SUBJECT : Discussion and consideration of a request for assistance to alleviate drainage issues along the east and south sides of the Orchard Addition, located in Section 12, T11N, R2W, Midwest City.

Since the construction of the Orchard Addition, a number of issues have developed leading to a stormwater drainage situation that may require action by the City. The drainage infrastructure in the area was designed to carry water from the Reed Baseball Complex, the Orchard Addition, and surrounding areas to an unimproved drainage channel that was to carry water east to west down to Soldier Creek. The current configuration along with a lack of maintenance in the area is causing the system to not function correctly which is resulting in erosion to properties and cross lot flooding concerns. In particular, this is the case along the southern boundary of the Orchard Addition, south of Peachtree Lane. The residents have spoken with Councilman Byrne to seek the city's assistance in funding the construction of drainage improvement for the affected area.

The following pictures are examples of maintenance and erosion issues along the south.

The picture below is an example of lack of maintenance in the detention pond

In order for the city to work in this area, staff is recommending funding to survey the effected properties in order to study the existing conditions and draft a plan to construct drainage improvements that will provide relief in the area and create a maintainable situation. In addition the property owner to the south will have to give an easement for the construction of drainage improvements.

It is anticipated that the first phase of improvements would include the construction of a 6” concrete curb along the west side of the north/south drainage flume. Work would also include grading improvements and sod in areas along the channel.

Below is an example of the north/south drainage flume where the proposed 6” concrete curb and grading work would commence.

A second phase may include some type of improvements beginning at the southwest corner of the Orchard Addition and would extend to the east along the southern edge of the edge of the subject properties and tying in to existing drainage improvements. The improvement would be located totally inside a donated drainage and utility easement by the current property owner. The design and bidding of this improvement would be done by the City’s engineering staff.

No cost estimates have been prepared, however, it is estimated that survey work for the area will cost approximately \$15,000. Councilman Byrne, on behalf of the property owners in the Orchard Addition, is requesting support from the Capital Improvements Committee to solve this problem. As a first step, staff would recommend surveying the affected areas. This cost could be submitted for inclusion in the upcoming 19/20 budget.

Subject: Flooding Issues Orchard Housing Addition

Date: February 17, 2019

In 2000 the Orchard 2nd Addition was approved for development. In the plan that was approved by the City Council on March 14, 2000 the council was told that "all portions of the preliminary plat area is underdeveloped and has not previously been developed. All portions of the preliminary plat area drain via sheet flow to the southwest corner of the preliminary plat and into the regulatory floodplain of Soldier Creek." It also stated in the documents presented to the City Council that "the preliminary plat indicates that all drainage will be conveyed through the area of request via street, storm drains consisting of both pipes and box culverts." Unfortunately, that is not happening.

In addition to those issues there is storm water leaving the city baseball complex along with water from the Carl Albert Junior High property that is adding additional water to this problem.

As the result there are several resident's properties that are being adversely affected and they have spent considerable amount of money trying to keep their properties from being damaged.

According to emails I have been provided by individuals involved in this the problem this issue was brought to the attention of the city in 2013.

There is an email from the General Counsel of Home Creations dated June 25, 2013. In the email the General Counsel noted he contacted the City of Midwest City in early June 2013 and there was a meeting with the development official for the city on June 24, 2013. In this email the General Council stated that "at our meeting with city personnel yesterday, we requested and received a commitment from the city to contact the school's property management officials as well as the owner of the adjacent parcel.

Working in conjunction with the various parties, we expect that an agreeable solution can be worked out soon to resolve the water drainage issue."

I was also provided an email sent on August 25, 2015 from Brandon Bundy to five property owners related to the water issue. In that email Bundy stated; "We hope to have some detention constructed downstream of the baseball facility." He also wrote "In the meantime, I would encourage you and your neighbors to look at fortifying your fence line with landscaping."

I have also been provided emails written on April 24, 2016 to Mayor Dukes related to this issue. In the email it states approximately 6 months prior to the email the city engineer was sent all the pictures the homeowners had and there was meeting with the engineer and several residents. In the same email string, it states there was going to be a town hall meeting sometime after September 13, 2016. The meeting occurred but according to the residents there was not action taken by the city.

I have learned that the city constructed a detention pond downstream from the baseball facility in an effort to stop some of the water flow prior to entering the residents yards in the orchard. The location of the drain in the detention pond directs the water straight to the corner of the addition where the water pools up and ends up draining on to the property of the homeowners in the Orchard Addition.

According to an email I received from Billy Harless, it is Patrick Menefee's opinion the "grass channel that's adjacent to the east side of Orchard was put in by the developer to direct water south around the development. Water from there was supposed to run through the south property east. It doesn't do this effectively, it collects on this south property and partly meanders back north into the backyards of Peachtree. Trying to help, the street department went and dug a detention pond at the southwest corner of the athletic fields last year. It didn't have an impact on the backyard problem."

The drainage issue from the city baseball facility and the Carl Albert Junior High property will only increase in the very near future. With the addition of turf to the baseball fields the runoff from those will increase. Due to the slope of the land the stormwater runoff from those will also run into the Orchard Addition. Add to that the increased size of the parking lot adjacent to the Carl Albert football stadium and the other improvements which are being completed right now, there will also be an increase in the water runoff due to the loss of the ground that used to absorb water. This water will also run to the west which will run into the Orchard Addition.

When I first learned of this issue in December 2018, I was told by the residents the reason they had been repeatedly given for there not being a solution was that the

property behind these houses was owned by an out of state person and they were unable to get their cooperation on an easement. On October 24, 2017 the property was sold to J Lou Properties with an Oklahoma City address. The new property owner is Jeff Johnson and he has been contacted and is willing to work with the city on an easement.

Based off of the information I have been provided from both the property owners and city staff; along with the emails I have been provided it is my opinion the homeowners have been extremely patient waiting for a solution to correct this problem.

I am attaching several emails related to this issue. An email dated January 10, 2019 from Timothy Milliken who resides at 9426 Peachtree Lane who is requesting assistance from the City of Midwest City through the Capital Improvement Program to correct the drainage issues.

Based off all the information I am requesting that the drainage improvements to the Orchard Addition be placed on the Midwest City Capital Improvement Agenda as soon as possible.

Good afternoon, I was emailing in regards to the issue within the confines of the back yard lots on the Peachtree side. Currently at 9426 Peachtree Lane, I purchased the house back in 2010. Since 2013 I have had issues with my back yard dropping and eroding away from the storm water washout behind the proper. I have already brought in 2 dump truck loads of dirt trying to fill and level the yard back.

In the recent storms I currently have a 2x2 sink hole next to the sewer main line that runs in my backyard. I called the city about the issue for which they brought a team out to check the main line to see if it collapsed. The pressure checked out that there was no collapse and the team members mentioned that would pass it on.

I still have not hear words on the fix. So with that being said am I going to once again order another dump truck to fight this issue?

Hello Mr. Milliken,

You and I spoke yesterday afternoon, and I promised to send you the e-mail I had prepared regarding Home Creations' response to the ongoing drainage issue in Orchard.

Upon recognizing the water flow caused by last week's heavy rains, we contacted the city of Midwest City, and we held a meeting with a development official for the city yesterday afternoon.

As you know, the problem begins with heavy flows of water coming from two sides of Carl Albert High School, with both flows meeting and then diverting from another, higher adjacent parcel of land and through the backyards of several Orchard properties.

