**MEMORANDUM**

TO: Honorable Mayor and Council

FROM: J. Guy Henson, City Manager

DATE: April 26, 2016

RE: Discussion and consideration of passing and approving an emergency ordinance amending the Midwest City Municipal Code, Chapter 2, Administration, by amending Article II, City Council, by taking Section 2-17 out of reserve and entitling it, "Elected Official Accountability Act and Ethics Policy," which shall read as specified in this ordinance; providing for repealer and severability; and declaring an emergency. (This item appeared under the Further Information section of the April 12, 2016 Council agenda.)

---

Councilmember McClure would like this ordinance to be considered an emergency which means that it will go into effect immediately upon passage. Under the terms of the Charter, "An emergency ordinance is an ordinance which in the judgment of the council is necessary for the immediate preservation of peace, health, or safety, and which should become effective prior to the time when an ordinary ordinance would become effective."

Action is at the Council's discretion.

A handwritten signature in black ink, appearing to read "J. Guy Henson", is written over a horizontal line.

## Finance Department

TO: Honorable Mayor and City Council

FROM: Judy P. Siemens, Finance Director

DATE: April 26, 2016

SUBJECT: Discussion and consideration of accepting the financial audit of the City of Midwest City and the single audit for the federal programs as of and for the year ended June 30, 2015.

The financial audit for the City of Midwest City as of and for the year ended June 30, 2015 is an attachment to your council agenda. Other attachments include the single audit and required communications by the auditor.

The financial audit report expressed an unmodified opinion for the year ending June 30, 2015 with no material weaknesses. The audit process did disclose two significant deficiencies in the internal controls. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. The first deficiency is related to the presentation of the other post-employment benefits (OPEB) liability. The City has always reported the OPEB liability at the fund level in the internal service fund, L&H. After consultation with the Governmental Accounting Standard Board, the City elected to alter its presentation. The liability was removed from the internal service fund and the portion of the liability to the enterprise funds was recorded in the fund financial statements. The liability portion for the governmental funds, is being reported at the government wide financial statements. The second deficiency is related to capitalized interest. The City is required to capitalize interest expense for construction in progress for all enterprise funds. The total effect was not material on the City's net position and no restatement was required.

The single audit report which is required by *OMB Circular A-133*, indicates that the City of Midwest City did comply in all material respects with the requirements for the major federal programs. There is no material weakness or significant deficiency in controls over the federal programs.

The two financial audit findings mentioned above are required by *Government Auditing Standards* to be listed in the single audit report. A further explanation of the findings and the city's response can be seen on pages 11 through 13 of the report.

The financial audit is provided to you as a Further Information item for this agenda. The item will be placed on the May 10, 2016 council agenda for approval. Mike Gibson of RSM US LLP will be at the May 10, 2016 meeting to present the report and answer any questions.

## Independent Auditors' Report

Honorable Mayor and City Council  
The City of Midwest City  
Midwest City, Oklahoma

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City of Midwest City, Oklahoma, (the City) as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Midwest City, Oklahoma, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Emphasis of Matters**

As discussed in Note 7 to the basic financial statements, in 2015 the City adopted Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions* and GASB Statement No. 71, *Pension Transition of Contributions Made Subsequent to the Measurement Date – an Amendment of GASB Statement No. 68*. The City recorded the cumulative effect of adopting GASB Statements No. 68 and 71 as an adjustment of net position as of July 1, 2014. Our opinion is not modified with respect to this matter.

As discussed in Note 7 to the basic financial statements, the City has restated July 1, 2014 net position in the Governmental Activities, Business-Type Activities, Major Enterprise Fund and Aggregate Remaining Fund Information to correct an error in the allocation of other post-employment benefit obligations. Our opinion is not modified with respect to this matter.

### **Other Matters**

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pension and other post-employment benefit schedules, and the general fund budgetary comparison schedule, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements and the schedule of debt service coverage requirements, listed in the table of contents as Other Supplementary Information, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. These statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements, or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of debt service coverage requirements, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report (under separate cover) dated April 21, 2016, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

**MANAGEMENT DISCUSSION AND ANALYSIS**

**CITY OF MIDWEST CITY, OKLAHOMA  
ANNUAL FINANCIAL REPORT  
As of and for the Year Ended June 30, 2015**

---

The City of Midwest City's Management's Discussion and Analysis is designed to (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the City's financial activity, (c) identify changes in the City's financial position (its ability to address the next and subsequent years' challenges), (d) identify any material deviations from the financial plan (the approved budget), and (e) identify individual fund issues or concerns.

Since the Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes and currently known facts, please read it in conjunction with the City's financial statements beginning on page 18.

**FINANCIAL HIGHLIGHTS**

- The assets and deferred outflows of the City exceeded its liabilities and deferred inflows at the close of the fiscal year ended June 30, 2015, by \$520,172,156 (net position). Of this amount, unrestricted net position of the governmental activities was a deficit of \$21,639,792 with the business type activities reporting an unrestricted net position of \$9,708,773. The unrestricted net position may be used to meet the government's ongoing obligations to citizens and creditors.
- The Primary Government's total net position increased by \$8,427,363 or 1.6% from the prior year. This was a result of an increase of \$3,569,686 in the governmental activities while the business-type activities had an increase of \$4,857,677. Both revenues and expenses increased over the prior year. The detailed changes made from the Governmental Fund Statements to the Statement of Net Position can be found on page 25.
- The City's total debt increased by approximately \$18,631,000 or, 16.5%, mainly due to police and fire pension liabilities and deferrals that are now included in City's financial statement per GASB statements 68 and 71. The OPEB (the commitment by the City that retirees can continue on group health insurance at a subsidized rate) liability continues to increase annually by \$282,683.
- Sales tax is the major source of revenue for governmental activities. Sales and use tax collections for fiscal year 2015 totaled \$33,008,553 compared to \$33,958,904 in FY 2014. The total decrease in sales and use tax collection was \$950,351. New retail development in surrounding cities and economic factors resulted in the decline. A historical review of governmental activity revenues can be found in statistical information of the report.
- At the end of the fiscal year 2015, the unassigned fund balance of the General Fund was \$4,299,398 or 14.9% of General Fund revenues.
- Health Insurance premiums increased \$765,727 over last year or 12%. This was due to premium increases and increased City contributions.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

The Management's Discussion and Analysis is intended to serve as an introduction to the City of Midwest City's basic financial statements. The City's basic financial statements comprise of three components: (1) government-wide financial statements, (2) fund financial statements and (3) notes to the

**CITY OF MIDWEST CITY, OKLAHOMA**  
**ANNUAL FINANCIAL REPORT**  
**As of and for the Year Ended June 30, 2015**

---

financial statements. This report also contains supplementary information in addition to the basic financial statements.

**Government-wide Financial Statements.** The government-wide financial statements are designed to provide readers with a broad overview of the City's finances in a manner similar to the private-sector business.

The Statement of Net Position presents information on all of the City's assets, deferred outflows, liabilities, and deferred inflows with the difference between the four elements reported as net position. Over time, increases or decreases in net position serve as a useful indicator on whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the City's net position changed during the most recent fiscal year. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and fines and earned but not used vacation and sick leave as stated in City policy and union contracts). Both the Statement of Net Position and the Statement of Activities are prepared using the accrual basis of accounting as opposed to the modified accrual basis used for Fund Financial Statements of the governmental funds.

In the Statement of Net Position and the Statement of Activities, the City is divided between two types of activities:

- **Governmental activities.** Most of the City's basic services are reported here, including general government, public safety, streets, culture and recreation, health and welfare and economic development. Sales taxes and franchise taxes finance most of these activities as reflected on page 19.
- **Business-type activities.** The City charges a fee to customers to cover the cost of services it provides. The City's utility system (water, sewer, sanitation, and drainage), conference center/hotel, golf, trailer park and industrial park activities are reported here.

**Fund Financial Statements.** A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. Fund financial statements provide detailed information about the most significant funds, but not the City as a whole. Some funds are required to be established by state law or bond covenants. However, the City Council establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants and other monies. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

- **Governmental funds.** The majority of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method identified as the modified accrual basis of accounting which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general governmental operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can

**CITY OF MIDWEST CITY, OKLAHOMA**  
**ANNUAL FINANCIAL REPORT**  
**As of and for the Year Ended June 30, 2015**

---

be spent in the near future to finance the City's programs. By comparing information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements, readers may better understand the long-term impact of the government's near-term financing decisions. The relationship or differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds are detailed in a reconciliation following the fund financial statements on page 23 and 25 of this report.

The City of Midwest City maintains individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the General, Police, Fire, and Hospital Authority funds. Data from the debt service fund, 14 special revenue funds, and 6 capital project funds, all of which are considered to be governmental, are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements starting on page 81 of this report.

- **Proprietary funds.** The City charges customers for certain services it provides, whether to outside customers or to other units within the City. These services are generally reported in proprietary funds. Proprietary funds are reported in the same manner that all activities are reported in the Statement of Net Position and the Statement of Activities. In fact, the City's enterprise funds (a component of proprietary funds) are similar to the business-type activities that are reported in the Government-wide statements but provide more detail and additional information, such as cash flows. The internal service funds (the other component of proprietary funds) are utilized to report activities that provide supplies and services for the City's other programs and activities, such as the risk management functions, health self-insurance fund, fleet services, surplus property activities and public works function. Because these services benefit both governmental and business-type functions, they have been included in both the governmental and business-type activities in the government-wide financial statements.

The City of Midwest City maintains one major enterprise fund. The City uses this fund to account for its water, sewer, sanitation, conference center/hotel, debt service and drainage operations. The fund provides the same type of information as the government-wide financial statements, only in more detail and includes some of the internal service fund-type activity. The City considers this enterprise fund activity to be a major fund. Data from 6 non-major enterprise funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major enterprise funds is provided in the form of combining statements starting on page 87 of this report.

**CITY OF MIDWEST CITY, OKLAHOMA**  
**ANNUAL FINANCIAL REPORT**  
**As of and for the Year Ended June 30, 2015**

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As of June 30, 2015, the City's combined net position is \$520,172,156, of which \$407,640,891 can be attributed to governmental activities and \$112,531,265 is attributed to business-type activities. This analysis focuses on the net position (Table 1) and changes in net position (Table 2) of the City's governmental and business-type activities.

The largest portion of the City's net position, 83.0%, reflects its net investment in capital assets (e.g., land, water rights, building, machinery and equipment, less any related debt used to acquire those assets that is still outstanding). The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The net change in capital assets can be reviewed in Table 1 with key element changes shown in Table 3.

Governmental activities increased the City's net position by \$3,569,686 or .9%. The business type activities increased the City's net position by \$4,857,677 or 4.5% for a net increase of \$8,427,363, or 1.6%. In business type activities, sewer construction caused decreases in investments and unrestricted fund balance and an increase of net investment in capital assets. The key elements of these changes are contained in Table 2.

**Governmental Activities.** The revenues reflect a decrease over last year of \$9,663,969. This significant decrease is primarily the result of decrease of capital grants and contributions of \$1,830,037. The Hospital Authority had a decrease of \$9,201,492 in investment income over last year. The Hospital Authority is the only fund authorized to invest in the stock market which can result in large fluctuations based on the market performance. All other fund investments are FDIC insured, collateralized or direct obligations of the United State Government.

The sales tax with a rate of 3.85% is the governmental activities main source of revenue is allocated as follows:

General	27.01%
Police	28.57%
Fire	23.90%
911	1.05%
Capital Improvement	6.49%
Park and Rec	1.30%

**ANNUAL FINANCIAL REPORT**  
**As of and for the Year Ended June 30, 2015**

---

The most significant governmental activities expenditure was providing public safety with a cost of \$26,748,051. These expenditures were funded by revenue collected from a variety of sources with the largest being a transfer from General Fund in the amount of \$17,113,363 and dedicated sales tax of \$5,388,539 for the fiscal year ended June 30, 2015. The most significant portion of public safety expense is the cost of personnel. Salaries and benefits totaled \$25,572,371. Other significant governmental expenditures are for the streets in the amount of \$14,939,485 of which \$12,038,162 is depreciation expense.

**Business-type Activities.** Business-type revenue increased by \$843,510 or 3% from the prior year. The investment income increased from \$608,280 to \$1,431,852 due to the unrealized gain on investments.

