SUBJECT : Discussion, consideration, and any possible action of ADA Committee member reappointments

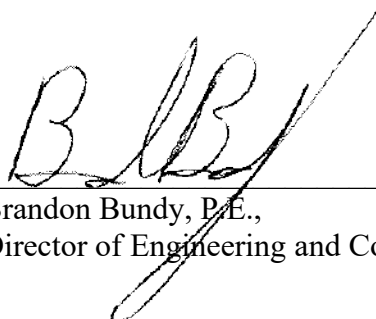

Currently the committee has one vacancy. Staff requests the Committee's help in identifying a person. This person ideally would be familiar with the challenges and requirements surrounding the public spaces and how to make them compliant.

The committee of 7 is comprised of:
5 citizens
1 planning commission representative
1 council representative

While not spelled out in ordinance, the person would be a resident of Midwest City.

This upcoming year, we will need to reappoint Mr. Earl Foster and seek recommendations from Planning Commission and City Council regarding those representatives.

SUBJECT : Discussion and consideration of a status report of the Midwest City ADA
Transition Plan.

The ADA Transition Plan was drafted and adopted in 2015. This plan is utilized by staff to prioritize projects based on the limited funding available and is scored on factors such as cost, public priority, safety, and citizen generated. Occasionally, we do get opportunities to address items further down the list as part of a larger project but in general, we only are able to focus on the top few. Attached is the list showing the top 20 projects.