The proper and original intention of the city's drainage plan was to have the water flow through the undeveloped, wooded land behind the Orchard properties. Home Creations complied with all city requirements, but because the adjacent parcel is higher than the Orchard land, water is flowing toward Orchard instead of through the wooded, adjacent parcel.

There are at least two potential solutions we have identified:

1. A drainage easement should be created over the adjacent parcel, and the land should be modified or cleared sufficiently to allow the water to flow in its originally intended manner. The problem is that Home Creations does not own the adjacent parcel, and we cannot initiate changes to the adjacent parcel without the cooperation and participation of the owner of the adjacent parcel.
2. A small retention pond could be created near the corner where the adjacent parcel, Orchard, and Carl Albert High School's property intersect. This would slow down and control the drainage of water, so that more could flow as originally intended. The problem here is that neither the city nor Home Creations owns the Carl Albert High School's property, so the High School's cooperation and participation would be needed to pursue this option.

At our meeting with city personnel yesterday, we requested and received a commitment from the city to contact the school's property management officials as well as the owner of the adjacent parcel. Working in conjunction with the various parties, we expect that an agreeable solution can be worked out soon to resolve the water drainage issue.

In summary, we are committed to finding a practical and permanent solution to the issue. The problem is that we cannot act alone, since we do not own all of the land involved. We also feel as though we have complied with all the requirements the city gave us during development and thereafter. I request your patience as we work toward a resolution with the city and the other landowners.

I will contact you as the process takes shape to keep you informed. I will also mention to our construction manager the additional issue you discussed with me on the phone. If you have any questions, please feel free to contact my office.

Mr. Wahl,

We hope to have some detention constructed just downstream of the baseball facility. The construction will be sometime this fall or winter dependent on available personnel. This won't stop the water from following your fenceline but should decrease the peak amounts. At this time, this is all the City can do to help your situation.

In the meantime, I would encourage you and your neighbors to look at "fortifying" your fence line with landscaping. Also, when getting backfill material for a washout, you want to use a material with rock or clay. Much of the drainage problems in Midwest City are a result of our sandy soil that does not stand up to heavy rain. Have a great day,

I wanted to let you know with in the next several weeks we will be hosting a town hall meeting at the Charles Johnson Center, 8627 SE 15th in regard to your flooding issue. We will be making notification to Orchard II either by way of flyer or all call notification as to the exact date and time. Please let your neighbors know that we are going to have this so they can attend as well. Another major issue is the puddling in our front yard, which just so happens to be right where our water meter is. This is another issue all over the neighborhood.

Our neighbors on Peachtree were told it was just because of a line break (???) but it is an issue on other streets.

I know that Brandon (I think that was his name) was the engineer that came out and spoke with some residents. However there were promises made and nothing has

happened.

Good afternoon Councilman Byrne.

Tim forwarded your email, as seen below, and asked us to address Mr. Milliken's concerns if we could. He also asked me to send you a response this afternoon, the result of which is this correspondence.

Justin Madison (Line Maintenance Supervisor), Matt Faulkner (Sanitation / Stormwater Manager) Robert Bettes (Stormwater Project Supervisor) and Peter Singleton (Engineering Project Manager) all went out to meet with the resident and discuss his concerns. This appears to be a long-standing issue, as communicated below by Mr. Milliken, but is NOT a result of any issues with our sewer lines in his backyard. Justin dye-tested that sewer line immediately after the meeting to confirm this. Any repairs related to the erosion near our infrastructure is actually the property-owners responsibility but our manhole and sewer line do not appear to be in peril. After speaking with staff that had visited the site this morning I met with Tim to communicate our findings and briefly met with Billy Harless to let him know about the issues on Peachtree Lane. Billy told me that Engineering and Community Development had been contacted about this drainage issue too.

The source of this problem appears to be water draining from a flume that runs south behind the houses on the east side of Apple Way and then turns west along the back of the houses on the south side of Peachtree Lane which abut private property. The water draining west does not have any improved drainage structure to carry it and drains across private property. I believe that any solution to this problem will need to be engineered and is likely to be costly, but is not related to our sewer or water utilities. If you have any further questions or concerns, please advise.

> Tim:

Below is an email and pictures from one of the residents in Orchard who is having issues with drainage. I actually saw this the other day when I was over there.

He said someone from the city was out there to look at the lines and the sinkhole but has not heard anything back.

I am not sure if the city is responsible for filling in around the sewer cover or not since it actually belongs to the city.

Can you look into this please.

>>

>> Good afternoon, I was emailing in regards to the issue within the confines of the back yard lots on the Peachtree side. Currently at 9426 Peachtree Lane, I purchased the house back in 2010. Since 2013 I have had issues with my back yard dropping and eroding away from the storm water washout behind the proper. I have already brought in 2 dump truck loads of dirt trying to fill and level the yard back.

>>

>> In the recent storms I currently have a 2x2 sink hole next to the sewer main line that runs in my backyard. I called the city about the issue for which they brought a team out to check the main line to see if it collapsed. The pressure checked out that there was no collapse and the team members mentioned that would pass it on.

>>

>> I still have not hear words on the fix. So with that being said am I going to once again order another dump truck to fight this issue?

Memorandum

TO: Honorable Mayor and Council

FROM: Catherine Wilson, Human Resources Director

DATE: March 12, 2019

RE: Discussion and consideration of entering into a Services Agreement with Express Employment Professionals (Express) to provide the City with additional staffing on a temporary basis with a mark-up of 1.40 to the base hourly rate which will be determined based on the temporary position being filled. There will be additional \$25.00 flat fee for the processing of a seven (7) year national background check per individual hired, and a flat fee of \$30.00 for an eleven panel pre-employment drug screen per individual hired, these fees are to be paid by the department utilizing the services.

The City during peak times of the year has the need to hire as many as twenty (20) temporary employees mainly in the Public Works Departments. During these times the City had utilized a temporary staffing agency that has recently closed. Due to this closing we have reviewed local agencies that we felt could assist us in keeping our current temporary employees and assist with returning seasonal temporary employees. Express is able to assist us in retaining the aforementioned temporary employees and is willing to match our current mark-up allowing us to stay within the current budget for hiring temporary employees.

Express will carry workers' compensation insurance for all temporary employees that are placed with the City. Express handles all payroll taxes and benefits for the temporary employees placed with the City. The City will have the option to hire an individual after the individual has worked a minimum of seven hundred and twenty (720) through Express.

Staff recommends approval of the temporary employee staffing agreement.

The first step to establishing a successful staffing relationship is to ensure a clear understanding of each party's responsibilities. We appreciate your business and look forward to the opportunity to support you with outstanding professional employment services in consideration of your agreement to the following terms and conditions:

1. We hire associates as Express employees, and provide all wages, taxes, withholding, workers' compensation, and unemployment insurance. Medical benefits and vacation pay are also available to associates who qualify. We recruit and assign associates to you to perform the job duties you specify. You agree to notify us if those duties or the workplace of an associate changes.
2. Express complies with all Federal, State, and Local employment laws and regulations. You agree to provide our associates with a safe, suitable workplace and equipment, and to comply with all applicable federal, state, and local employment laws including appropriate workplace-specific safety and health training that adequately addresses potential hazards at your worksite. You agree to indemnify and hold Express harmless from claims or damages resulting from your non-compliance with applicable laws and regulations. Express pays associates promptly, based on information approved by you. You agree to pay the charges based on the time card or other mutually acceptable recording method by the invoice due date.