**Budgetary Highlights.** For fiscal year 2014-2015, General Fund revenue (including transfers) budget was amended by \$7,700 or .02% of the original budget of \$37,099,173. The actual revenue (including transfers) is less than the final budget projection by \$195,786, or 0.5%. General Fund actual expenditures (including transfers) on a budgetary basis was \$36,376,657 compared to the final budget of \$37,522,292. See page 74 of the report for more detail.

The Police Fund revenue (including transfers) budget was increased by \$33,722, or 0.3%, of the original budget of \$12,711,496. The actual revenue (including transfers) is less than the final budget projection by \$65,245 or 0.5%. The actual expenditures (including transfers) on a budgetary basis were \$12,678,614 compared to the final budget of \$13,712,771. Actual expenditures (including transfers) were \$1,034,157 or 7.5% below budget projections. Some vacant positions were budgeted but not staffed. Capital outlay of \$444,601 for equipment was not spent.

The Fire Fund revenues (including transfers) budget was amended by \$28,280 or .27%. The actual revenue (including transfers) was less than the final budget projection by \$69,119. The actual expenditures (including transfers) on a budgetary basis were \$10,940,408 compared to the final budget of \$11,483,868. Actual expenditures (including transfers) were \$543,460 or 4.7 % below projections. Some positions were budgeted but not staffed due to vacancy. Capital outlay appropriation of \$271,535 was not spent.

The budget to actual comparisons for these funds can be found on pages 74-77 of the report.

**Capital Asset** At the end of fiscal year 2015, the City had \$499,475,776 invested in a broad range of capital assets, including police and fire equipment, buildings, conference center and hotel, park facilities, roads, bridges, water and sewer facilities and distribution systems. This amount represents a net decrease (including additions and deductions) of \$8,198,559 for the governmental activities. Although the City had land additions of \$135,007, building additions of \$171,748, equipment additions of \$779,652, vehicle additions of \$672,327, construction in progress additions of \$1,816,143 and infrastructure additions of \$4,881,110; the depreciation expense of \$14,456,391 caused the current year reduction, with street depreciation for the year in the amount of \$12,038,162.

The business activities had a net increase of \$12,335,048 due to the addition of construction in progress of the Sewer Facility for approximately \$8,973,387. Table 3 reflects the net key elements that make up the capital assets by type and source.

**FACTORS AFFECTING FINANCIAL CONDITION**

**Economic Outlook.** Many economists are predicting slow but steady growth in the national economy for 2016 and we have no reason to believe things will be any different in Midwest City. Although many parts of the state are still reeling from the decline in the energy sector, Eastern Oklahoma County has much less at stake in the oilfield. Tinker Air Force Base (“TAFB”) and Boeing are both recruiting as are many of their suppliers. In fact, the only thing standing in the way of near double-digit growth is the looming threat of higher interest rates from the Federal Reserve Bank.

We offer the following review on local economic sectors:

- **Retail.** The City continues to work towards developing new shopping centers. There is great promise of an additional retail development on the west end of SE 29<sup>th</sup> Street as well as S. Douglas Boulevard corridor. Any impact of the proposed developments would not be realized until the later part of 2016 or the first quarter of 2017 at the earliest.

In the meantime, Internet trade and store openings in other communities continue to eat into our revenues. Many real estate and government advocates are holding out hopes that a Federal tax fairness bill is in the works. However, the likelihood of seeing such a bill passing in an election year is very low.

- **Hospitality.** This industry consists of entertainment, hotels, motels, restaurants and other similar service-oriented businesses. *Raising Cane’s Chicken Fingers* and *On the Border Mexican Restaurant and Cantina* are opening new locations near SE 29<sup>th</sup> Street very soon.

Lodging taxes fund the City’s economic development and tourism recruitment efforts. Vacancy rates remain static across the board and there is a new 90-room Hilton Home 2 Suites permitted for 1820 Center Drive.

- **Industrial.** Creating new wealth often involves workforce development and industrial recruitment. Increasing average household incomes can have a positive impact on some of the major statistics that drive retail development, and we certainly hope this is the case with the new Soldier Creek Industrial Park (“SCIP”).

The absence of large lot industrial parks may have hindered the City’s efforts in the past, the first phase of SCIP will offer 40 acres of new opportunities in one of the most economically challenged areas of Midwest City. SCIP should have a new road by May of 2016, and there is hope water and sewer will follow. While it will not fill up overnight, we should have tenants in the park before the end of 2016.

In summary, the outlook for the local economy appears good for 2016 provided interest rates don’t raise more than half of a point and fuel prices remain near \$2.00 per gallon. Any substantial increases in these areas could dampen the possibilities of what could be an additional year of recovery.

ANNUAL FINANCIAL REPORT

**FY 2015-2016 Budgets and Rates.** The fiscal year 2015-2016 expenditure budgets presented to the Council and Board of Trustees was \$112,085,203, which is net of \$48,979,228 inter/intra-fund transfers.

The three major governmental funds reflect the following budgets adopted for FY 15-16:

	<u>Revenues</u>	<u>Transfers In</u>	<u>Expenditures</u>	<u>Transfer Out</u>	<u>(Use) of Fund Balance</u>
General	\$26,544,469	\$10,875,063	\$12,032,315	\$25,811,673	(\$424,456)
Police	\$ 2,906,378	\$ 9,585,243	\$12,770,385	\$ 311,029	(\$589,793)
Fire	\$ 2,340,562	\$ 7,670,310	\$10,100,889	\$ 166,000	(\$256,017)

Personal services were budgeted with the merit steps included for all pay plans; non-represented, police and fire. A 1.3% cost of living (COLA) was included for all non-represented employees after police negotiation.

Through later negotiations, a total of 5.5% increase was implemented for police; the increase includes COLA as well as shifting of 5% from employer pension contribution to employee salary. After shifting, the City's contribution decreased from 18% to 13% and the employee contribution increased from 3% to 8%. The statutory contribution requirement for the police defined benefit pension plan will remain the same at 21% in which 13% is to be paid by the City and 8% by the employee.

The statutory contribution requirement for fire defined benefit pension plan increased from 21% to 23% as of November 1, 2014 due to the concern of the unfunded liability of this plan. The law designates that 14% be paid by the City and 9% by the employee. The City currently pays 18% and the employee pays 5%.

The non-represented employees participate in a defined contribution plan. Effective January 1, 2015, the contribution by the City increased .5%, going from 13.5% to 14%.

The City through self-insurance sponsors medical, prescription and dental insurance to full time employees and qualifying retirees and their families. Annual health insurance premium amounts are established by the City Council. The "Affordable Care Act" (ACA) has certain costs that are not to be passed on to the employee or retiree. For FY 2015-2016 the budgeted is \$138,982.

In addition to the current medical insurance plan (Blue Choice), City is offering a new medical insurance plan (Blue Preferred) with lower premium which has a reduced network to employees, effective July 1, 2015.

**Emergency reserves** are contained in the operational fund budgets of the City. The General fund is required to maintain a 10% reserve while all others are required to maintain a 5% reserve. The reserves are equal to the annual operating budget less transfers out and capital outlay. The reserves are only accessible if a significant event should occur such as a downturn in the economy greatly affecting the funding of the City's operations, uses for natural disasters or one-time non-recurring emergency that disrupts the cash receipts of the City. With the resolution in place for maintaining a reserve, the City becomes more financially stable and better equipped to handle any unforeseen emergencies or major loss of revenues.

**Request for Information.** This financial report is designed to provide a general overview of the City's finances, comply with finance-related laws, regulations and demonstrate the City's commitment to public accountability. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the City of Midwest City, Finance Department, 100 N. **Reconciliation of Governmental Funds and Government-Wide Financial Statements:**

**Fund Balance – Net Position Reconciliation:**

<b>Fund balances of governmental funds</b>	<b>\$ 111,309,163</b>
 Amounts reported for governmental activities in the Statement of Net Position are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds, net of accumulated depreciation of \$194,458,850	<u>334,210,709</u>
 Certain long-term assets are not available to pay for current fund liabilities and, therefore, along with deferred outflows, are a deferred outflow of resources in the funds or not reported in the funds:	
Due from other governments	80,655
Other receivable, net of allowance	1,452,794
HMA hospital receivable	<u>20,658,935</u>
	<u>22,192,384</u>
 Certain other long-term assets and deferred outflows are not available to pay current period expenditures and certain long-term liabilities and deferred inflows are not due and payable from current financial resources, and therefore, are not reported in this fund financial statement, but are reported in the governmental activities of the Statement of Net Position.	
Net pension asset	772,001
Pension related deferred outflows	2,736,922
Net pension liability	(24,598,661)
Pension related deferred inflows	<u>(6,783,859)</u>
	<u>(27,873,597)</u>
 Internal service funds are used by management to charge the cost of certain activities to individual funds. An allocation of the assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.	
	<u>4,944,425</u>
 Certain long-term liabilities are not due and payable from current financial resources and, therefore, along with deferred inflows are not reported in the funds:	
General obligation bonds payable	(4,100,000)
Notes payable	(22,591,759)
Accrued compensated absences	(4,090,853)

**CITY OF MIDWEST CITY, OKLAHOMA**  
**ANNUAL FINANCIAL REPORT**  
**As of and for the Year Ended June 30, 2015**

**Changes in Fund Balances – Changes in Net Position Reconciliation:**

Net change in fund balances - total governmental funds: \$ 8,183,472

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets:

Capital asset purchases capitalized	3,869,818
Capital asset donated	2,520,076
Loss on disposal of capital asset	(150,613)
Depreciation expense	(14,390,411)
	(8,151,130)

In the Statement of Activities, the net cost of pension benefits earned is calculated and reported as pension expense. The fund financial statements report pension contributions as pension expenditures. This amount represents the difference between pension contributions and calculated pension expense.

1,872,176

Repayment of debt principal is an expenditure and collections of leasehold receivables are a revenue in the governmental funds. However, the repayments reduce long-term liabilities or the long-term assets in the Statement of Net Position:

Leasehold receivable receipts	(457,890)
Note payable principal payments	579,006
General obligation bond principal payments	1,400,000
	1,521,116

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds:

Change in unavailable revenue	(350,153)
-------------------------------	-----------

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds:

Change in OPEB obligation	(342,022)
Change in accrued interest payable	2,139
Change in accrued compensated absences	46,044
	(293,839)

Internal service fund activity is reported as a proprietary fund in fund financial statements, but certain net revenues/expenses are reported in governmental activities on the Statement of Activities.

Total change in net position for internal service funds	788,044
---	---------

Change in net position of governmental activities	\$ 3,569,686
---	--------------

**CITY OF MIDWEST CITY, OKLAHOMA  
ANNUAL FINANCIAL REPORT  
As of and for the Year Ended June 30, 2015**

---

**FOOTNOTES TO BASIC FINANCIAL STATEMENTS**

## **Note 1. Summary of Significant Accounting Policies**

The City of Midwest City's (the City) accounting and financial reporting policies conform to accounting principles generally accepted in the United State of America (GAAP). GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this note.

### **1.A. Financial Reporting Entity**

In determining the financial reporting entity, the City of Midwest City (the "City") complies with the provisions of Governmental Accounting Standards Board Statement No. 14, "*The Financial Reporting Entity*" and Statement No. 61, "*The Financial Reporting Entity: Omnibus*" and includes all component units for which the City is financially accountable. The City's financial reporting entity primary government presentation includes the City of Midwest City and certain component units as follows:

**The City of Midwest City** – operates the public safety, health and welfare, streets and highways, parks and recreation, and administrative activities

The City of Midwest City is an incorporated municipality located in central Oklahoma. The City operates under a council-manager form of government with a charter that provides for three branches of government:

- Legislative – the governing body includes an elected seven-member City Council and Mayor
- Executive – the City Manager is the Chief Executive Officer and is appointed by the City Council
- Judicial – the Municipal Judges are practicing attorneys appointed by the City Council

**Blended Component Units:** Separate legal entities for which the City Council members serve as the trustees/governing body of the entity and /or the City is able to impose its will on the Authorities through required approval of all debt obligations issued by these entities. These component units funds are blended into the City's by appropriate fund type to comprise part of the primary government presentation.

**Midwest City Utilities Authority** –created for industrial development.

**Midwest City Municipal Authority** – created to operate the water, wastewater, sanitation and conference center/hotel.

**Midwest City Hospital Authority** – created to operate the hospital, however, in 1996 the hospital was leased for a 30 year term. In March 2009, this lease was extended to May 2048. The Trustees manage activities related to the hospital lease.

