secondly, we currently offer scholarships for families that can’t afford soccer. That is funded through our adult soccer league that we started about 3 years ago. $25 of every registration goes to our scholarship fund. Unfortunately, participation in that league has declined each season and I am
concerned it may not survive. I am looking for a parent volunteer to head that program and hopefully get it growing again. Our new fundraising director is already looking for companies that are willing to sponsor our scholarship program. If he is successful, we will then seek out partnerships with schools and lower income programs to offer free registrations, jerseys, equipment and camps.

I contacted Stewart Signs because they had just installed a sign for the Elks Lodge, which is just west of our south entrance on SE 15th Street. Figured if they just completed one there, they would know all appropriate ordinances and proper install methods for our city. I believe they also handled the Mid-Del Schools, but not 100% sure at this point. I did send out quote requests through our club Facebook and mass email, with no replies. I google searched the metro OKC area, attempted to contact the company that installed the cities led sign at the entrance to the community center on N Midwest Blvd, researched websites and just didn’t get much interest from local companies. Stewart Signs did a great job of producing the graphics, quotes, staying in contact with updates and such that I felt they knew what they were doing and would be there to help with whatever in the end.

With the future animal adoption center directly across from our current sign on E Reno Ave and the improvements coming to the parks, it would seem logical to upgrade a marquee that is outdated and run down. No, it is not directly related to the animal adoption center nor the dog park, but my guess would be that people entering the dog park will relate a marquee with the MWC Soccer Club logo as part of the city. A new up to date sign will be way more impressive than the current one. As for our south sign on SE 15th? That is located at the entrance to the cities holiday lights display, so it is seen by thousands of visitors each year. Again, an up to date sign will be way more impressive and can be used to direct people into the holiday lights display or any other related information the city would like to post.

Sorry for the length of this letter, but I wanted to do my best to clear up any questions or concerns. Thank you for taking the time to evaluate our grant request and if you have any further questions, feel free to contact me by email or cell phone, (405)760-9696.
I would like to thank you for the opportunity to address questions regarding the Leah’s Hope grant application.

1. How many homeless are in Midwest City?

With a population of 57,308 per the 2017 Census estimates, there are 67% Caucasian, 20% African American, 4% Native American, 1.4% Asian, 6.8% Hispanic and 6.1% of 2 or more races. While the median household income is $46,431, there are 15.6% living in poverty. Of those living in poverty, 22.5% are children, 13.7% did not graduate high school, and 5.3% are unemployed.

At the close of the 2017-2018 Mid-Del school year, there were 2,401 children who qualified for McKinney-Vento services. Approximately 2 out of 10 students in the school district are personally affected by homelessness. The McKinney-Vento Homeless Assistance Act of 1987 is a United States federal law that provides federal money for homeless shelter programs.

2. Sustainability after 12 months

Leah’s Hope will continue to build upon various funding resources in order to maintain a viable and life-changing program. We recently held a luncheon that proved to be not only financially successful but gave our organization an opportunity to build our donor base and educate the public on the mission of Leah’s Hope. Our fundraising and collaboration efforts will continue in Eastern Oklahoma County and beyond so that we may grow our private and corporate donors and enable the organization to flourish for years to come.

3. Leah’s Hope uniqueness to Midwest City

Leah’s Hope will provide housing for families that are seeking employment. Our staff will offer the support necessary to our beneficiaries to find meaningful employment. This is a unique feature of our program. Other agencies in Midwest City that provide housing for homeless families require current employment before being accepted into their organization’s housing program.

Grant Responses For Applications #17, 27, 28, 29, 30, 31 & 32

Grant #17 Expand Parking lot and add ADA compliance at Kiwanis Park:
Sales tax will not cover this project because the Parks and Recreation sales tax has not been increased since its inception in the mid 90s.
The Midwest City Kiwanis Club is a not for profit civic club they have no 501C3 status with the IRS.

Grant #27 Landscape of islands on S.E. from Westminster to Anderson:
This road improvement project was funded with federal highway dollars and constructed by ODOT. The landscaping and irrigation were not in the original design because ODOT will no longer fund irrigation and landscaping on federal aid projects.
Total estimated cost of the project was included and was based on landscaping contractors per square foot budgetary figures. Itemized breakdown for each component will not be available until final design is completed.

Grant #28 Joe Barnes Regional Park/John Conrad Golf Course Fence:
This fence is ornamental and is a park enhancement/beautification project to be enjoyed by golf course and park patrons.

Grant #29 Purchase and Relocate the Lions Park Sign:
We typically only work with one vendor to develop budgetary estimates. A more competitive process will be used for the final procurement and installation.
This is not an additional sign. This would replace an old style marquee with plastic letters which must be manually changed weekly.