We are entitled to reasonable collection fees, attorney fees, and other expenses incurred to collect all charges on your account(s). Bill rates are subject to change with appropriate notice.
4. It is our goal that associates perform their jobs to your satisfaction; however, if you are not satisfied with an Express associate for any reason within the first 48 hours of the assignment, you will not be charged for the first four (4) hours of the associate's work and a replacement will be provided.
5. We provide insurance to cover Express associates for Workers' Compensation, Commercial General Liability, Employers Liability, Fidelity Bond, Errors and Omissions, and Hired/Non-Owned Automobile coverage in an amount not less than \$1,000,000 per occurrence. You agree to maintain liability insurance for any motor vehicle, forklift, or other motorized mobile equipment operated by an Express associate, and agree to waive all rights of recovery against Express as the employer of the Express associate.

Nor will our associates be permitted sign-off authority for architectural or engineering projects or construction or other cost estimates. All services performed by our associates shall be under your direction, supervision and control and you shall be responsible for ensuring that the services meet your requirements and agree that we are not responsible for the accuracy and correctness of the resulting work product.

If our associates have access to unattended premises or the care, custody, or control of cash, checks, credit card numbers, ATM bank cards, negotiables, confidential information, trade secrets, or other valuable property, then you agree to indemnify and hold us harmless from any resulting loss or damage.
8. Express will provide associates for positions where operating a motor vehicle, forklift, or other motorized equipment is required, if notified in writing prior to an assignment. We must know in advance, so we can assign associates who are qualified to meet your specifications. During an assignment, if our associate operates a motor vehicle, forklift, or any other motorized equipment, you agree to indemnify and hold us harmless for bodily injury, property damage, collision, or public liability claims, regardless of fault.
9. You supervise, direct, and control the work performed by Express associates, and assume responsibility for all operational results, including losses or damage to property or data in the care, custody, or control of an Express associate. You agree to indemnify and hold us harmless from any claims or damages that may be caused by your negligence or misconduct, and agree on behalf of your insurer(s) to waive all rights of recovery (subrogation) against us.

11. Express allows you to hire associates already assigned to you if your invoices are current and you agree to pay an acceptable payroll transfer fee (up to 30% of an associate's expected annual earnings) to convert an Express associate to your payroll.
12. You agree, for a period of 180 days from the date of introduction or last date on assignment, whichever is later, not to hire directly or use Express associates through another staffing firm without paying a liquidation fee of 30% of the Express associate's expected annual compensation, unless otherwise agreed to by us in writing.
13. Express will, at your written request, conduct criminal history checks and drug screens as permitted by state law. The costs vary depending upon the specific test or report ordered and the charges will be agreed upon prior to ordering the tests and/or reports.

Thank you for your business. We look forward to a mutually beneficial relationship.

MEMO

To: Honorable Mayor and City Council
From: Mike S. Stroh, Neighborhood Services Director
Date: March 12, 2019
Subject: Public hearing with discussion and consideration of an appeal of the notice and order for living in a recreational vehicle filed by the owner of the property located at 9605 E. Main Street.

Midwest City ordinances state that the property owner and/or responsible party have a right to request a hearing before the city council. A request for an appeal/hearing on the Notice and Order for living in a recreational vehicle at the property located at 9605 E. Main Street from the owner was received on February 25, 2019.

I have attached a copy of the Notice and Order that was mailed to the owner on February 15, 2019, the Oklahoma County Assessor records for the property, Neighborhood Services address history, appeal request, photos of the property, and copies of the code.

I had a copy of this memo and all of its attachments delivered to the owner per the Oklahoma County Assessor on Friday March 1, 2019.

Staff believes that all procedures were followed correctly. Action is at the discretion of the Council.

Sec. 24-201. - Storage and parking of commercial vehicles, recreational vehicles, manufactured homes and implement of husbandry.

- (a) Oversized vehicles, trailers and/or equipment shall not be parked upon any street or public roadway in an area zoned residential or primarily zoned residential, between the hours of 9:00 p.m. and 6:00 a.m.
- (1) For purposes of this section, "oversized vehicles" shall be defined as any motorized vehicle, regardless of capacity, which:
- a. Exceeds an overall length of thirty (30) feet;
 - b. Is provided with more than two (2) axles;
 - c. Is a commercial tractor which has the capability of hauling a commercial trailer;
 - d. Restricts the safe and unimpeded flow of traffic upon the roadway; or
 - e. Impedes the ingress and egress of any neighboring driveway.

This section shall not apply to temporary parking to load or unload such oversized vehicle when making a delivery to a residence by a commercial carrier.

- (2) For purposes of this section, a trailer shall be defined as any vehicle having at least one (1) axle, regardless of capacity, used in conjunction with a commercial use vehicle, regardless of whether the trailer is attached to a towing vehicle and regardless of whether the trailer bears a state-issued tag. An exception shall be applied to the limited placement of a trailer along the curb of an owner's owned residential premises for a period not to exceed seventy-two (72) hours, or during a reasonable time necessary for an owner to maintain or conduct repairs to the residential premises at his own residence, provided such limited parking is not in violation of any other applicable ordinance and there is no impediment to the normal flow of traffic.
- (3) For purposes of this section, "equipment" shall be defined as any vehicle having at least one (1) axle bearing equipment and a power plant to operate during the operation of a business or enterprise and which requires the transport by a towing vehicle. This term shall be applied regardless of whether or not the equipment requires a state tag. This term shall also include, but not be limited to, portable generators, welding machines, roofing pots, wood chippers or shredders, or other powered devices serving a

primary business or commercial use. It shall also apply regardless of whether or not the commercial use equipment is attached to a towing vehicle at the time.

(4) This section shall not apply to parking in a residential driveway or residential garage by an owner of such residence for his or her owned, leased or business required commercial use vehicle, trailer or commercial use equipment, providing such parking or storage is not in violation of any other applicable ordinance. This section shall also not be applied to vehicles, trailers or equipment bearing a tag issued to local, state or government agencies.

(5) In no case shall any vehicle used for hauling explosive, gasoline or liquefied petroleum products be permitted.

(b) Recreational vehicles, which specifically includes, but is not limited to, motorized homes, camping trailers, pick-up campers, travel trailers, boats and boat trailers, shall not be parked or stored on any lot occupied by a dwelling or any lot in any residential district except in accordance with the following provisions:

(1) Recreational vehicles shall be stored in the rear yard of a residential lot whenever reasonable access to said rear yard is available. Recreational vehicles may be stored in the front yard of a residence provided that no portion of the vehicle(s) extends over or into the street right-of-way. A wood or cyclone fence is not considered as denying reasonable access.

(2) Recreational vehicles shall not be parked or stored in any street right-of-way except for purpose of loading and unloading and then not for a period to exceed twenty-four (24) hours. Pick-up campers that are in use daily shall be exempted from this requirement.

(3) No recreational vehicle shall be stored in the front or side yard of a residence or a residential lot in a manner that would constitute a traffic hazard or would, in any way, obstruct vision within the "sight triangle" of a corner lot.