**Urban Renewal Authority** – created for economic development.

Each of these component units listed above are Public Trusts established pursuant to Title 60 of Oklahoma State law. Public Trusts (Authorities) have no taxing power. The Authorities are generally created to finance City services through issuance of revenue bonds or other non-general obligation debt and to enable the City Council to delegate certain functions to the governing body (Trustees) of the Authority. The Authorities generally retain title to assets which are acquired or constructed with

Authority debt or other Authority generated resources. In addition, the City has leased certain existing assets at the creation for the Authorities to the Trustees on a long-term basis. The City, as beneficiary of the Public Trusts, receives title to any residual assets when a Public Trust is dissolved.

In accordance with state law, the City Council must approve, by two-thirds vote, all debt obligations of these public trusts prior to incurring the obligation. This is considered sufficient imposition of will to demonstrate financial accountability and to include the trusts within the City's financial reporting entity. The public trusts do not issue separate annual financial statements.

### **1.B. Basis of Presentation and Accounting**

This annual report is presented in a format that substantially meets the presentation requirements of the Governmental Accounting Standards Board (GASB) in accordance with generally accepted accounting principles. The presentation includes financial statements that communicate the City's financial condition and changes therein at two distinct levels:

- **The City as a Whole** (a government-wide presentation)
- **The City's Funds** (a presentation of the City's major and aggregate non-major funds)

#### **Government-Wide Financial Statements:**

The Government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. In the Statement of Net Position and the Statement of Activities, we divide the City into two kinds of activities:

*Governmental activities* - Most of the City's basic services are reported here, including the police, fire, general administration, streets, parks and recreation. Sales taxes, franchise fees, fines, and state and federal grants finance most of these activities.

*Business-type activities* – Services where the City charges a fee to customers to help cover all or most of the cost of the services it provides. The City's water, sewer, sanitation systems and the hotel/conference center activities are reported here.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The statements of net position and activities are reported on the accrual basis of accounting and economic resources measurement focus. Under the accrual basis of accounting, revenues are recognized when earned and expenses (including depreciation and amortization) are recorded when the liability is incurred or economic asset used.

**Fund Financial Statements:**

***Governmental Funds:***

Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. Governmental funds report their activities on the modified accrual basis of accounting and current financial resources measurement focus that is different from other funds. For example, these funds report the acquisition of capital assets and payments for debt principal as expenditures and not as changes to asset and debt balances. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period except for reimbursement type grants that are recorded as revenues when the related expenditures are recognized. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, claims, judgments, and net pension liabilities are recorded only when payment is due.

Sales and use taxes, property taxes, franchise taxes, licenses, court fines and interest associated with the current fiscal period are all considered to be susceptible to accrual, and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps one determine (through a review of changes to fund balance) whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. The City's governmental funds include:

**Major Funds:**

- General Fund – accounts for all activities not accounted for in other special-purpose funds. For reporting purposes the General Fund includes the activities of the Reimbursed Projects Account, Employee Activity Account, Activity Account, Animals Best Friend Account, Disaster Relief Account, and Retiree Health Claims Account.
- Police Fund – is a special revenue fund that accounts for police services funded by a restricted sales tax, a transfer of 34.21% of General Fund revenues per ordinance legally restricted for police operations, and fines and fees restricted for traffic enforcement operations. For reporting purposes, the Police Fund includes the Jail Fund.
- Fire Fund — is a special revenue fund that accounts for fire protection services funded by sales tax legally restricted for fire and a transfer of 27.66% of General Fund revenues per ordinance legally restricted for fire operations.
- Midwest City Hospital Authority – is a special revenue fund that manages activities related to the hospital lease, funded by interest income and in lieu of taxes.

**ANNUAL FINANCIAL REPORT**  
**As of and for the Year Ended June 30, 2015**

---

Aggregated Non-Major Funds (reported as Other Governmental Funds):

Special Revenue Funds include Grants, Juvenile, Parks and Recreation, Emergency Operations, Technology, Welcome Center, Police Impound Fees, Street and Alley, Police Special Projects, Police Lab Fee, Convention/Visitors Bureau, Urban Renewal Authority Funds, Tax Increment Financing, and General Government Sales Tax.

Debt Service Fund – accounts for ad-valorem taxes levied by the City for use in retiring general obligation bonds, and their related interest expenses.

Capital Project Funds:

- Capital Improvement Fund – accounts for assessed fees that help fund capital projects for various functions of the City.
- Downtown Redevelopment Authority – accounts for the lease proceeds from the 29<sup>th</sup> street redevelopment. Proceeds are used to fund various needs of the City.
- 2002 Street Project Fund – accounts for the proceeds from the 2002 General Obligation Street Bonds which funds capital street projects.
- Dedicated Tax 2012 Fund – accounts for the sales tax restricted for street, parks, trails, sidewalks and public transportation projects.
- Sales Tax Capital Improvement Fund – accounts for sales tax restricted by a vote of the citizens for capital improvements, including debt retirements.
- Capital Outlay Reserve Fund – accounts for funds set aside to fund the five year capital needs projects.

The reconciliation of the governmental funds financial statements to the governmental activities presentation in the government-wide financial statements is the result of the use of the accrual basis of accounting and economic resources measurement focus at the government-wide level.

***Proprietary Funds:***

When the City charges customers for the services it provides, these services are generally reported in proprietary funds. Proprietary funds include enterprise funds and internal service funds. Enterprise funds are used to account for business-like activities provided to the general public. Internal service funds are used to account for business-like activities provided to other funds or departments of the City. Proprietary funds are reported on the accrual basis of accounting and economic resources measurement focus. For example, proprietary fund capital assets are capitalized and depreciated and principal payments on long-term debt are recorded as a reduction to the liability.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Midwest City Municipal Authority, non major enterprise funds and of the City's internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The City's proprietary funds include the following:

**Enterprise Funds**

Major:

Midwest City Municipal Authority includes the following accounts:

- Water Account (includes the Water Operating Account and the Water Capital Projects Account) accounts for the activities providing water services to the public.
- Sewer Account (includes the Sewer Operating Account and the Sewer Capital Projects Account) accounts for the activities providing sewer services to the public.
- Sanitation Account (includes the Sanitation Operating Account) accounts for the activities providing sanitation services to the public.
- Conference Center/Hotel Account (includes the Conference and Hotel Operating Account) accounts for the activities related to the Conference Center and Hotel.
- Drainage Account (includes the Drainage Operating Fund and the Capital Projects Account) accounts for the activities providing drainage services to the public.
- Debt Service Account accounts for the debt activities related to the 2011 and 2011A Revenue Bonds.

Non-Major:

- Utilities Authority Fund –accounts for industrial development activities.
- Utility Services Fund – accounts for activities related to billing for water, sewer, sanitation, storm water, and drainage.
- Utilities Capital Fund – accounts for capital purchases for the water, sewer, and sanitation systems.
- Customer Deposit Fund –accounts for utility customer deposits.
- Golf Course Fund –accounts for activities of the John Conrad and the Hidden Creek golf courses.
- 29<sup>th</sup> and Douglas –accounts for activities of the trailer park at 29<sup>th</sup> and Douglas.

**Internal Service Funds** (aggregated in a single column for reporting purposes)

- Risk Management Fund - accounts for the cost of providing various insurance services (i.e workers compensation, general liability, vehicle and property) to other funds and departments of the City
- Public Works Administration Fund - accounts for the cost of centralization of administrative resources to various departments of the City. This fund primarily serves the business-type activities.
- Fleet Services Fund - accounts for fuel, maintenance and repairs for the City's fleet.
- Surplus Property Fund - accounts for the disposal of surplus property on behalf of all departments.
- L&H Benefits Fund - accounts for health and life benefits to employees.

**1.C. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance**

**Deposits and Investments:**

Cash and cash equivalents includes all demand and savings accounts, certificates of deposit or short-term investments with an original maturity of three months or less, and money market investments. Trust account investments in open-ended mutual fund shares are also considered cash equivalents.

Investments, other than Hospital investments, consist of long-term certificates of deposit, U.S. Treasury bonds and notes, and U.S. agency securities. Certificates of deposit are reported at cost, while the U.S. Treasury and agency securities are reported at fair value which is determined by quoted market value. Hospital investment consist of mutual funds, equities, and foreign equities. Investments are reported at fair value which is determined by quoted market value.

**Restricted Assets:**

Certain proceeds of the enterprise funds promissory notes, as well as certain resources set aside for their repayment, are classified as restricted assets on the Statement of Net Position because they are maintained in separate bank accounts, and their use is limited by applicable loan covenants. The debt service fund accounts are used to segregate resources accumulated for debt service payments over the next 12 months. In addition, amounts held for meter deposit refunds are considered restricted.

**Receivables and Unearned Revenue**

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivable balances for the governmental activities include sales and use taxes, franchise taxes, grants and court fines. Business-type activities report utilities as its major receivable.

In the fund financial statements, material receivables in governmental funds include revenue accruals such as sales tax, franchise tax, and grants and other similar intergovernmental revenues since they are usually both measurable and available. Non-exchange transactions collectible but not available are reported as a deferred inflow of resources in the fund financial statements in accordance with the modified accrual basis of accounting, but not reported as a deferred inflow of resources in the government-wide financial statements in accordance with the accrual basis. Interest on investment earnings are recorded when earned only if paid within 60 days since they would be considered both measurable and available. Proprietary fund material receivables consist of all revenues earned at year-end and not yet received. Utility accounts receivable and interest earnings comprise the majority of proprietary fund receivables. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable.

**Inventories:**

Inventories are valued at cost. Governmental fund inventory is related to parts of vehicle and equipment maintenance. Proprietary fund inventory is related to material on hand for repairs and

improvements to the utility system. The cost of inventories are recorded as expenditures when consumed rather than when purchased.

**Capital Assets:**

Capital assets, which include property, plant, equipment, and infrastructure assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Depreciable capital assets are depreciated on a straight-line basis over their useful lives. The range of estimated lives by type of assets is as follows:

- Buildings/improvements                      25-60 years
- Utility systems                                25-99 years
- Infrastructure                                    25-99 years
- Machinery and equipment                    5-20 years
- Vehicles                                         5-25 years

Depreciation of capital assets is included in total expenses and is charged or allocated to the activities primarily benefiting from the use of the specific asset.

**Long-term obligations:**

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statements of Net Position. Bond premiums and discounts are amortized over the life of the bonds using the straight line method. Bonds payable are reported net of bond premium or discount. Deferred amount on refundings are amortized over the shorter of the life of the new debt or the remaining life of the refunded debt using the straight line method. Deferred amounts are shown as deferred inflows or outflows.

Long-term obligations of governmental funds are not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures.

The City's long term debt consists of general obligation bonds, revenue bonds and notes, accrued compensated absences, contracts payable, and refundable deposits.

**Compensated Absences:**

Under the terms of union contracts and City personnel policies, City employees are granted vacation and sick leave in varying amounts. Regular full-time civilian employees earn vacation leave per pay period in varying amounts from 80.08 hours per year to 204.10 hours per year based upon years of service. Upon separation from the city, a civilian employee is paid for accrued vacation up to a maximum of 192 hours plus current year accrual earned to date of separation. Civilian employees earn sick leave per pay period of 3.7 hours, for a total of 96.20 hours per year with the exception of Fire Rookies working 24 hour shifts who earn 5.54 hours per pay period for an annual total of 144.04 hours per year. Civilian employees who separate from employment with the city will be compensated for all accrued but unused sick leave as follows: Upon separation from the city after 10 years but less than 20 years of service, a civilian employee is paid for accrued sick leave up to a maximum of 960 hours plus current year accrual earned to date of separation at 1/3 his/her hourly rate of pay; over 20 years of service is paid at 1/2 his/her hourly rate of pay. Civilian employees who separate from employment prior to 10 years of service shall receive no compensation for accrued sick leave benefits.

Police union employees earn vacation leave per pay period in varying amounts from 80.08 hours per year to 204.10 hours per year based upon years of service. Upon separation from the city, a police union employee is paid for accrued vacation up to a maximum of 216 hours plus current year accrual earned to date of separation. Police union employees earn sick leave per pay period of 4.6 hours for an annual total of 119.60 hours. Police union employees who separate from employment with the city will be compensated for all accrued but unused sick leave as follows: Upon separation from the city after 10 years or more of service, a police union employee is paid for accrued sick leave up to a maximum of 1100 hours plus current year accrual earned to date of separation at 1/2 his/her hourly rate of pay. Police union employees who separate from employment prior to 10 years of service shall receive no compensation for accrued sick leave benefits. 100% of the sick leave balance shall be paid to the police union employee's named beneficiary in the event an employee is killed in the line of duty.