Grant #30 Purchase a Trailer Mounted Impact Attenuator:
This is a cost cutting, life safety piece of equipment. We currently use heavy pieces of equipment with a driver in the cab as crash protection for our employees during working operations. These pieces of equipment have no attenuator capabilities and place the driver at risk. We have no attenuating device to leave in the roadway when roads are left in disrepair during nonworking hours, for example, this device can be attached to a dump truck and parked in the roadway overnight to warn drivers of impending road work ahead. If an inattentive driver were to hit the trailer it is designed to absorb the impact, possibly saving the driver’s life.
The number of men/crews who work on the streets varies from day to day depending on the task and personnel available and what department. It is important to point out that this device would be used by multiple departments (Streets, Utilities, Police, Fire) for a wide variety of life saving purposes.

Grant #31 Purchase and installation of a new Public Works/Neighborhood Services Sign:
This is not an additional sign. This replaces an old style marquee with plastic letters which must be manually changed weekly.
The sign is located at 8730 S.E. 15th in front of the Charles J. Johnson and Public Works Administration facilities.

Grant #32 Purchase and Install 3 Emergency Phones:
This is a brand new trail, therefore, a first time project on a newly constructed trail.

Subject: Answers to questions regarding trail counters: Board of Grantors' Initial Evaluations for the FY 2018-19 MWC Community Grant Applications

Jill,

I have typed a reply if needed to some of the questions. I should be available tomorrow as well if more come around.

(#1) "Wouldn't this be covered under the sale tax increases?" / (#5) "City budget available": The sales tax largely went to operating expenses of the general fund. The counters and this project would likely have to be budgeted through parks and recreation if general funds were used. Unfortunately, the parks and recreation budget is small and the demand for projects is high. This project will help get future federal funding and is a long term gain for the city. A long range project like this does not fit within the standard short term priorities of pool, playground, golf, etc. which are requested by the general public.

(#5) "Benefit to whom?:": This project's goal is to count traffic on our highest use areas. By quantifying this traffic, the city can use the data to compete for future federal funding. As it is; Midwest City has to compete for these funds against OKC, Edmond, Norman, etc. and we need any advantage we can receive. These federal funds typically are matching in the order of 90/20 and allows us to leverage the money for larger and better projects across the city.

(#5) "Measure of success": The project will be successful once installed. The counts will be used long term in every application the city makes more future federal trail money. Projects include expansion of the current network, changing the sidewalk to trail along SE 15th/Douglas, and reconstructing trails that are currently asphalt and in need of replacement.

Board of Grantors:

Cobots, also known as collaborative robots, are designed to work beside or cooperatively with people in all settings. This creates opportunities for employees to thrive, while enhancing manufacturing processes. As Rose State ventures to grow a robotics program through Workforce there is intrinsic value to the manufacturers in the Midwest City area and the Aerospace community supported by those manufacturers.

Below are responses from Rose State College Workforce Development to questions asked by the Board of Grantors.

"Cobots not eligible so recommend we offer to fund the curriculum of $25,000." and "Recommend partial funding."

At the time Rose State submitted our request for funding, it was not clear that the direct purchase of cobots was explicitly ineligible. Although our funding request focused on the acquisition of the cobots themselves, our proposal made it clear that curriculum development was an essential aspect of the long-term success of the program.

After learning that the direct purchase of cobots was not allowed, Rose State College began searching for other ways to fund their purchase. We believe we can do so using either institutional funds or federal grant dollars. BOG funding dedicated to curriculum development would be extremely helpful to the implementation of the program. It would eliminate lag time in the development process.

"Big miss – how many students projected to run through program? (Ref. E) If cobots not eligible how can BOG fund $25,000 for curriculum when it's not asked for? Dependency..."

Workforce development is integral to economic development and job creation. The proposed cobot program does not look like the "traditional" education that Rose State provides. However, the training being developed can be used by some 400 businesses throughout the metro area including many in Midwest City and others working on various programs at Tinker Airforce Base.
ABI Research, a market-foresight advisory firm providing guidance on the most transformative technologies, has identified collaborative robotics as one of the fastest growing segments of robotic systems.

Small-to-medium sized businesses are driving the increased demand for collaborative robots, as cobots provide solutions that allow for a more flexible kind of manufacturing that makes no assumptions to volume levels or types of products being manufactured.

From 2016 to 2025, the global revenue of collaborative robotics shipments is set to enjoy a compound average growth rate of 49.8 percent, compared to 12.1 percent for Industrial robots and 23.2 percent for Commercial robotics. Based on that level of growth, Rose State expects hundreds of businesses and employees to participate in this program.

Rose State College has a long and successful history of providing industry specific training to working professionals. The Professional Training Center on our campus was built for just that purpose. The robot program will be the next chapter in that history. Additionally, elements of the curriculum developed using BOG funds will be incorporated into traditional engineering and technology classes at Rose State by the spring semester of 2020 - further expanding the reach and impact of the program.