(4) It shall be unlawful and an offense, and in no instance shall a recreational vehicle, either parked or stored, be occupied either permanently or temporarily except under the following conditions:

a. The lot on which the occupied recreational vehicle is located must be within the boundaries designated on the attached map; and

- b. A person occupying the recreational vehicle must obtain a special revocable permit from the city. Such permit will only be issued in conjunction with a building permit to repair or reconstruct a permanent residence on the lot on which the occupied recreational vehicle is located. Such permit shall, under no circumstances, be valid for more than nine (9) months from the date of issuance and the permit holder must renew the permit every ninety (90) days that it is in effect. Such permit shall be immediately revoked upon a finding by the city manager that:
 - 1. Continuous progress is no longer being made toward the repair or reconstruction of the permanent residence on the lot on which the occupied recreational vehicle is located; or
 - 2. Repair or reconstruction of the permanent residence on the lot on which the occupied recreational vehicle is located is completed;
 - 3. That any of the provisions of this Code are being violated.
- c. The city must have reviewed and approved a site plan indicating the location of the occupied recreational vehicle upon the property and how public utilities will be provided to the occupied recreational vehicle; and
- d. The occupied recreational vehicle shall be connected to a water supply in a manner approved by the city; and
- e. The occupied recreational vehicle must be the type known as "fully self-contained" and must be connected to a sewer system in a manner approved by the city; and
- f. The occupied recreational vehicle shall be connected to an electrical source in a manner approved by the city; and
- g. The occupied recreational vehicle shall not be connected, either permanently or temporarily, to a natural gas source other than the propane tanks normally affixed to recreational vehicles; and
- h. The occupied recreational vehicle shall only be located on a concrete pad approved by the city; and
- i. The occupied recreational vehicle, if located on a corner lot, shall not be placed within the sight triangle of the two (2) intersecting streets; and
- j.

There must be continuous progress toward the repair or reconstruction of the permanent residence on the lot on which the occupied recreational vehicle is located.

- (c) Manufactured homes shall be parked or stored only in conformance with the ordinances of the City of Midwest City.
- (d) Implement of husbandry: Every vehicle designed and adapted exclusively for agricultural, horticultural or livestock raising operations or for lifting or carrying an implement of husbandry and in either case not subject to registration if used upon the highways. Farm wagon-type tank trailers of not over one thousand two hundred-gallon capacity, used during the fertilizer to a field applicator and moved on highway only for bringing the fertilizer from a local source of supply to farms or fields or from one (1) farm or field to another, shall be considered implements of husbandry for purposes of this chapter. Trailers or semitrailers owned by a person engaged in the business of farming and used exclusively for the purpose of transporting to the farm materials or things to be used thereon shall also be considered implements of husbandry for purposes of this chapter.

An implement of husbandry shall not be parked or stored on any lot occupied by a dwelling or any lot in any residential district except in accordance with the following provisions:

- (1) At no time shall an implement of husbandry be stored nearer than twenty-five (25) feet to the front, side, or rear of property lines unless stored within an approved storage building as per Midwest City Codes.
- (2) An implement of husbandry shall not be parked or stored in any street right-of-way except for the purpose of loading and unloading and then not for a period to exceed twenty-four (24) hours.

Subject: (PC – 1980) Discussion and consideration of amending Ordinance Number 3353 pertaining to the medical marijuana to correct an error regarding the use chart.

In reviewing the recently approved additions to the Zoning Ordinance regarding medical marijuana, staff recognized an error regarding the update to the use chart for the uses of commercial medical marijuana grower and medical marijuana processor.

Section 3 of the approved ordinance states “for line 4.7.8 an ‘X’ will be shown for the following zoning districts to indicate a permitted use: C-4, I-1, I-2 and I-3.” The error is that there is no 4.7.8 in the ordinance. This was intended for the use of commercial medical marijuana grower which is defined in 4.5.10 of the ordinance.

Section 3 of the approved ordinance further states “for line 4.7.9 an ‘X’ will be shown for the following zoning districts to indicate a permitted use: I-1, I-2 and I-3.” The error is that there is no 4.7.9 in the ordinance. This was intended for the use of medical marijuana processor which is defined in 4.5.11 of the ordinance.

Action Required: Approve or reject the amendment to Ordinance Number 3353 and make a part of PC- 1980 file.

Subject: (PC-1987) Public hearing with discussion and consideration of an ordinance to redistrict from I-1, Light Industrial to SPUD, Simplified Planned Unit Development governed by the I-1, Light Industrial district and a resolution to amend the Comprehensive Plan to classify the parcel as Industrial for the property described as a part of the SE/4 of Section 29, T-12-N, R-2-W, located at 1101 N. Sooner Road.

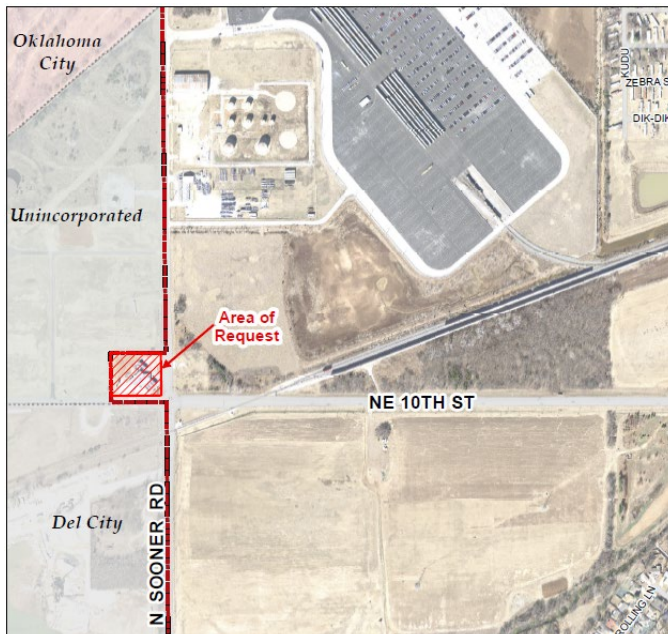

Executive Summary: This property was recently annexed into the City of Midwest City in the summer of 2018. The property was designated to be zoned I-1, Light Industrial to accommodate the existing uses of automotive equipment heavy, gasoline sales and off-premise advertising. As the remodel application moved forward and upon review of the zoning ordinance, staff found that the use of alcoholic beverage retail sales is not a permitted use within the I-1 zoning district. Section 1.5.4 of the Zoning Ordinance allows the Planning Commission one year from the effective date of the annexation to study the area and make a recommendation concerning the use of the land within said annexation to promote the welfare and be in accordance with the comprehensive plan. Staff

recommends that the property be zoned to a Simplified Planned Unit Development, SPUD, governed by I-1 and allowing all I-1 uses as well as the additional use of alcoholic beverage retail sales.

Comprehensive Plan Citation:

Industrial Land Uses

The industrial land use designation is applied to areas intended for a range of heavy commercial, assembly, warehousing and manufacturing uses. Given the beneficial relations that Midwest City and Tinker AFB have shared, industries and businesses that support and supply Tinker AFB are highly appropriate within this land use category.

Municipal Code Citation:

2.26 SPUD, Simplified Planned Unit Development

2.26.1. General Description

The simplified planned unit development, herein referred to as SPUD, is a special Zoning district that provides an alternate approach to conventional land use controls to produce unique, creative, progressive or quality land developments.

The SPUD may be used for particular tracts or parcels of land that are to be developed as one unit according to a master development plan map.

The SPUD is subject to special review procedures and once approved by the City Council it becomes a special zoning classification for the property it represents.

2.26.2 Intent and Purpose

The intent and purpose of the simplified planned unit development provisions are to ensure:

(A) Innovative development

Encouraging innovative development and protect the health, safety and welfare of the community.

(B) Efficient use of land

Encourage efficient use of land, facilitate economic arrangement of buildings and circulation systems;

(C) Appropriate limitations and compatibility

Maintain appropriate limitations on the character and intensity of use, assuring compatibility with adjoining and proximate properties, and following the guidelines of the comprehensive plan.