Fire union employees earn vacation leave per pay period in varying amounts from 80.08 hours per year to 301.34 hours per year based upon shift worked and years of service. Upon separation from the city, a fire union employee is paid for accrued vacation up to a maximum of 300 hours plus current year accrual earned to date of separation for 24 hour workers; up to a maximum of 216 hours plus current year accrual earned to date of separation for 8 hour workers. Fire union employees earn sick leave per pay period of 5.54 for a total of 144.04 hours per year for 24 hour workers and 96.20 hours per year for 8 hour workers. Fire union employees who separate from employment with the city will be compensated for all accrued but unused sick leave as follows: Upon separation from the city after 10 years or more of service or with an on-the-job injury, a fire union employee is paid for accrued sick leave up to a maximum of 1314 hours for 24 hour workers; up to a maximum of 939 hours for 8 hour workers at 1/3 his/her hourly rate of pay. Hours accumulated over the maximum are paid at the rate of 1/2 his/her hourly rate of pay each bi-weekly pay period. Employees, regardless of years of service, will be paid out at 1/2 for separation due to on the job injury. Fire union employees who separate from employment prior to 10 years of service and without an on-the-job injury shall receive no compensation for accrued sick leave benefits.

**Deferred Outflow/Inflows of Resources:**

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expenses/expenditure) until then. The government only has two items that qualify for reporting in this category. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The city also reports deferred outflows related to pension contributions subsequent to the measurement date and the difference between expected and actual plan experience.

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenues) until that time. The governmental funds report unavailable revenues from court fines and property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. In the City's government-wide statements the property tax revenues remain as a deferred inflow under the full accrual basis of accounting and will become an inflow in the year for which they are levied. The government-wide Statement of Net Position reports deferred inflows related to pension accounting for the net difference between projected and actual earning on pension plan investments not reported under the modified accrual basis.

**Fund Equity:**

*Government-Wide and Proprietary Fund Financial Statements:*

Net position is displayed in three components:

- a. *Net investment in capital assets* - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets, plus the remaining construction proceeds of debt issued for capital improvements.
- b. *Restricted net position* - Consists of net position with constraints placed on the use either by 1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- c. *Unrestricted net position* - All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

It is the City's policy to first use unrestricted net position prior to the use of restricted net position when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

*Governmental Fund Financial Statements:*

Governmental fund equity is classified as fund balance. Fund balance is further classified as nonspendable, restricted, committed, assigned and unassigned. These classifications are defined as:

- a. Nonspendable – includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.
- b. Restricted – consists of fund balance with constraints placed on the use of resources either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or (2) laws through constitutional provisions or enabling legislation.
- c. Committed – includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the city’s highest level of decision-making authority. The City’s highest level of decision-making authority is made by ordinance. While the Municipal Authority, Hospital Authority and Urban Renewal Authority highest level of decision-making authority is made by resolution.
- d. Assigned – includes amounts that are constrained by the city’s intent to be used for specific purposes but are neither restricted nor committed. Assignments of fund balance may be made by city council action or management decision when the city council has delegated that authority. Assignments for revenues in other governmental funds are made through budgetary process.
- e. Unassigned – represents fund balance that has not been assigned to other funds and has not been restricted, committed, or assigned to specific purposes within the General Fund.

It is the City’s policy to first use unrestricted fund balance prior to the use of the restricted fund balance when an expenditure is incurred for purposes for which both restricted and unrestricted resources are available. The City’s policy for the use of fund balance amounts require that unassigned amounts would be reduced first followed by assigned amounts and then committed amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

**1.D. Revenues, Expenditures and Expenses**

**Program Revenues:**

Program revenues within the Statement of Activities that are derived directly from each activity or from parties outside of the City’s taxpayers are reported as program revenues. The City has the following program revenues in each activity:

- Public Safety – Fire, Police, 911 –fines and forfeitures, restricted operating grants, 911 revenue, and restricted capital grants, property seizure, donations, state on-behalf pension contributions
- Streets – commercial vehicle and gasoline excise tax shared by the State.

As of and for the Year Ended June 30, 2015**

---

- Culture and recreation – pool fees, rental of community center and senior center, programming fees, park fees, softball fees, operating and capital grants
- Health and Welfare – FEMA grants
- Economic Development – rental income and operating grants
- General Government – license and permits, technology and false alarm fees, impact fees, and operating grants

All other governmental revenues are reported as general revenues. All taxes are classified as general revenue even if restricted for a specific purpose.

**Sales Tax Revenue:**

Sales tax revenue represents a 3.85 cents tax on each dollar of taxable sales which is collected by the Oklahoma Tax Commission and remitted to the City. Upon final allocation the sales tax is broken down as follows:

General Government	1.04	27.01%
Police	1.10	28.57%
Fire	.92	23.90%
911	.04	1.04%
Capital Improvements	.25	6.49%
Parks and Recreation	.05	1.30%
Sewer Plant	.40	10.39%
Streets/Parks/Sidewalks/Trails/and Public Transportation	.05	1.30%
Totals	3.85	100%

**Property Tax Revenue:**

In accordance with state law, a municipality may only levy a property tax to retire general obligation debt approved by the voters and to pay judgments rendered against the City. Property taxes levied by the City are billed and collected by the County Treasurer's Office and remitted to the City in the month following collection. Property tax is levied each October 1st on the assessed valuation of non-exempt real property located in the City as of the preceding January 1st, the lien date. Property taxes are due on November 1st following the levy date, although they may be paid in two equal installments (if the first installment is paid prior to January 1st, the second installment is not delinquent until April 1st). Property taxes are collected by the County Treasurer and are remitted to the City. Property tax receivables are recorded on the lien date, although the related revenue is reported as a deferred inflow of resources and will not be recognized as revenue until the year for which it is levied. Property taxes unpaid for the fiscal year are attached by an enforceable lien on property in the following October. For the year ended June 30, 2015, the City's net assessed valuation of taxable property was \$296,030,326. The taxes levied by the City per \$1,000 of net assessed valuation for the year ended June 30, 2015 was \$5.18.

Property tax accrued on the lien date of January 1, 2015 and recorded as a deferred inflow of resources was \$1,532,043.

**Expenditures and Expenses:**

In the government-wide financial statements, expenses, including depreciation of capital assets, are reported by function or activity. In the governmental fund financial statements, expenditures are reported by class as current (further reported by function), capital outlay and debt service. In the proprietary fund financial statements, expenses are reported by object or activity.

**1.E. Internal and Interfund Balances and Activities**

In the process of aggregating the financial information for the government-wide statement of net position and statement of activities, some amounts reported as interfund activity and balances in the fund financial statements have been eliminated or reclassified.

*Government-Wide Financial Statements:*

Interfund activity, if any, are eliminated or reclassified in the government-wide financial statements as follows:

1. *Internal balances* – amounts reported in the fund financial statements as interfund receivable and payables are eliminated in the governmental and business-type activities columns of the statement of net position, except for the net residual amounts due between governmental and business-type activities, which are reported as Internal Balances.
2. *Internal activities* - amounts reported in the fund financial statements as interfund transfers are eliminated in the government-wide statement of activities except for the net amount of transfers between governmental and business-type activities, which are reported as Transfers - Internal Activities. The effect of interfund services between funds is not eliminated in the statement of activities.
3. *Primary government and component unit activity and balances* - resource flows between the primary government and the discretely presented component units are reported as if they were external transactions and are classified separately from internal balances and activities within the primary government.

*Fund Financial Statements:*

Interfund activity, if any, within and among the governmental and proprietary fund categories is reported as follows in the fund financial statements:

1. Interfund loans - amounts provided with a requirement for repayment are reported as interfund receivables and payables.
2. Interfund services - sales or purchases of goods and services between funds are reported as revenues and expenditures/expenses.
3. Interfund reimbursements - repayments from funds responsible for certain expenditures/expenses to the funds that initially paid for them are not reported as reimbursements but as adjustments to expenditures/expenses in the respective funds.
4. Interfund transfers - flow of assets from one fund to another where repayment is not expected are reported as transfers in and out.

**1.F. USE OF ESTIMATES**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures; accordingly, actual results could differ from those estimates.

**1.G. NEW ACCOUNTING PRONOUNCEMENTS**

The city implemented GASB Statement No. 68, *Accounting and Financial Reporting for Pensions, an Amendment of GASB Statement No. 27* and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*, which required the recognition of assets, deferred outflow, liabilities, and deferred inflows related the city's participation in the fire and police cost-sharing defined benefit pension plans.

**2. Cash and Cash Equivalents, Deposits and Investments**

**Deposits and Investments Risks**

The City of Midwest City primary government and blended component units are governed by the deposit and investment limitations of state law and trust indentures. The deposits and investments held at June 30, 2015 by these entities are as follows:

Schedule of Deposits and Investments by Type - June 30, 2015

*Custodial Credit Risk* – Exposure to custodial credit risk related to deposits exists when the City holds deposits that are uninsured and uncollateralized; collateralized with securities held by the pledging financial institution, or by its trust department or agent but not in the City's name; or collateralized without a written or approved collateral agreement. Exposure to custodial credit risk related to investments exists when the City holds investments that are uninsured and unregistered, with securities held by the counterparty or by its trust department or agent but not in the City's name.

The City's policy as it relates to custodial credit risk is to secure its uninsured deposits with collateral, valued at no more than market value, at a minimum level of 110% of the uninsured deposits and accrued

interest thereon. The City's policy limits acceptable collateral to U.S. Treasury securities, federally insured obligations, or direct debt obligations of municipalities, counties, and school districts in Oklahoma. Also, as required by Federal 12 U.S.C.A., Section 1823(e), all financial institutions pledging collateral to the City must have a written collateral agreement

At June 30, 2015, the City had no exposure to custodial credit risk as defined above.

*Investment Credit Risk* – The City's investment policy limits investments, excluding Hospital Authority, to the following:

- a. Obligations of the U. S. Government, its agencies and instrumentalities;
- b. Collateralized or insured non-negotiable certificates of deposit or other evidences of deposit that are either insured or secured with acceptable collateral with an in-state financial institution, and fully insured deposits in out-of-state institutions;
- c. Insured or fully collateralized negotiable certificates of deposit;
- d. Repurchase agreements that have underlying collateral consisting of those items specified in paragraph a above; and
- e. Money market funds regulated by the SEC and in which investments consist of the investments mentioned in the previous paragraph a.

Investment credit risk is the risk that an issuer or other counterpart to an investment will not fulfill its obligations. The City has no formal policy limiting investments based on credit rating, but discloses any such credit risk associated with their investments by reporting the credit quality ratings of investments in debt securities as determined by nationally recognized statistical rating organizations—rating agencies—as of the year end. Unless there is information to the contrary, obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk and do not require disclosure of credit quality.

*Investment Interest Rate Risk* – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The City's investment policy indicates that the investment portfolio, shall remain sufficiently liquid to enable the City to meet all operating requirements as anticipated. The City discloses its exposure to interest rate risk by disclosing the maturity dates of its various investments by date range.

As noted in the preceding schedule of deposits and investments, at June 30, 2015, the investments held by the City mature between 2015 through 2030.

*Concentration of Investment Credit Risk* - Exposure to concentration of credit risk is considered to exist when investments in any one issuer represent a significant percent of total investments of the City (any over 5% are disclosed). Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this consideration.

**Hospital Authority Investments:**

The Authority policy provides that assets be invested to preserve its principal, produce a proscribed level of income, and provide for growth of principal with no outside additions to the fund being anticipated. Assets are to be invested in a diversified portfolio to achieve attractive real rates of return. The investment policy of the Hospital Authority allows for the investment of funds in domestic and international common stocks, government and corporate bonds, short-term fixed income securities maturing in one year or less (cash equivalents); by utilizing primarily index funds, mutual funds, or collective trust funds. In addition, the Authority may invest portions of the fund corpus, or income, in real estate. Such real estate investments would typically include developed or undeveloped real property located in Midwest City, Oklahoma or its environs, or commingled funds which invest in various kinds of property located throughout the United States. The overall rate of return objective of the portfolio is a highest possible rate of return consistent with the risk levels established by the Board.