We believe these responses cover your questions and thank you for your time and the opportunity for Rose State to share its vision for the future.

Respectfully submitted,

Tamara Pratt

Subject: Re: Board of Grantors' Initial Evaluations for the FY 2018-19 MWC Community Grant Applications

Hi Jill:

In response to comments, I'd like to provide some clarification.

**Middle Income Housing Rehab Loan Program - Grant Appl. No. 24:**

A reviewer indicated that the income levels did not match with the Original Mile Homebuyer Assistance Program application submitted. I have reviewed both applications and did not see any discrepancy in the 80 to 120% income range referenced. In paragraph A, it states the Middle Income Housing Rehab Loan Program would mirror the existing program in all areas other than income eligibility - see attached brochure for existing program. The brochure has income limits for households under 80% of median income. Perhaps this is causing the confusion.

Why a city program vs a HELOC? Many applicants are older, the no-interest aspect is appealing and the vetting of work and contractors by our staff provides assurance that they are not being taken advantage of.

**Original Mile Homebuyer Assistance Program - Grant Appl. No. 23**

A reviewer indicated that this activity would not increase overall homeownership in the area significantly. They are correct however this activity in conjunction with other activities/development, both city initiated and private, in the planning and construction stages will generate continued interest in the area. The five-year residency requirement (property lien) may keep a homeowner here long enough to put down roots and stay in Midwest City.

Hope this helps. Thank you.

Thick Descriptions: The Happy, Healthy, Whole Community Health Initiative (Comments Response)

#1: Yes. You would be able to purchase the insurance, permits, printing, and bundles.

#2: Our proposal is lengthy; however, Thick Descriptions wanted to make sure that we thoroughly researched the health status of the Midwest City community to develop an appropriate program to increase the health outcomes of all citizens.

#4: Thick Descriptions is a not an outside business. We are a non-profit organization that provides services to Midwest City youth and their families.

#5: The project we propose is sustainable. Our participant projects are: n=200. We arrived at this number by exploring the number of services offered in the areas that we have outlined, examining which of these areas are identified as food insecure, and comparing these two variables with the total number of residents, and past program participants. The program that Thick Descriptions proposes is comprehensive. There are no programs in the areas that we defined in our proposal that are similar.

*Thick Descriptions would welcome and be appreciative of partial funding.

Subject: Re: Board of Grantors' Initial Evaluations for the FY 2018-19 MWC Community Grant Applications

Jill,

Following are the answers to the questions on the spreadsheet about my proposed project #26:

1) Can't we have a contest for a MWC logo/brand? Aren't their film students who need a project?

We could certainly conduct a contest for graphic design students for the logo, and for video production students for the video. The Chief Communications Officer has done this in the past and from experience found it to be very time consuming. The students need a lot of direction and have a lot of questions throughout the semester, especially when it comes to video production. The end result when students have been used in the past has never been a professional product, especially with videos. Since we only have one staff person in communications, the City doesn't have the staff capacity to closely monitor and direct students throughout their semester on our projects. The logo would be produced by graphic design students, and the video by video production students so there would be two student groups to direct, answer questions, set up the interviews, and monitor the design, filming, editing and final production. When we utilize a professional firm, they need minimal direction and produce a professional product because they are highly experienced. This contributes to the image of the City as being professional, competent, experienced and polished.

In one specific experience, the Chief Communications Officer worked with college students in another community to produce a video about the animal shelter. The students needed constant direction, had many questions, needed help setting up interviews, and in general required a lot of staff time. Ultimately after all of the investment of time, they failed to produce a video that was even usable due to their lack of experience in filming and editing.

Another project yielded usable results but still required a great deal of staff time throughout the entire semester project.

2) Already available through the website. Why not use community groups? City budget could be used.

We have promoted the grant application process through our website in the past. We have also utilized all of our social media platforms. We could continue to do this, using the city budget as we have in the past. Our goal was to better explain the grant in order to attract better, more qualified applicants than we have been attracting.

The advantage of the logo would be making sure the community is aware of the name change, and branding the grant with a logo that could be used every year for increased awareness. Over time, the logo would be recognized as being the “Community Grant” logo. We could even ask the recipients of the grants to utilize the logo in/on their projects where applicable and feasible.
Hi all,

Please see the attached spreadsheet of the initial (not final) total averages, total recommend funding averages, and comments/questions. The Board of Grantors will meet this Thursday, January 24th. If you would like to answer any of the questions posed on the spreadsheet, please email me before Thursday afternoon and I will reay your answers and comments to the Board of Grantors for their consideration before the final evaluations and recommendations are voted upon to present to the Hospital Authority Trustees in February. I apologize for the small font as it is a lot to get into a spreadsheet. You may need to enlarge the PDF.