History:

1. This property was annexed into Midwest City in June of 2018 under the I-1, Light Industrial zoning designation.

Staff Comments:

Engineer's report:

Note: This application is for a rezoning of an existing commercial business. No engineering improvements are required with this application.

Water Supply and Distribution

A twelve (12) inch public water main is located on the east side of Sooner Road in the street right-of-way extending along the east side of the area of request.

Extension of the water supply to serve this property is not required as outlined in Municipal Code 43-32.

Connection to the public water supply system for domestic service is a building permit requirement per Municipal Code 43-32 for all new buildings.

Sanitary Sewerage Collection and Disposal

The current business is being serviced by its own individual system and does not have access to city sewer infrastructure at this time.

Public sanitary sewer line improvements are not required with this application.

Connection to the public sanitary sewer system for service is a building permit requirement per Municipal Code 43-109 for all new buildings.

Streets and Sidewalks

Access to the area of request is available from Sooner Road. Sooner Road is classified as a primary arterial in the 2008 Comprehensive Plan. Sooner Road is a four (4) lane, 52-foot wide, curbed, asphalt concrete roadway. Current code requires a total street right-of-way width of one hundred twenty (120) feet for primary arterials and presently, Sooner Road has one hundred twenty (120) feet of right-of-way adjacent to and parallel to the of the area of request.

Right of way grants to the city are not required with this application.

Street improvements are not required with this application.

Sidewalk improvements are not required with this application.

Drainage and Flood Control, Wetlands, and Sediment Control

Drainage across the area of request is via overland flow from the north west to the south east. Currently, the area of request is fully developed with a commercial business. None of the area of request is affected by flood zone AE (the 100-year floodplain) as shown on the effective Flood Insurance Rate map (FIRM) number 40109C0310H, dated December 12, 2009.

There are large bar ditches and grass channels along Sooner Road in this area that carries water away the site. Drainage and detention improvements are not required with this application.

All development on the proposed tracts must conform with the applicable requirements of Municipal Code Chapter 13, "Drainage and Flood Control."

Easements and Right-of-Way

No additional rights-of-way and/or easements are required with this application.

Fire Marshal's Comments:

The Fire Marshal has reviewed this application and completed the occupancy inspections for the proposed liquor store and found the property to meet current fire codes.

Plan Review Comments:

As mentioned in the executive summary as well as the history section of this report, this property was recently annexed into Midwest City city limits in June of 2018. The Zoning Ordinance states that "any territory brought into the zoning jurisdiction of the city, by annexation or otherwise, shall be deemed to be in the R-35, Single Family Detached Residential District unless otherwise classified by the City Council in the ordinance of annexation." In the ordinance of annexation, the City Council classified the property as I-1, Light Industrial to accommodate the existing uses of gasoline sales, automotive equipment: heavy and off-premise advertising. At this time, staff was aware of future intentions to remodel part of the building to add a liquor store. Upon review of the liquor store, staff found that the use of alcoholic beverage retail sales is not an allowed use in the I-1, Light Industrial Zoning District.

The Zoning Ordinance states that the Planning Commission should have one year to study the area and make a recommendation concerning the "use of the land within said annexation to promote the general welfare and be in accordance with the comprehensive plan." This property is somewhat unique in that the uses were already existing and intentions for the future additional use of alcoholic beverage retail sales was expressed by the owner. As there is not a Zoning District that allows the current uses of gasoline sales, automotive equipment heavy, off-premise advertising and alcoholic beverage retail sales, staff recommends that this property be zoned as a SPUD, Simplified Planned Unit Development, governed by the I-1, Light Industrial district, allowing all I-1 uses as well as the use of alcoholic beverage retail sales.

In addition, staff would recommend that this property be designated as Industrial on the Future Land Use map within the Comprehensive Plan. This is consistent with the current uses and the surrounding area.

Action Required:

Approve or reject the ordinance to redistrict to SPUD for the property as noted herein and a resolution to designate the parcel as Industrial on the Future Land Use Map in the Comprehensive Plan, subject to staff's comments as found in the March 12, 2019 agenda packet and made a part of PC-1987 file.

Memorandum

TO: Honorable Mayor and Council

FROM: Joanne Horn, City Prosecutor

DATE: March 12, 2019

SUBJECT: Discussion and consideration of passing an ordinance amending the Midwest City Code, Chapter 28, Offenses - Miscellaneous, Article IV, Offenses Against Property, Section 28-57.1; and Chapter 1, General Provisions, Section 1-15; and providing for repealer and severability.

The proposed amendment fills a gap created by a change in Oklahoma State Statute, 21 O.S. §§ 1541.1 and 1541.3, which defined a new upper limit for a charge of misdemeanor false checks as "less than \$1,000." Currently, ordinances do not permit the City to press charges against people who present a false check valued between \$500 and \$1,000.

I edited the ordinance submitted on February 12, 2019, to:

1. add new section (b) to 28-57.1, to reflect state law 21 O.S. § 1541.3, which addresses the misdemeanor of multiple false checks, when the aggregate value is less than \$2,000;
2. move the former section (b) to section (c), and
3. update the fines listed in 1-15 to comply with this conform to the state maximum fine for a single false check, \$500 and to add a fine for multiple false checks, \$750.

Staff recommends approval.

Memo

To: Honorable Mayor and Council

From: R. Paul Streets, Assistant Public Works Director

Date: March 12, 2019

Subject: Discussion and consideration of passing and approving an ordinance amending the Midwest City Municipal Code, Chapter 18, Garbage and Refuse, by amending Article I, In General, by adding Section 18-9 Bulk Waste Collection; and amending Article II, Municipal Collection and Disposal Service, Section 18-22(c), City to Furnish Service; Section 18-25(b) and 18-25(f), Container Required, Duty to Use; Section 18-27(a), Residential Service Fees; Special Provisions for Mobile Home Parks; Section 18-28, Business and Commercial Service Fees; Section 18-31, Special Charge for Restoration of Service to Commercial Establishments; and providing for repealer and severability. This item was under further information on the February 12th Midwest City Council Agenda.

The proposed ordinance establishes new sanitation (solid waste) rates for residential, apartment complexes, Mobile Home Park (MHP), and commercial accounts due to a new contract for recycling with Republic Services of Oklahoma City, commercial rate restructuring and a new bulk waste rate. In the preparation of these amended rates, tremendous effort was made to evaluate our current rates, those of other cities in the Oklahoma City metro area and private contracted rates for similar services. Additionally, Midwest City leadership developed a questionnaire and pushed it out to customers the first week of January 2019 to gather feedback. The information received during this process was shared with the Council on January 22nd and as a result, quarterly bulk waste service (Big Trash Day) was added to the ordinance revisions being proposed. Lastly we were asked by appointed and elected leadership, to include an annual rate adjustment based on the Consumer Price Index and any contract obligations, such as curbside recycling. Attached is the rate table for residential customers and the proposed ordinance changes. If you have any questions about the attached documents, please do not hesitate to contact Vaughn Sullivan or myself.

Staff recommends approval.

TO: Honorable Mayor and City Council
FROM: Patrick Menefee, P.E., City Engineer
DATE: March 12th, 2019
SUBJECT: (TS-435) Discussion and consideration of a request to change the speed limit from 45 mph to 40 mph for Douglas Boulevard from S.E. 29th Street to Reno Avenue.