The acceptable long-term rate of return is expected to provide equal or superior results, using a three to five year moving average, relative to the following benchmarks:

1. An absolute return objective of the Consumer Price Index plus 4% compounded annually.
2. An income return sufficient to meet any disbursement requirement as stipulated by the Board.
3. A return exceeding the 90 Day U.S. Treasury Bill rate (risk-free rate).
4. Domestic equity fund returns which exceed the S&P 500 Stock index return by 1% (100 basis points), per year and fixed income return which exceed the Barclays Capital Aggregate Bond Index by ½% per year (50 basis points).
5. Stock and bond returns which fall into the top 25% of the Consultant's Universe (or other representative universe approved by The Board) of common stock and bond funds (referred to as equity and fixed income), with some consistency.
6. Passive domestic returns which replicate the return of the Standard and Poor's 500 Stock Index, passive fixed returns which replicate the return of the Barclays Capital Aggregate Bond Index, and passive international returns which replicate the return of the MSCI EAFE International Index.
7. Active international equity returns which exceeds the MSCI EAFE Index by 1% per year.

Asset allocation guidelines for the Hospital Authority are as follows:

Class	Target	Maximum	June 2015 Percent
Equities - Domestic	2.0%-60%	85%	67.6%
Equities - International	2.5%-10%	30%	8.3%

**Restricted Cash and Investments**

The amounts reported as restricted assets of the Enterprise Funds on the Statement of Net Position are comprised of amounts held by the Midwest City Proprietary Debt Service accounts of the trustee bank for revenue bond retirement, and the Customer Deposit Account for refundable deposits held by others. The restricted assets as of June 30, 2015 are as follows:

Cash and Cash Equivalents:	
Pooled Cash Restricted for Debt Service	\$ 2,642,744
Pooled Cash Restricted for Refundable Deposits	<u>257,587</u>
	<u>\$ 2,900,331</u>
Investments:	
Pooled Investments Restricted for Refundable Deposits	\$ 1,090,767
	<u>\$ 1,090,767</u>

**3. Receivables**

The Midwest City Memorial Hospital Authority (the Authority) entered into an agreement with the Midwest Regional Medical Center (now known as Alliance Health Midwest) to provide funds up to \$25,000,000 to construction two additional floors onto the existing six floor patient tower. The loan is amortized over a 25 year with interest rate of 7.5%, will be repaid 9 years from December 2010, with a balloon payment in November 2019. The loan is secured with a lease receivable for future rental of the facility. At the end of the fiscal year, the City reflects a \$20.7 million receivable in the governmental activities.

Per resolution, the City Council has established a minimum fund balance policy for the General Fund equal to ten percent (10%) of the fund's budgetary operating expenditures each fiscal year. In addition, a reserve equal to five percent (5%) of the budgetary operating expenditures for each fund has been established for the following funds: Police Fund, Fire Fund, Welcome Center Fund, Convention and Visitors Bureau Fund and the Juvenile Fund. The reserves are to ensure the fiscal solvency of the City as a safeguard and all or a portion of the reserves may be appropriated by the city council as necessary in the event of a natural disaster or other catastrophic circumstances, or in the event of significant accounting errors.

The City restated beginning net position as follows:

**8. Risk Management**

The City is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; injuries to employees; employee health and life; and natural disasters. The City manages these various risks of loss as follows:

- General Liability – Covered through self-insurance with stop-loss for individual claims in excess of \$250,000 and aggregate stop loss of \$1,000,000.
- Physical Property – Covered through purchased insurance with deductibles, by coverage as follows:

Wind/hail	\$100,000
All other losses	25,000
EDP	1,000
Inland marine	5,000
Fine arts deductible	1,000
Automobile physical damage	5,000

- Workers' Compensation – Workers' compensation is covered through self-insurance with the a third party administering the claims process. The City carry's stop-loss insurance for individual claims in excess of \$450,000 for non-uniform employees and \$150,000 for uniform employees with an aggregate stop loss of \$1,000,000.
- Employee's Group Medical –Covered through self-insurance using a third party administrator to process medical claims. The City uses the third party processor's estimates to record group insurance claims payable. The City also has a stop-loss policy which covers individual claims in excess of \$150,000 during any year with aggregate stop loss of \$6,243,193.

Management believes the insurance coverage listed above is sufficient to preclude any significant uninsured losses to the City. Settled claims have not exceeded this insurance coverage in any of the past three fiscal years.

Claims Liability Analysis

The claims liabilities related to the above noted risks of loss that are retained are determined in accordance with the requirements of Statement of Financial Accounting Standards No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. For the internal service self-insurance funds, changes in the claims liability for the City from June 30, 2012, to June 30, 2015, are as follows:

### 9. Retirement Plan Participation

The City of Midwest City participates in three pension or retirement plans:

1. Oklahoma Police Pension and Retirement System (OPPRS) - a statewide cost-sharing plan
2. Oklahoma Firefighter's Pension and Retirement System (OFPRS) – a statewide cost-sharing plan
3. Oklahoma Municipal Retirement Fund (OMRF-DCP) – an agent multiple-employer defined contribution plan

#### Oklahoma Police Pension and Retirement Systems

**Pensions** - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Oklahoma Police Pension & Retirement System (OPPRS) and additions to/deductions from OPPRS's fiduciary net position have been determined on the same basis as they are reported by OPPRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**Plan description** - The City of Midwest City, as the employer, participates in the Oklahoma Police Pension and Retirement Plan—a cost-sharing multiple-employer defined benefit pension plan administered by the Oklahoma Police Pension and Retirement System (OPPRS). Title 11 of the Oklahoma State Statutes, through the Oklahoma Legislature, grants the authority to establish and amend the benefit terms to the OPPRS. OPPRS issues a publicly available financial report that can be obtained at [www.ok.gov/OPPRS](http://www.ok.gov/OPPRS).

**Benefits provided** - OPPRS provides retirement, disability, and death benefits to members of the plan. The normal retirement date under the Plan is the date upon which the participant completes 20 years of credited service, regardless of age. Participants become vested upon completing 10 years of credited service as a contributing participant of the Plan. No vesting occurs prior to completing 10 years of credited service. Participants' contributions are refundable, without interest, upon termination prior to

normal retirement. Participants who have completed 10 years of credited service may elect a vested benefit in lieu of having their accumulated contributions refunded. If the vested benefit is elected, the participant is entitled to a monthly retirement benefit commencing on the date the participant reaches 50 years of age or the date the participant would have had 20 years of credited service had employment continued uninterrupted, whichever is later.

Monthly retirement benefits are calculated at 2.5% of the final average salary (defined as the average paid base salary of the officer over the highest 30 consecutive months of the last 60 months of credited service) multiplied by the years of credited service, with a maximum of 30 years of credited service considered.

Monthly benefits for participants due to permanent disability incurred in the line of duty are 2.5% of the participants' final average salary multiplied by 20 years. This disability benefit is reduced by stated percentages for partial disability based on the percentage of impairment. After 10 years of credited service, participants who retire due to disability incurred from any cause are eligible for a monthly benefit based on 2.5% of their final average salary multiplied by the years of service. This disability benefit is also reduced by stated percentages for partial disability based on the percentage of impairment. Effective July 1, 1998, once a disability benefit is granted to a participant, that participant is no longer allowed to apply for an increase in the dollar amount of the benefit at a subsequent date.

Survivor's benefits are payable in full to the participant's beneficiary upon the death of a retired participant. The beneficiary of any active participant killed in the line of duty is entitled to a pension benefit.

**Contributions** - The contributions requirements of the Plan are at an established rate determine by Oklahoma Statute and are not based on actuarial calculations. Employees are required to contribute 8% of their annual pay. Participating cities are required to contribute 13% of the employees' annual pay. Contributions to the pension plan from the City were \$1,039,524. The State of Oklahoma also made on-behalf contributions to OPPRS in the amount of \$788,612 this is reported as both revenue and expenditure in the Police Fund Statement of Revenues, Expenditures, and Changes in Fund Balance. In the government-wide Statement of Activities, revenue is recognized for the state's on-behalf contributions on as accrual basis of \$718,350. These on-behalf payments did not meet the criteria of a special funding situation.

The City's contract with the union provides that member contributions will be 3% and employer contributions will be 18%.

**Pension Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions** - At June 30, 2015, the City reported an asset of \$772,001 for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2014, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of June 30, 2014. The City's proportion of the net pension asset was based on the City's contributions received by the pension plan relative to the total contributions received by pension plan for all participating employers as of June 30, 2014. Based upon this information, the City's proportion was 2.2929%.

**CITY OF MIDWEST CITY, OKLAHOMA  
ANNUAL FINANCIAL REPORT  
As of and for the Year Ended June 30, 2015**

For the year ended June 30, 2015, the City recognized pension expense of \$282,969. At June 30, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 346,837
Net difference between projected and actual earnings on pension plan investments	-	2,713,459
City contributions subsequent to the measurement date	1,039,524	-
<b>Total</b>	<b><u>\$ 1,039,524</u></b>	<b><u>\$ 3,060,296</u></b>

The \$1,039,524 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:			
	2016	\$	(750,174)
	2017		(750,174)
	2018		(750,174)
	2019		(750,173)
	2020		(59,601)
	Thereafter		-

**Actuarial Assumptions**-The total pension liability was determined by an actuarial valuation as of June 30, 2014, using the following actuarial assumptions, applied to all prior periods included in the measurement:

Inflation:	3%	
Salary increases:	4.5% to 17% average, including inflation	
Investment rate of return:	7.5% net of pension plan investment expense	
Mortality rates:	Active employees (pre-retirement) RP-2000 Blue Collar Healthy Combined table with age set back 4 years with fully generational improvement using Scale AA.	

**CITY OF MIDWEST CITY, OKLAHOMA  
ANNUAL FINANCIAL REPORT  
As of and for the Year Ended June 30, 2015**

---

Active employees (post-retirement) and nondisabled pensioners: RP-2000 Blue Collar Healthy Combined table with fully generational improvement using scale AA.

Disabled pensioners: RP-2000 Blue Collar Healthy Combined table with age set forward 4 years with fully generational improvement using Scale AA.

The actuarial assumptions used in the July 1, 2014, valuation were based on the results of an actuarial experience study for the period July 1, 2007, to June 30, 2012.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2014, are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed income	2.83%
Domestic equity	6.47%
International equity	6.98%
Real estate	5.50%
Private equity/debt	5.96%
Commodities	3.08%

The current allocation policy is that approximately 60% of assets in equity instruments, including public equity, long-short hedge, venture capital, and private equity strategies; approximately 25% of assets in fixed income to include investment grade bonds, high yield and non-dollar denominated bonds, convertible bonds, and low volatility hedge fund strategies; and 15% of assets in real assets to include real estate, commodities, and other strategies.

**Discount Rate**-The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, determined by State statutes. Projected cash flows also assume the State of Oklahoma will continue contributing 14% of the insurance premium, as established by statute. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate**-The following presents the net pension liability (asset) of the employers calculated using the discount rate of 7.5%, as well as what the Plan's net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage point lower (6.5%) or 1-percentage-point higher (8.5%) than the current rate:

***Pension plan fiduciary net position*** - Detailed information about the pension plan's fiduciary net position is available in the separately issued financial report of the OPPRS; which can be located at [www.ok.gov/OPPRS](http://www.ok.gov/OPPRS).

**Oklahoma Fire Pension and Retirement Systems**

***Pensions*** - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Oklahoma Firefighters Pension & Retirement System (FPRS) and additions to/deductions from FPRS's fiduciary net position have been determined on the same basis as they are reported by FPRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

***Plan description*** - The City of Midwest City, as the employer, participates in the Firefighters Pension & retirement—a cost-sharing multiple-employer defined benefit pension plan administered by the Oklahoma Firefighters Pension & Retirement System (FPRS). Title 11 of the Oklahoma State Statutes grants the authority to establish and amend the benefit terms to the FPRS. FPRS issues a publicly available financial report that can be obtained at [www.ok.gov/fprs](http://www.ok.gov/fprs).

***Benefits provided*** - FPRS provides retirement, disability, and death benefits to members of the plan. Benefits for members hired prior to November 1, 2013 are determined as 2.5 percent of the employee's final average compensation times the employee's years of service and have reached the age of 50 or have complete 20 years of service, whichever is later. For volunteer firefighters, the monthly pension benefit for normal retirement is \$150.60 per month. Benefits vest with 10 years or more of service

Benefits for members hired after November 1, 2013 are determined as 2.5 percent of the employee's final average compensation times the employee's years of service and have reached the age of 50 or have complete 22 years of service, whichever is later. For volunteer firefighters, the monthly pension benefit for normal retirement is \$165.66 per month. Benefits vest with 11 years or more of service

All firefighters are eligible for immediate disability benefits. For paid firefighters, the disability in-the-line-of-duty benefit for firefighters with less than 20 years of service is equal to 50% of final average monthly compensation, based on the most recent 30 months of service. For firefighters with over 20 years of service, a disability in-the-line-of-duty is calculated based on 2.5% of final average monthly compensation, based on the most recent 30 months, per year of service, with a maximum of 30 years of service. For disabilities not-in-the-line-of-duty, the benefit is limited to only those with less than 20 years of service and is 50% of final average monthly compensation, based on the most recent 60-month salary as opposed to 30 months. For volunteer firefighters, the not-in-line-of-duty disability is also limited to only those with less than 20 years of service and is \$7.53 per year of service. For volunteer firefighters, the in-line-of-duty pension is \$150.60 with less than 20 years of service, or \$7.53 per year of service, with a maximum of 30 years.

A \$5,000 lump sum death benefit is payable to the qualified spouse or designated recipient upon the participant's death. The \$5,000 death benefit does not apply to members electing the vested benefit.

**Contributions** - The contributions requirements of the Plan are at an established rate determine by Oklahoma Statute and are not based on actuarial calculations. Employees are required to contribute 9% percent of their annual pay. Participating cities are required to contribute 14% of the employees' annual pay. Contributions to the pension plan from the City were \$1,111,300. The State of Oklahoma also made on-behalf contributions to FPRS in the amount of \$2,460,255 this is reported as both a revenue and an expenditure in the General Fund Statement of Revenues, Expenditures, and Changes in Fund Balance. In the government-wide Statement of Activities, revenue is recognized for the state's on-behalf contributions on an accrual basis of \$1,902,769. These on-behalf payments did not meet the criteria of a special funding situation.

The City's contract with the union provides that member contributions will be 5% and employer contributions will be 18%.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions** - At June 30, 2015, the City reported a liability of \$24,598,661 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2014. The City's proportion of the net pension liability was based on the City's contributions received by the pension plan relative to the total contributions received by pension plan for all participating employers as of June 30, 2014. Based upon this information, the City's proportion was 2.39206%.

For the year ended June 30, 2015, the City recognized pension expense of \$2,209,285. At June 30, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 586,098	\$ -
Net difference between projected and actual earnings on pension plan investments	-	3,723,563
City contributions subsequent to the measurement date	1,111,300	-
Total	<u>\$ 1,697,398</u>	<u>\$ 3,723,563</u>

The \$1,111,300 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension

liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	2018	(821,748)
	2019	(821,748)
	2020	109,143
	Thereafter	40,383

**Actuarial Assumptions**-The total pension liability was determined by an actuarial valuation as of June 30, 2014, using the following actuarial assumptions, applied to all prior periods included in the measurement:

Inflation:	3%
Salary increases:	3.5% to 9.0% average, including inflation
Investment rate of return:	7.5% net of pension plan investment expense

Mortality rates were based on the RP2000 combined healthy with blue collar adjustment as appropriate, with adjustments for generational mortality improvement using scale AA for healthy lives and no mortality improvement for disabled lives.

The actuarial assumptions used in the July 1, 2014, valuation were based on the results of an actuarial experience study for the period July 1, 2007, to June 30, 2012.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2014, are summarized in the following table:

Fixed income	20%	2.48%
Domestic equity	37%	6.61%
International equity	20%	6.24%
Real estate	10%	4.76%
Other assets	13%	3.88%

**Discount Rate**-The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, determined by State statutes. Projected cash flows also assume the State of Oklahoma will continue contributing 36% of the insurance premium, as established by statute. Based

on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

***Sensitivity of the Net Pension Liability to Changes in the Discount Rate***-The following presents the net pension liability of the employers calculated using the discount rate of 7.5%, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.5%) or 1-percentage-point higher (8.5%) than the current rate:

**OMRF Defined Contribution Plan:**

The City has also provided a defined contribution plan and trust known as the City of Midwest City Plan and Trust (the "Plan") in the form of the Oklahoma Municipal Retirement System Master Defined Contribution Plan. OMRF operations are supervised by a nine-member Council of Trustees elected by the participating municipalities. The Plan is administered by JPMorgan Chase of Oklahoma City. The defined contribution plan is available to all full-time employees on a voluntary basis who are not participating in a state sponsored plan. According to City Ordinance, the employee and employer are required to contribute amounts equal to 0.0% and 14%, respectively, of the employee's salary each month. The employer's contributions for each employee are 50% vested after five years, with 10% vesting for each subsequent year thereafter. If an employee terminates before becoming fully vested, the employer's contributions that are forfeited are allocated to the remaining fund participants based on percentage of contribution. The authority to establish and amend the provisions of the plan rests with the City Council. For the year ended June 30, 2015, the City contributed \$2,066,663 to the plan, while the employee contributions totaled \$3,448.

OMRF issues separate plan financial statements which may be obtained by contacting the Oklahoma Municipal Retirement Fund, 525 Central Park Drive, Suite 320, Oklahoma City, Oklahoma, 73105, or by calling (405) 606-7880.

ANNUAL FINANCIAL REPORT  
As of and for the Year Ended June 30, 2015**

**10. Postemployment Healthcare Plan**

*Plan Description.* The City sponsors Medical, Rx, and Dental insurance to qualifying retirees and their dependents. Coverage is provided through self-insurance that collectively operates as a substantive single-employer defined benefit plan. Qualifying retirees are those employees who are eligible for immediate disability or retirement benefits under the Oklahoma Police Pension and Retirement System, Oklahoma Firefighter’s Pension and Retirement System, or the City of Midwest City Retirement Plan. Retirees may continue coverage with the City by paying the determined rate. Coverage is available for each of the lifetimes of retirees and their spouses. Authority to establish and amend benefit provisions rest with the City Council. Retirees may continue coverage with the City by paying the premium rate. Benefits are paid from general operating assets of the City as assessed by the self-insurance fund. The plan does not issue separate financial statements.

*Funding Policy.* The contribution requirements of plan members and the City are established by the City Council. Annual health insurance premium amounts are established by the City Council. The required contribution is based on projected pay-as-you-go financing requirements. For fiscal year 2015, the actuarially expected City contribution in the form of net age adjustment was \$1,216,285 to the Plan. Plan members receiving benefits contributed \$991,927 of the total premiums, through their payment of the full determined premium in FY 2015.

*Annual OPEB Cost and Net OPEB Obligation.* The City’s annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period of thirty years. The following table shows the components of the City's annual OPEB cost, the amount actually contributed to the plan, and changes in the City's net OPEB obligation for the year ended June 30, 2015:

Amortization of Actuarial Accrued Liability (AAL)	\$	1,293,611
Normal Cost		320,684
Interest on Net OPEB Obligation		384,164
Amortization of Net OPEB Obligation		(499,491)
Annual OPEB cost (expense)		1,498,968
Expected net benefits during the year		(1,216,285)
Increase in net OPEB obligation		282,683
Net OPEB obligation—beginning of year		8,087,659
Net OPEB obligation—end of year	\$	8,370,342

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation as follows:

**CITY OF MIDWEST CITY, OKLAHOMA  
ANNUAL FINANCIAL REPORT  
As of and for the Year Ended June 30, 2015**

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/13	\$ 2,718,990	51%	\$ 6,751,831
6/30/14	\$ 2,718,990	51%	\$ 8,087,659
6/30/15	\$ 1,498,968	81%	\$ 8,370,342

*Funded Status and Funding Progress.* As of July 1, 2014, the most recent actuarial valuation date, the Plan was not funded. The actuarial accrued liability (AAL) for benefits was \$20,823,987, and the actuarial value of assets was zero, resulting in an unfunded actuarial accrued liability (UAAL) of \$20,823,987. The covered payroll (annual payroll of active employees covered by the plan) was \$30.3 million, and the ratio of the UAAL to the covered payroll was 68.77 percent. Because the plan is a substantive plan there are no plan assets.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

*Actuarial Methods and Assumptions.* Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2014, actuarial valuation, the Projected Unit Credit actuarial cost method was used. The actuarial assumptions included a 4.75 percent (1.75% real rate of return plus 3.00% inflation) investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the Plan at the valuation date, and an annual healthcare cost trend rate of 7 percent initially, reduced by decrements to an ultimate rate of 5 percent in 2019. The UAAL is being amortized over 30 years based on a level dollar basis on an open basis. The remaining amortization period at July 1, 2014, was thirty years. As of the date of this valuation, there are no plan assets.

The city accounts for the retiree health benefits in an account of the General Fund. The Net OPEB Obligation is shared by the governmental activities and the proprietary funds based upon their percentage of current employees. The governmental activities and the proprietary funds record \$6,346,743 and \$2,023,599, respectively, of the Net OPEB Obligation. In the governmental activities the obligation is shared by the general government function \$2,667,472, the police function \$2,207,563, and the fire function \$1,471,708.

**11. Stewardship, Compliance, and Accountability**

By its nature as a local government unit, the City and its component units are subject to various federal, state and local laws and contractual regulations. Title 11, Section 17-211 of the Oklahoma Statutes prohibits the creation of a deficit fund balance in any individual fund of the City (excluding public trusts). At June 30, 2015, the city reported a deficit fund balance of \$1,181,139 in the Tax Increment Financing Fund. This deficit is due to transfers out at the end of the fiscal year.

**12. Commitments and Contingencies**

**Construction Contracts Outstanding**

The following construction contracts were outstanding at June 30, 2015:

SCADA system	\$ 521,105
Sewer plant construction	871,576
Biosolids composting facility	422,952
	<u>\$ 1,815,633</u>

**Litigation**

The City is a party to various legal proceedings which normally occur in the course of governmental operations. The financial statements do not include accruals or provisions for loss contingencies that may result from these proceedings. State statutes provide for the levy of an ad valorem tax over a three-year period by a City Sinking Fund for the payment of any court assessed judgment rendered against the City. While the outcome of the above noted proceedings cannot be predicted, due to the insurance coverage maintained by the City and the State statute relating to judgments, the City feels that any settlement or judgment not covered by insurance would not have a material adverse effect on the financial condition of the City.

**Grant Programs**

The City of Midwest City participates in various federal or state grant/loan programs from year to year. The grant/loan programs are often subject to additional audits by agents of the granting or loaning agency, the purpose of which is to ensure compliance with the specific conditions of the grant or loan. The City has not been notified of any noncompliance with federal or state award requirements. Any liability for reimbursement which may arise as a result of these audits cannot be reasonably determined at this time, although it is believed the amount, if any, would not be material.

### **Hospital Lease**

Midwest Regional Medical Center, now known as Alliance Health Midwest, is being operated by a private for-profit corporation under a lease agreement with the Midwest City Memorial Hospital Authority and the City of Midwest City. In January 2014, that corporation was acquired by a third party. Under the terms of the lease agreement, the Authority had to be provided a right of first refusal which provided an opportunity to terminate the lease under certain circumstances. As part of the right of first refusal process, the Authority paid a good faith deposit of \$4,193,251 but rescinded its exercise of its right of first refusal allowing the acquiring company to continue operating the hospital. The Authority believes that the deposit should now be refunded and has recorded the payment as a refundable deposit in its financial statements. The lessee is disputing this and the Authority has undertaken legal proceedings against the lessee. This matter is currently in the discovery stage and the outcome cannot presently be determined. The Authority believes that it will ultimately recover the deposit and no provision has been made for any loss should they be unsuccessful in recovering the deposit.

### **13. Future Accounting Pronouncements**

The GASB has issued several new accounting pronouncements, which will be effective in subsequent years. A description of the new accounting pronouncements, the fiscal year in which they are effective, and the City's consideration of the impact of these pronouncements are described below:

Statement No. 72, *Fair Value Measurement and Application* – GASB No. 72 was issued in February 2015, and addresses issues related to fair value measurements. This Statement provides guidance for determining a fair value measurement for financial reporting purposes. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements. Statement is effective for financial statements for period beginning after June 15, 2015. At this time, the impact to the city is unknown.

Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68* – GASB No. 73 was issued in June 2015 and establishes requirements for defined benefit pensions that are not within the scope of Statement No. 68, *Accounting and Financial Reporting for Pensions*, as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement 68. It also amends certain provisions of Statement No. 67, *Financial Reporting for Pension Plans*, and Statement 68 for pension plans and pensions that are within their respective scopes. The requirements of this Statement that address accounting and financial reporting by employers and governmental nonemployer contributing entities for pensions that are not within the scope of Statement 68 are effective for financial statements for fiscal years beginning after June 15, 2016, and the requirements of this Statement that address financial reporting for assets accumulated for purposes of providing those pensions are effective for fiscal years beginning after June 15, 2015. The requirements of this Statement for pension plans that are within the scope of Statement 67 or for pensions that are within the scope of Statement 68 are effective for fiscal years beginning after June 15, 2015. At this time the impact to the city is unknown.

Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans* - GASB No. 74 was issued in June 2015, and replaces Statements No. 43, *Financial Reporting for*

*Postemployment Benefit Plans Other Than Pension Plans*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, as amended, Statement 43, and Statement No. 50, *Pension Disclosures*. This Statement is effective for financial statements for fiscal years beginning after June 15, 2016. At this time the impact to the city is unknown.

Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* – GASB No. 75 was issued in June 2015, and addresses accounting and financial reporting for OPEB that is provided to the employees of state and local governmental employers. This Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. For a defined benefit OPEB, this Statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. Note disclosure and required supplementary information requirements about defined benefit OPEB also are addressed. This Statement is effective for fiscal years beginning after June 15, 2017. The City has not yet determined the impact that implementation of GASB 75 will have on its net position, although it may be material.

GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments* – GASB No. 76 was issued in June 2015, and was issued to identify the context of the current governmental financial reporting environment—the hierarchy of generally accepted accounting principles (GAAP). The “GAAP hierarchy” consists of the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with GAAP and the framework for selecting those principles. This Statement reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP. This Statement supersedes Statement No. 55, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2015. At this time the impact to the city is unknown.

GASB Statement No. 77, *Tax Abatement Disclosures* - GASB 77 was issued in August 2015, and establishes financial reporting standards for tax abatement agreements entered into by state and local governments. The disclosures required by this Statement encompass tax abatements resulting from both (a) agreements that are entered into by the reporting government and (b) agreements that are entered into by other governments and that reduce the reporting government’s tax revenues. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2015. At this time the impact to the city is unknown.

GASB Statement No. 78, *Pensions Provided Through Certain Multiple-Employer Defined Benefit Pension Plans* - GASB 78 was issued in December 2015, and amends the scope and applicability of Statement 68 to exclude pensions provided to employees of state or local governmental employers through a cost-sharing multiple-employer defined benefit pension plan that (1) is not a state or local governmental pension plan, (2) is used to provide defined benefit pensions both to employees of state or

local governmental employers and to employees of employers that are not state or local governmental employers, and (3) has no predominant state or local governmental employer (either individually or collectively with other state or local governmental employers that provide pensions through the pension plan). This Statement establishes requirements for recognition and measurement of pension expense, expenditures, and liabilities; note disclosures; and required supplementary information for pensions that have the characteristics described above. The requirements of this Statement are effective for reporting periods beginning after December 15, 2015. The statement does not affect the city's financial statements.

GASB Statement No. 79, Certain External Investment Pools and Pool Participants – GASB 79 was issued in December 2015, and addresses accounting and financial reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. An external investment pool qualifies for that reporting if it meets all of the applicable criteria established in this Statement. The specific criteria address (1) how the external investment pool transacts with participants; (2) requirements for portfolio maturity, quality, diversification, and liquidity; and (3) calculation and requirements of a shadow price. Significant noncompliance prevents the external investment pool from measuring all of its investments at amortized cost for financial reporting purposes. Professional judgment is required to determine if instances of noncompliance with the criteria established by this Statement during the reporting period, individually or in the aggregate, were significant. The requirements of this Statement are effective for reporting periods beginning after June 15, 2015, except for certain provisions on portfolio quality, custodial credit risk, and shadow pricing. Those provisions are effective for reporting periods beginning after December 15, 2015. At this time, the impact to the city is unknown.

GASB Statement No. 80, Blending Requirements for Certain Component Units – An Amendment of GASB Statement No. 14 – GASB 80 was issued in January 2016, and amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of Statement No. 39, Determining Whether Certain Organizations Are Component Units. The requirements of this Statement are effective for reporting periods beginning after June 15, 2016. At this time, the impact to the city is unknown.

**Footnotes to Budgetary Comparison Schedule:**

1. The budgetary comparison schedules and budgetary fund balance amounts are reported on the modified cash basis of accounting. In addition, obligations that are required to be funded from ending budgetary fund balances are subtracted from total ending budgetary fund balances to arrive at the unreserved budgetary fund balance. This presentation of unreserved fund balances on a budgetary basis is used to demonstrate compliance with Article 10, § 26 of the Oklahoma State Constitution.

**CITY OF MIDWEST CITY, OKLAHOMA  
ANNUAL FINANCIAL REPORT  
As of and for the Year Ended June 30, 2015**

2. The legal level of appropriation control is the department level within a fund. Transfers of appropriation between departments and object categories require the approval of the City Manager. All supplemental appropriations require the approval of the City Council. Supplemental appropriations must be filed with the Office of the State Auditor and Inspector.

3. The Hospital Authority does not present and budget to actual comparison because it is a Title 60 Public Trust. Title 60 Trust are required to prepare a budget and submit to the beneficiary, but there are no requirements related to form, content or monitoring.

4. The budgetary basis differs from the modified accrual (GAAP) basis as shown in the schedules below:

**Report on Internal Control Over Financial Reporting and  
on Compliance and Other Matters Based on an Audit of Financial  
Statements Performed in Accordance with *Government Auditing Standards***

**Independent Auditor's Report**

Honorable Mayor and Members of City Council  
City of Midwest City, Oklahoma

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Midwest City, Oklahoma, (the City) as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated April 13, 2016.

Our report included an emphasis of matter referencing the restatement of beginning net position for the adoption of GASB Statement No. 68 and No. 71 and a change in correction of an error related to the presentation of the OPEB liability.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify and deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control described in the accompanying Schedule of Findings and Questioned Costs as items 2015-001 and 2015-002 that we consider to be significant deficiencies.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**City's Response to Findings**

The City's response to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Report on Compliance for Each Major Federal Program;  
Report on Internal Control Over Compliance; and Report on Schedule  
of Expenditures of Federal Awards Required by OMB Circular A-133**

RSM US LLP

**Independent Auditor's Report**

City Council  
City of Midwest City, Oklahoma

**Report on Compliance for Each Major Federal Program**

We have audited the compliance of the City of Midwest City's (the City) with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2015. The City's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

**Management's Responsibility**

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

**Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

**Opinion on Each Major Federal Program**

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

**Report on Internal Control Over Compliance**

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

We have audited the financial statements of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information of the City as of and for the year ended June 30, 2015, and the related notes to financial statements, which collectively comprise the City's basic financial statements. We issued our report thereon dated April 13, 2016, which contained unmodified opinions on those financial statements. Our report included an emphasis of matter paragraph discussing restatements made during the current year audit. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

**Notes to Schedule of Expenditures of Federal Awards  
Year Ended June 30, 2015**

---

**Note 1. Basis of Presentation**

The purpose of the Schedule of Expenditures of Federal Awards (the Schedule) is to present a summary of the activities of the City of Midwest City (the City) which have been financed by the U.S. Government for the year ended June 30, 2015.

Because the Schedule presents only a selected portion of the activities of the City, it is not intended to and does not present the financial position, changes in fund balances, or the revenues, expenditures, and other changes of the City.

Complete Catalog of Federal Domestic Assistance (CFDA) numbers are presented for those programs for which such numbers were available. CFDA prefixes and other identifying numbers are presented for programs for which a complete CFDA is not available.

The City is also the subrecipient of federal funds that are reported as expenditures and included in the Schedule. The detailed Schedule of Federal Award Expenditures denotes funding sources for pass-through funds. Federal awards other than those indicated as pass-through are denoted as federal direct funds.

**Note 2. Basis of Accounting**

For purposes of the Schedule, expenditures for federal award programs are recognized on a modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB A-87, wherein certain types of expenditures are not allowed or are limited as to reimbursement. Pass-through entity identifying numbers are presented where applicable.

**Note 3. Subrecipients**

Federal awards provided through the City to subrecipients are treated as expenditures when paid to the subrecipient. As of June 30, 2015, the City did not have any subrecipients of any federal awards.

I. Findings Relating to the Financial Statement Audit as Required to be Reported in Accordance with Generally Accepted *Government Auditing Standards*

(A) Internal Control

FINDING 2015-001

Classification: Significant Deficiency

Finding: In prior years, the City recorded the net other post-employment benefit (OPEB) obligation in the Internal Service Fund and did not properly allocate the annual OPEB cost to the contributing funds.

Criteria: The City should record its other post-employment benefits (OPEB) liability in accordance with GASB Statement No. 45 and related implementation guidance. This requires that when a government makes OPEB contributions from an Internal Service Fund and records the net OPEB obligation in the Internal Service Fund, it should allocate the annual OPEB cost and related liabilities among the contributing funds.

Condition: The City recorded the OPEB liability in the internal service fund and did not allocate the costs and related liabilities to the contributing funds. The liability was being carried in the L&H Benefits fund, an internal service fund, with no recognition of the liabilities or contributions in the participating funds.

Cause: The City did not follow applicable guidance in the preparation and presentation of its financial statements.

Effect: The City's beginning net position was restated for the opinion units and amounts below:

Governmental Activities - \$6,004,721  
Internal Service Funds - \$8,087,659  
Midwest City Municipal Authority - \$1,708,660  
Non-Major Proprietary Funds - \$374,278

Additionally, the OPEB liability at June 30, 2015, totaling \$8,370,342 and which was carried in the internal service fund was removed and allocated to the governmental activities on the government wide statement of net position (\$6,346,743), the Midwest City Municipal Authority (\$1,710,861), and the Non-Major Proprietary Funds (\$312,738). The difference between the restatement of the net position for each opinion unit and the OPEB liability was recorded as an expense.

Recommendation: GASB Statement No. 75, *Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions*, will replace GASB Statement No. 45 and will be effective in FY 2008. We recommend that the City develop an action plan to implement Statement No. 75 when it becomes effective.

Management Response and Corrective Action Plan:

On prior years audited financial statements, OPEB (Other Post-Employment Benefits) liability has always been reported in an internal service fund. That presentation was due to a misunderstanding related to the application of GAAP as it currently pertains to the recognition of the net OPEB obligation. The City, after consultation with the GASB (Governmental Accounting Standards Board), elected to alter its presentation to a manner that more effectively describes the substance of the transaction.

Schedule of Findings and Questioned Costs  
Year Ended June 30, 2015

---

FINDING 2015-002

Classification – Significant Deficiency

Finding: In prior years, the City did not properly capitalize interest costs for construction in progress. Additionally, the City did not properly review construction in progress accounts with the project managers and several projects that were already in service were not transferred to complete capital assets and depreciated.

Criteria: The City should capitalize interest costs on allowable projects in accordance with GASB Statement No. 62 *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. Additionally, the City did not capitalize projects completed within constructing in progress in previous periods even though the assets had been placed in service.

Condition: The City was not performing a proper capitalization of interest expense for proprietary funds. Per GASB Statement No. 62 *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, assets that are constructed or otherwise produced for a government's own use should capitalize interest costs for that project during the acquisition period. Thus, the cost of capital assets could be understated by the amount of capitalized interest not recorded.

In addition, the City was not performing an assessment of ongoing construction projects to determine if portions of those projects had been completed and placed in service. As a result, the City could have a misclassification between capital assets being depreciated and capital assets not being depreciated, and depreciation expense could be understated.

Cause: The City did not review its construction in progress accounts during the year for any potential capitalized interest and did not transfer completed projects from construction-in-progress to the respective capital assets categories for several periods.

Effect: The construction in progress in the capital asset grouping in the financial statements were understated by \$444,052 in the Midwest City Municipal Authority. Interest expense was overstated for \$338,274. Depreciation expense was understated in the current year by \$1,110,099. Beginning net position for the Midwest City Municipal Authority was understated by \$1,215,877. A passed adjusting journal entry was recorded for this error.

Recommendation: We recommend that the City review its construction in progress for any completed projects at year end and apply the guidance from GASB Statement No. 62 *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements* to determine the amount of interest that should be capitalized at year end and/or at the project's completion.

**City of Midwest City, Oklahoma**

**Schedule of Findings and Questioned Costs  
Year Ended June 30, 2015**

---

Management Response and Corrective Action Plan:

On prior years audited financial statements, the revenue bond interest has always been expensed instead of capitalization. The inclusion of a debt service fund into the municipal authority opinion unit triggered the discussion of capitalized interest. Although the total effect is not material on the City's net position and no restatement was required, the City elects to adhere to GASB Statement 62 and will review interest capitalization for proprietary funds.