DATES OF HEARINGS: Commission February 25th, 2019
City Council March 12th, 2019

APPLICANT/REQUESTOR: Councilmember Pat Byrne
1202 Three Oaks Circle
Midwest City, OK 73110

STAFF RECOMMENDATION: Staff recommends the adjustment of the speed limits along Douglas Boulevard from S.E. 29th Street to Reno Avenue.

ACTION REQUIRED: Approve or deny the request to adjust the speed limit along Douglas Boulevard from S.E. 29th Street to Reno Avenue.

STAFF COMMENTS:

The applicant, Councilmember Byrne, has requested an adjustment to the speed limits along Douglas Boulevard from S.E. 29th Street to Reno Avenue. The recent increase in commercial development along the Douglas Boulevard corridor has increased traffic counts in the area. This larger number of cars and the 45 mph speed limit has created a more hazardous situation for vehicles entering and leaving the roadway. To document the recent uptick in car volume and the risks they are creating, the applicant has provided the latest traffic count numbers and the recent calls for service on the roadway, which are attached to this agenda item. Following below is the national standard for adjusting speed limits:

This citation is from the 2009 edition of the Manual on Uniform Traffic Control Devices for Streets and Highways (MUTCD), published by the United States Department of Transportation, Federal Highway Administration:

Section 2B.13 Speed Limit Sign (R2-1)

Standard:

After a study has been made in accordance with established traffic engineering practices, the Speed Limit (R2-1) sign (see Figure 2B-1) shall display the limit established by law, ordinance, regulation, or as adopted by the authorized agency. The speed limits shown shall be in multiples of 10 km/h or 5 mph.

Guidance:

At least once every 5 years, States and local agencies should reevaluate non-statutory speed limits on segments of their roadways that have undergone a significant change in roadway characteristics or surrounding land use since the last review.

No more than three speed limits should be displayed on any one Speed Limit sign or assembly.

Option:

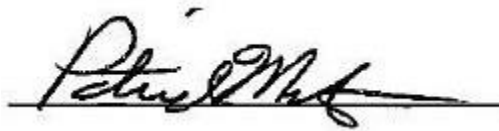

Other factors that may be considered when establishing speed limits are the following:

- A. Road characteristics, shoulder condition, grade, alignment, and sight distance;
- B. The pace speed;
- C. Roadside development and environment;
- D. Parking practices and pedestrian activity; and
- E. Reported crash experience for at least a 12-month period.

The traffic along this corridor meets conditions B, C, and E as the increase in traffic is creating an unsafe situation for the people travelling this corridor. **Therefore, the application does meet requirements for a speed limit change under Section 2B.13, requirements B, C, and E.**

Note that the Traffic and Safety Commission did recommend delaying a change to the speed limit request, mainly wanting to see the impact of the upcoming signal at Douglas and Orchard Boulevard and they also asked if increased patrolling of the area could make a difference.

However, with no slow down to the increasing number of vehicles and businesses in the area, Engineering recommends a reduction to the speed limit as per this application. This could create an immediate, positive impact on Douglas Boulevard. The Police Department and the Public Works Department support the change as well. Staff recommends approval.

Dear Mr. Menefee:

Please consider this an official request to change the posted speed limit on S. Douglas Blvd., from the 2900 blk. to Reno Avenue. The current posted speed limit is 45mph and I am requesting that the speed limit be changed to 40mph. This request is being made based on the following information.

- The current speed limit has been in place for several years prior to the development which has occurred since the speed limit was set. Over the past few years there have been several restaurants, strip malls, medical centers and multiple business which has a significant amount of vehicle traffic daily. Several of these businesses' driveways are at significant grades which makes it difficult for patrons to safely exit on to Douglas Blvd. with the current speed limit.
- There are two churches with large congregations that have entrances/exits on Douglas Blvd.
- There is an elementary school in the middle of the area along with a day care that abuts Douglas Blvd. in this section of roadway.
- There is a park, a municipal swimming pool and a golf course all of which adds to the traffic count.
- According to the records of the Midwest City Police Department between 42 non-injury accidents and 7 injury accidents.
- The traffic counts for this area is significantly higher than Midwest Blvd., from SE 29th to Reno Avenue and the speed limit in that stretch is 40mph. There are also more businesses, retail establishments on Douglas Blvd, as compared to Midwest Blvd.
- Directly south of SE 29th and Douglas Blvd., in Oklahoma City the speed limit is 40mph. While I am aware Midwest City does not have any input of the speed in that section of roadway, lowering the speed limit to 40mph would make the highly traveled area have a consistent speed limit.

In my opinion by taking this proactive step it would make it safer for the traveling public. It would also make it easier for customers of the numerous businesses that provide significant sale tax revenue to the City of Midwest City.

[Please see the traffic data and police report following the below attachments. G. H.]

Thanks for your consideration

Memorandum

To: Patrick Menefee, City Engineer
From: Vaughn K. Sullivan, Public Works Director
Date: December 26, 2018
Subject: Douglas Blvd. Speed limits

I am writing to express the Public Works Department's support for reducing the speed limits on Douglas Blvd. from 45 to 40 miles per hour (mph). The current high volumes of traffic at such high rates of speed has given Public Works staff safety concern for some time. Lowering the speeds along Douglas Blvd. will assist us in providing Solid Waste services, performing street maintenance and utility maintenance along that corridor more safely and efficiently.

Funding is available for the new 40 mph signs in the Street Department supply budget. The Street Department will commit the necessary labor to change out the 45 mph signs as well.

Please let me know if I can provide any additional information.

To: Mr. Guy Henson, City Manager
From: Chief Brandon Clabes
Subject: Support of Changing Existing Speed on S. Douglas Boulevard
Date: March 7, 2019

Mr. Henson,

On February 20, 2019, Assistant City Engineer Brandon Bundy provided us a copy of the Traffic and Safety Commission hearing which was going to be held the next day. The subject of the hearing was discussion and consideration of changing the speed limit from 45 mph to 40 mph for Douglas Boulevard from SE 29th to Reno Avenue.

The request/applicant was Councilman Pat Byrne and Mr. Bundy requested one of our commanders attend/be available for testimony. Captain Greg Wipfli attended the Traffic and Safety Commission hearing and supported the lowering of the speed limit to 40 mph in the areas identified. Although the engineering standards report did not support the request, the police department's position is as follows:

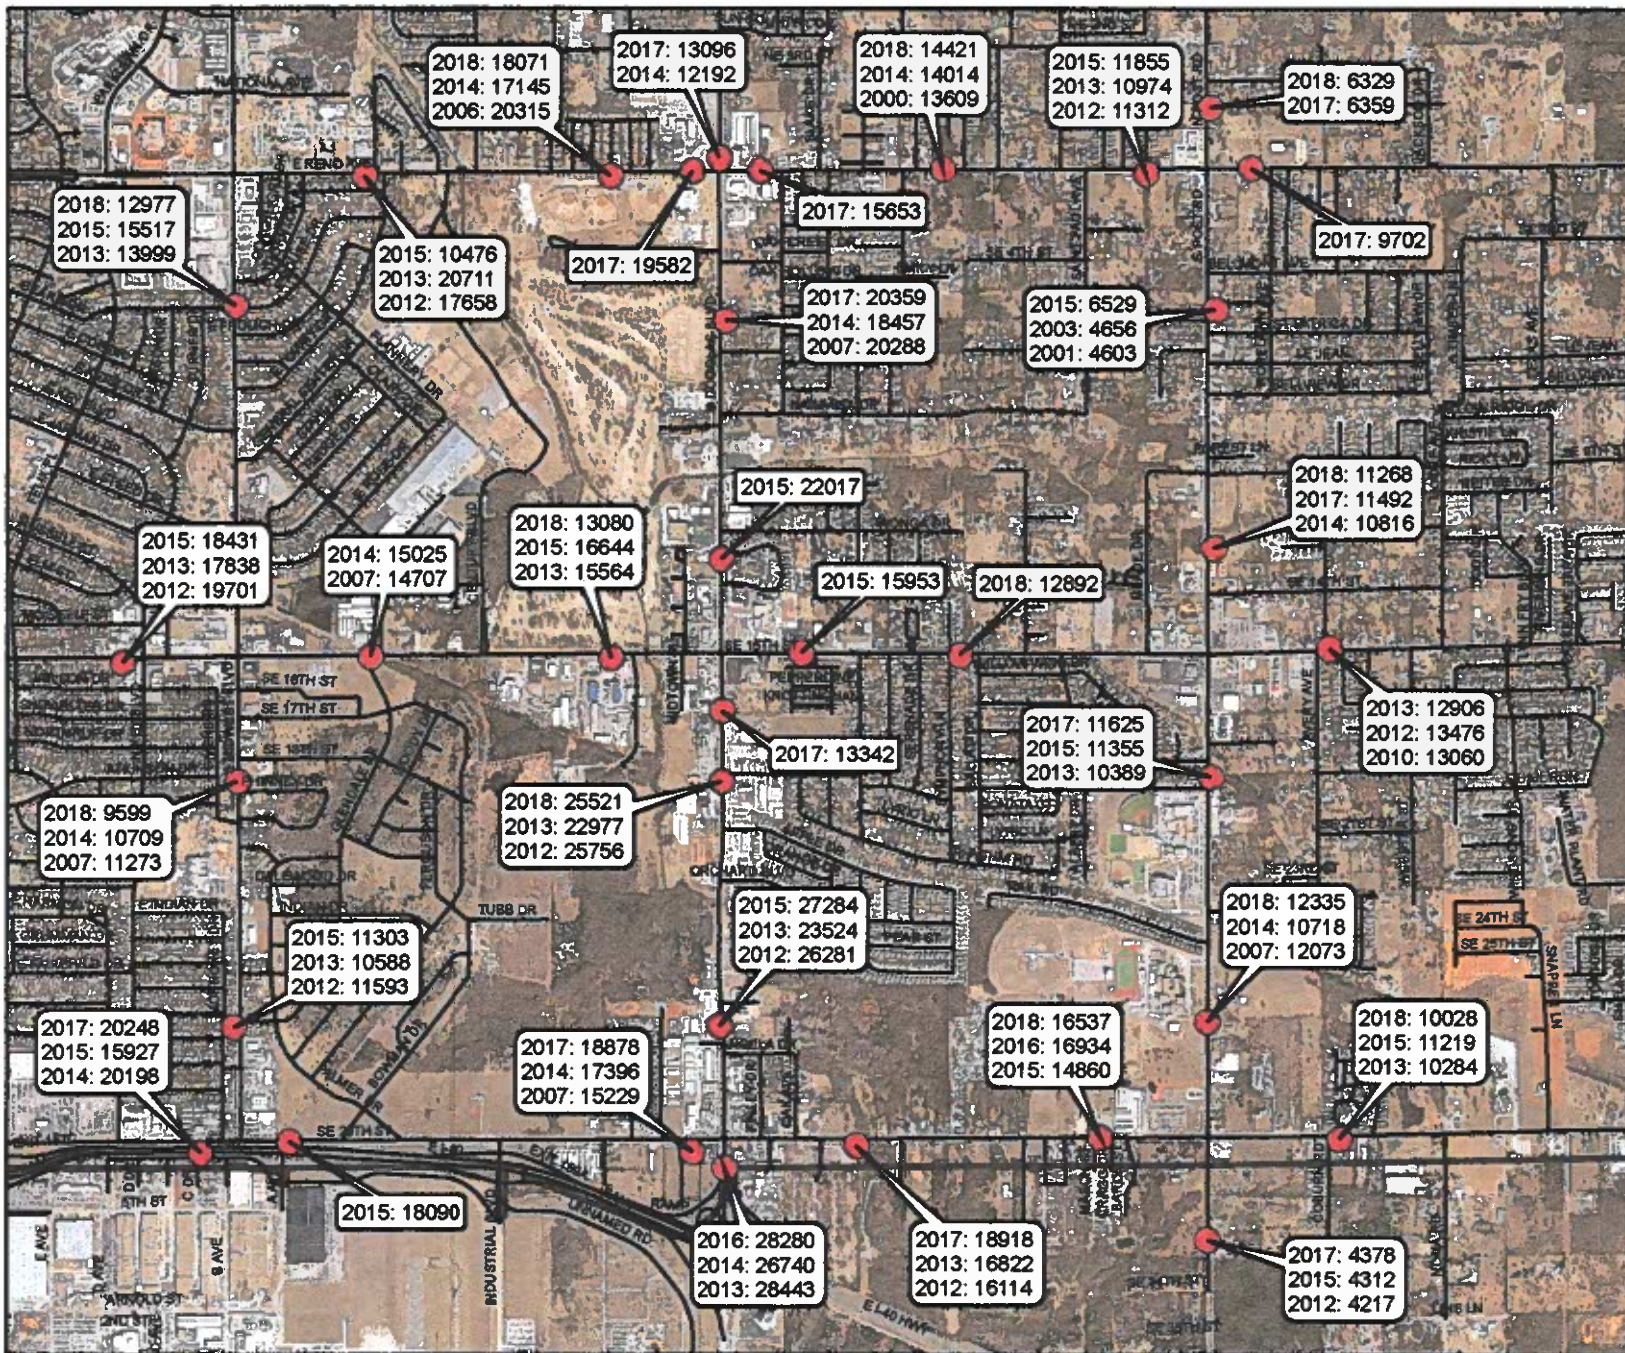

- 1) There has been a tremendous increase in motoring traffic between Reno and SE 29th on S. Douglas Boulevard due to business growth in the area.
- 2) Currently, there are over 120 ingress and egress access points on S. Douglas Boulevard between Reno and SE 29th.
- 3) Public Works Director Vaughn Sullivan provided a memo supporting the lower speed limit from a safety aspect for his employees doing work on the roadway in the area.
- 4) Our department is focusing on selective traffic enforcement in the area and lowering of the speed limit will assist us with our efforts. Because of the environment, it is difficult to enforce the current speed limit in a safe manner.
- 5) A similar situation occurred on SE 29th from S. Douglas Boulevard to S. Post Road. The speed limit was 50mph but lowered to 40mph. Eventually, it was raised back to 45mph due to public outcry.

Please contact me if you need additional information.

Respectfully,

Chief Brandon Clabes

To: Honorable Mayor and Council
From: Brandon Clabes, Police Chief
Subject: Discussion and consideration of passing and approving an ordinance amending the Midwest City Municipal Code, Chapter 8, Animal Shelter Operation, by adding Section 163, Animal Fee Waiver Events, providing for repealer, severability, and declaring an emergency.
Date: March 12, 2019

A councilmember has requested that steps be taken to resolve our animal shelter reaching capacity and then the city posting desperate pleas to the public for adoptions either through social media or television outlets. Our current ordinance governing adoption fees does not allow the ability to waive those fees which may limit interest in adoptions.

A request was made for an ordinance change that would allow adoption fees to be waived for a short time frame under the following circumstances:

The animal shelter would have to be at capacity and euthanizing animals was the only option (rescue groups, breed specific groups and all other means of adoption had been exhausted).

Once this criteria was met, the animal welfare supervisor would communicate his concerns through the chain of command to the police chief. The police chief would notify the city manager and authorization could be granted to waive the \$45.00 adoption fee. This fee covers spay or neutering and rabies vaccinations before animals are released to the public.

If authorization is granted, free adoptions would only be for a forty-eight (48) hour time frame and advertised through city websites, city social media accounts, and possibly television outlets in coordination with the chief communications officer. Steps would be taken by animal welfare staff to work with the sterilization contractor to coordinate the five (5) dogs a day that can be sterilized on Mondays, Tuesdays and Thursdays to have the requisite ten (10) adoptable animals available for the fee waiver period.

This new approach would have a financial impact on the shelter at an estimated cost of \$5,400 per year. That number is derived from 10 free adoptions per month.

Any action on this would be at the discretion of the council.
Respectfully,

Chief Brandon Clabes

MEMORANDUM

TO: Honorable Mayor and Councilmembers
FROM: Guy Henson, City Manager
DATE: March 12, 2019
SUBJECT: Discussion and consideration of approving a modification to Phase II and Phase III of the 2018 General Obligation Bond proposals approved by the voters of Midwest City on August 28, 2018.

In October of 2018, the Council approved a phasing of bond issues to implement the General Obligation Bonds approved by the voters (see attached). The First Phase consisting of \$20,000,000 was recently approved and sold with the proceeds to be deposited with the City in April.

Mr. Greg Neito has advised the City that as a result of the favorable interest rate the City received on the Phase One Bond issue, that it is possible to increase Phase II by approximately \$5,000,000. It is staff's recommendation that the Booster Station Renovation project to be moved from Phase III to Phase II. Any shortfall in funding will be overcome through a short-term loan from the 178 Account.

Action is at the Council's discretion.

MEMORANDUM

To: Honorable Mayor and Council

From: Tim Lyon, Assistant City Manager

Date: October 9, 2018

Subject: Discussion and consideration of approving Phase I, Phase II, and Phase III of the 2018 General Obligation Bond proposals approved by the voters of Midwest City on August 28, 2018.

Attached is a spreadsheet listing all projects approved from the four propositions on August 28th. The projects are prioritized by three phases. Each phase represents a date set when we plan on issuing the bonds. Phase I will be issued in December for \$20,000,000. Phase II will be issued in June of 2019 for \$11,693,250. Phase III will be issued in January of 2020 for \$21,954,250. By issuing the bonds in three phases we will be able to keep the millage rate on ad valorem property 10 mills or less.

Senior staff met and reviewed all of the projects and prioritized all of the projects approved. Careful consideration was given to many factors such as public safety, seasonal considerations, and operational impact.

Staff recommends approval.

If you have any questions, please give me a call at 739-1201.

Notice of the Midwest City Traffic and Safety Commission meeting was filed for the calendar year with the Midwest City Clerk and a copy of the agenda for the meeting was posted in the lobby of City Hall at least 24 hours in advance of the meeting.

**MINUTES OF MIDWEST CITY
TRAFFIC AND SAFETY COMMISSION MEETING
February 21st, 2019 – 6:00 p.m.**

The meeting of the Midwest City Traffic and Safety Commission was held in the Council Chambers, Midwest City, Oklahoma County, on February 21st, 2019 at 6:00 p.m., with the following members:

Commission Members: Gary Bachman - Chairman
Cindy Bullen
Nancy Rice
Ed Schratwieser
Nick Timme
Cy Valanejad

Absent: Kenny Stephenson

Staff: Patrick Menefee, P.E., City Engineer
Brandon Bundy, P.E., Assistant City Engineer
Greg Wipfli, Police Captain, Watch Commander

The meeting was called to order by Gary Bachman. Pledge of Allegiance was led by Nancy Rice. The invocation was given by Gary Bachman.

Minutes:

The meeting was called to order at 6:00 p.m. Motion was made by Nancy Rice, seconded by Cy Valanejad, to approve the minutes of the meeting of July 19th, 2018. Voting aye: All present.

A. NEW MATTERS:

- a. (TS-435) Discussion and consideration of changing speed limit from 45mph to 40mph for Douglas Blvd. from S.E. 29th St. to Reno Ave.

Patrick presented a summary of the item proposed by Councilman Byrne and addressed the item. He presented the documents: A traffic analysis and a memo from Vaughn Sullivan, Public Works Director. He said Engineering said the request improves safety, traffic flow, ingress and egress for the new businesses on the corridor, it helps the current residents with access as well. The study shows that accidents occur because of driver's impatience on the roadway and slowing this volume of traffic down would help. After continued clarification of the supplied report; Patrick recommended approval.

Captain Wipfli also addressed the commission and stated that the Police Depart is also in favor of lowering the speed limit.

Nancy Rice asked if the speed limit reduction could be limited to SE 29th to SE 15th and leave speed limit at 45 mph for SE 15th to Reno. Captain Wipfli and Patrick stated that both sections are being considered to keep things more uniform.

Cy Valanejad asked if everyone was aware there was going to be signal installed at Orchard which may slow people down on the corridor.

Cindy Bullen asked how the speed limit is applied in the center dual left turn lane. Both Patrick and Captain Wipfli addressed that that lane is no passing and is the same speed.

Nick Timme asked how the new speed limit would be enforced. Captain Wipfli said there would be a break in period.

Chairman Bachman asked if there was any data from the speed advisory sign currently deployed on Douglas. Captain Wipfli said it does not record data.

Ed Schratwieser asked Captain Wipfli if there could be more enforcement of the school zone speed. He addressed by saying it was done by unmarked police units and the motorcycle officers.

Chairman Bachman asked for a vote:

Voting aye: Cindy Bullen

Voting nay: Gary Bachman, Nancy Rice, Ed Schratwieser, Nick Timme, Cy Valanejad

Motion: denied 1-5

Discussion after the vote:

- Cindy Bullen supported based on staff recommendation
- Cy Valanejad denied based on the belief the future signal will have some effect on speed; there is already a school zone, he doesn't think it will be good for his business, and thinks there is adequate sight distance existing
- Nancy Rice would like to see the item come back to the commission after the signal is installed to see if there is an impact on speed.
- Chairman Bachman would like to see participation from the neighboring businesses to be included in the discussion.
- Nick Timme wants to see the speed limits consistent along the entire corridor including the OKC section from I-40 to SE 29th (45mph currently).

B. OLD AND TABLED MATTERS:

None Discussed

C. COMMISSION DISCUSSION:

Nancy Rice asked to see the minutes from the previous meeting 7-19-18. Staff provided hard copies. Commission re-voted based on the same motion to approve the minutes. Motion was made by Nancy Rice, seconded by Cy Valanejad, to approve the minutes of the meeting of July 19th, 2018. Voting aye: All present.

D. PUBLIC DISCUSSION:

None Discussed

E. FURTHER INFORMATION:

- a. Center Drive and SE 15th Street Signal
- b. Update to future Federal Aid signal projects

There being no further business, a motion was made by Nancy Rice, seconded by Nick Timme to adjourn the meeting. Voting aye: All present. Motion: carried. Meeting adjourned at 6:32 p.m.