The City does review the CIP (Construction In Progress) list each fiscal year for projects that need to be placed in service. The City was operating under the interpretation that the project would be capitalized at the time of completion and acceptance by council. The City will review its capitalization policy according to GAAP regarding the timing of capitalization.

## Required Communications

Generally accepted auditing standards (AU-C 260, *The Auditor's Communication With Those Charged With Governance*) require the auditor to promote effective two-way communication between the auditor and those charged with governance. Consistent with this requirement, the following summarizes our responsibilities regarding the basic financial statement audit as well as observations arising from our audit that are significant and relevant to your responsibility to oversee the financial reporting process.

Area	Comments
<p><b>Our Responsibilities With Regard to the Financial Statement Audit</b></p>	<p>Our responsibilities under auditing standards generally accepted in the United States of America and <i>Government Auditing Standards</i>, issued by the Comptroller General of the United States, have been described to you in our arrangement letter dated July 1, 2015. Our audit of the financial statements does not relieve management or those charged with governance of their responsibilities which are also described in that letter.</p>
<p><b>Overview of the Planned Scope and Timing of the Financial Statement Audit</b></p>	<p>We have issued a separate communication regarding the planned scope and timing of our audit and have discussed with you our identification of and planned audit response to significant risks of material misstatement.</p>
<p><b>Accounting Policies and Practices</b></p>	<p><b>Preferability of Accounting Policies and Practices</b>            Under generally accepted accounting principles, in certain circumstances, management may select among alternative accounting practices. In our view, in such circumstances, management has selected the preferable accounting practice.</p> <p><b>Adoption of, or Change in, Accounting Policies</b>            Management has the ultimate responsibility for the appropriateness of the accounting policies used by the Organization. Following is a description of significant accounting policies or their application that were either initially selected or changed during the year.</p> <p><i>GASB Statement No. 68, Accounting and Financial reporting for Pensions and GASB No. 71, Pension Transaction for Contributions Made Subsequent to the Measurement Date.</i> The adoption of these statements requires the City recognize their long-term benefit (obligation) related to Defined Benefit Pension Plans and enhances the accountability and transparency through additional reporting disclosures.</p> <p>As described in Note 7, the financial statements were restated to record a net pension liability and a deferred outflow related to contributions made after the measurement date of the governmental activities due to the implementation of GASB Nos. 68 and 71. In addition, the required disclosure changes and RSI schedules were included in the financial statements. The beginning net position was restated to reflect this implementation. The beginning net position of Governmental Type Activities was restated to show a reduction of \$31,831,977.</p>

Area	Comments
<b>Accounting Policies and Practices (Continued)</b>	<p><b>Significant or Unusual Transactions</b> We did not identify any significant or unusual transactions or significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.</p> <p><b>Restatement of Previously Issued Financial Statements</b> During the year ended June 30, 2015, management determined that the net other post-employment benefits obligation should be allocated and recorded in the applicable funds in order to comply with the applicable guidance from GASB. **The City of Midwest City  
 Summary of Significant Accounting Estimates  
 Year Ended June 30, 2015**

Accounting estimates are an integral part of the preparation of financial statements and are based upon management's current judgment. The process used by management encompasses their knowledge and experience about past and current events and certain assumptions about future events. You may wish to monitor throughout the year the process used to determine and record these accounting estimates. The following describes the significant accounting estimates reflected in the City's June 30, 2015, basic financial statements.

<b>Estimate</b>	<b>Accounting Policy</b>	<b>Management's Estimation Process</b>	<b>Basis for Our Conclusions on Reasonableness of Estimate</b>
<p><b>Net Pension Liability (NPL) Assumptions</b></p>	<p>The City relies on the Oklahoma Firefighters Pension and Retirement Plan and the Oklahoma Police Pension and Retirement System defined benefit plan actuaries to determine the City's proportionate share of the net pension liability and its components, based on the percentage of contributions to the plan compared to other participating employers. Any net difference between the total pension liability and fiduciary net position (net pension liability) are recorded as a net pension asset or liability in the financial statements of the City. In addition, deferred inflows and outflows resulting from differences in projected versus actual earnings, differences in actual versus expected experience, and changes in actuarial assumptions are calculated and recognized as pension expense.</p>	<p>Management of the City relies on Oklahoma Firefighters Pension and Retirement Plan and the Oklahoma Police Pension and Retirement System actuaries to determine the City's net pension liability and pension expense. Management records the City's proportionate share and reviews the assumptions for reasonableness.</p>	<p>We tested the payroll information submitted to the Plans, obtained the actuarial report and audited pension allocation schedules. We had an internal actuarial specialist review the significant assumptions and conclusions used by the Plans. We concluded that the process used by management and the estimates are reasonable.</p>

<b>Estimate</b>	<b>Accounting Policy</b>	<b>Management's Estimation Process</b>	<b>Basis for Our Conclusions on Reasonableness of Estimate</b>
<b>Depreciable Life of Capital Assets</b>	The depreciable life of capital assets is set at the estimated useful life of the related asset.	The determination is made at the time the asset is placed into service and involves various judgments and assumptions, including the estimated useful life and prior experience.	We scanned the estimated useful lives assigned to current year additions by management. We believe the estimates and the process used by management are reasonable.
<b>Other Postemployment Benefit Plan Assumptions</b>	Liabilities are reported in the government-wide and proprietary fund financial statements for the difference between annually required contributions and the actual contributions made by the City.	The City relies on the actuarial computed Net Other Postemployment Benefit Obligation based on data provided by the City of Midwest City turnover, retirement age, wages and mortality. These factors and the estimated discount rate of return are based upon historical and general market data. Management reviews the actuarial assumptions and results.	We analyzed the City's methodology, obtained actuarial calculation reports and concluded that the estimates are reasonable.
<b>Allowance for Doubtful Accounts related to Account Receivable (Utility Billings and Court Fines)</b>	Accounts receivable balances must be recorded at their collectable balance. Any receivables that may be uncollectable should have an allowance for doubtful accounts recorded against the receivable balance.	The City calculates the allowance by reviewing historical collections for each type of accounts receivable and booking an allowance related to the accounts receivable based on that collection percentage.	We recalculated management's estimate of the allowance based on an independently formed expectation. Additionally, we performed a look-back at the amounts recorded in the allowance in the prior year and compared those amounts to the actual collection experience for the accounts receivable outstanding in the prior year. Based on the testing performed, the estimates appeared reasonable.

This representation letter is provided in connection with your audit of the basic financial statements of the City of Midwest City, Oklahoma (the "City") as of and for the year ended June 30, 2015 for the purpose of expressing an opinion on whether the financial statements are presented fairly, in all material respects in accordance with accounting principles generally accepted in the United States (U.S. GAAP).

We confirm, to the best of our knowledge and belief, as of April 21, 2016:

## Financial Statements

1. We have fulfilled our responsibilities, as set out in the terms of the audit arrangement letter dated July 1, 2015, for the preparation and fair presentation of the financial statements referred to above in accordance with U.S. GAAP.
2. We acknowledge our responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.
3. We acknowledge our responsibility for the design, implementation, and maintenance of internal control to prevent and detect fraud.
4. Significant assumptions used by us in making accounting estimates, including those measured at fair value, are reasonable and reflect our judgment based on our knowledge and experience about past and current events and our assumptions about conditions we expect to exist and courses of action we expect to take.
5. Related party transactions and interfund transactions, including interfund accounts and advances receivable and payable, sale and purchase transactions, interfund transfers, long-term loans, leasing arrangements and guarantees, have been recorded in accordance with the economic substance of the transaction and appropriately accounted for and disclosed in accordance with the requirements of U.S. GAAP.
6. We are not aware of any events that have occurred subsequent to the date of the financial statements for which U.S. GAAP requires adjustment or disclosure.
7. We are not aware of any actual or possible litigation and claims required to be accounted for and disclosed in accordance with U.S. GAAP.
8. There are no unasserted claims or assessments that our lawyer has advised us are probable of assertion and must be disclosed in accordance with Statement of Financial Accounting Standards No.5 and/or GASB Statement No.10.
9. We have no direct or indirect, legal or moral obligation for any debt of any organization, public or private, or to special assessment bond.

18. We agree with the restatements of the beginning net position of the financial statements discussed in Note 7.
- The restatement of \$31,831,977 in pension liability was the result of implementation of GASB Pension Statement 68 & 71. This restatement related to the state pension defined benefit plan for police and fire.
  - The restatement for the OPEB (Other Post-Employment Benefits) liability was the correction of an error in the 2014 financial statements.
  - We were not aware of the error when those financial statements were issued. The error was the result of a misunderstanding related to the application of GAAP as it currently pertains to the recognition of the net OPEB obligation. The City, after consultation with the GASB (Governmental Accounting Standards Board), elected to alter its presentation to a manner that more effectively describes the substance of the transaction.
  - We are not aware of any other errors in the 2014 financial statements.

### Information Provided

19. We have provided you with:
- Access to all information, of which we are aware that is relevant to the preparation and fair presentation of the financial statements such as records, documentation, and other matters;
  - Additional information that you have requested from us for the purpose of the audit;
  - Unrestricted access to persons within the City from whom you determined it necessary to obtain audit evidence.
  - Minutes of the meetings of the governing boards and committees, or summaries of actions of recent meetings for which minutes have not yet been prepared.
20. All transactions have been recorded in the accounting records and are reflected in the financial statements.
21. We acknowledge our responsibility for the design and implementation of programs and controls to provide reasonable assurance that fraud is prevented and detected.
22. We are not aware of any information regarding allegations of fraud or suspected fraud, affecting the City's financial statements involving:
- Management.
  - Employees who have significant roles in the internal control.
  - Others where the fraud could have a material effect on the financial statements.

23. We have no knowledge of any allegations of fraud or suspected fraud affecting the City's financial statements received in communications from employees, former employees, analysts, regulators, or others.
24. We have no knowledge of noncompliance or suspected noncompliance with laws and regulations whose effects were considered when preparing financial statements.
25. We have disclosed to you all known actual or possible litigation and claims whose effects should be considered when preparing the financial statements.
26. We have disclosed to you there are no known related parties. Therefore, there are no known transactions with related parties that require disclosure in the City's financial statements.
27. We have informed you that the City has no knowledge of any significant deficiencies, in the design or operation of internal controls that could adversely affect the City's ability to record, process, summarize and report financial data, other than the OPEB allocation and capitalization of interest cost on allowable projects in which you have reported to us and the City has responded in your report on internal control and compliance.
28. We are aware of no communications from regulatory agencies concerning noncompliance with, or deficiencies in, financial reporting practices.
29. During the course of your audit, you may have accumulated records containing data which should be reflected in our books and records. All such data have been so reflected. Accordingly, copies of such records in your possession are no longer needed by us.
30. We have not completed the process of evaluating the effect that will result from adopting the guidance in Governmental Accounting Standards Board (GASB) Statements No. 72-82, as discussed in Note 13. The City is therefore unable to disclose the effect that adopting the guidance in GASB Statements No. 72-82 may have on its financial position and the results of operations when such guidance is adopted.

#### **Supplementary Information**

31. With respect to supplementary information presented in relation to the financial statements as a whole:
  - a. We acknowledge our responsibility for the presentation of such information.
  - b. We believe such information, including its form and content, is fairly presented in accordance with accounting principles generally accepted in the United States of America.
  - c. The methods of measurement have not changed from the prior period, but the presentation has changed from those used in the prior period due to change in the presentation for the other post-employment benefits in the internal service funds.
  - d. Underlying significant assumptions or interpretations regarding the measurement or presentation of such information are disclosed in the financial statements.
  - e. When supplementary information is not presented with the audited financial statements, we will make the audited financial statements readily available to the intended users of the supplementary information no later than the date of issuance of the supplementary information and the auditor's report thereon.
32. With respect to the required supplementary information presented as required by the Governmental Accounting Standards Board to supplement the basic financial statements:
  - a. We acknowledge our responsibility for the presentation of such required supplementary information.
  - b. We believe such required supplementary information is measured and presented in accordance with guidelines prescribed by accounting principles generally accepted in the United States of America and/or budgetary accounting principles as described in the financial statements.
  - c. The methods of measurement or presentation have changed from those used in the prior period due to the implementation of GASB 68 and GASB 71.

- d. Underlying significant assumptions or interpretations regarding the measurement or presentation of such information are disclosed in the financial statements.
- e. When required supplementary information is not presented with the audited financial statements, we will make the audited financial statements readily available to the intended users of the required supplementary information no later than the date of issuance of the required supplementary information and the auditor's report thereon.
